2. WHAT'S IN THE BOX

- Anker Nano Power Bank (30W, Built-In USB-C Cable)
- Welcome Guide
- 24-Month Worry-Free Warranty
- Friendly Customer Service

3. PRODUCT OVERVIEW

3.1 Key Features

- **Built-In USB-C Cable:** Integrated cable for charging phones, tablets, and laptops, and for recharging the power bank itself.
- **30W Bi-Directional Charging:** Supports 30W two-way fast charging, allowing the power bank to recharge quickly and to deliver fast charges to compatible devices.
- **10,000mAh Capacity:** Provides substantial power for multiple device charges.
- **Vibrant Color Screen:** Digital display for monitoring battery percentage and estimated charge/recharge times.
- **Additional Ports:** Includes one USB-C port and one USB-A port for versatile charging options.
- **Eco-Friendly Design:** Exterior casing made from 80% post-consumer recycled plastic (PCR) to reduce carbon emissions.

Reduced Carbon Emissions by 80%**

*No bio-based materials were used.

*The exterior casing incorporates 80% post-consumer recycled plastic, contributing to about 69% of the entire product.

**Assessment based on internationally recognized standards ISO 14040 / ISO 14044 for evaluating the cradle-to-gate environmental impacts of this product's manufacturing process.

4. SETUP

4.1 Initial Charging of the Power Bank

Before first use, fully charge your Anker Nano Power Bank. Use the built-in USB-C cable or an external USB-C cable with a 30W Power Delivery charger (not included) to recharge the power bank. A full recharge takes approximately 1.5 hours.

30W High-Speed Recharge

Fully Recharge in **1.5 H**

Note: Data based on internal lab testing with a 30W Power Delivery charger and a built-in USB-C cable or USB-C to C cable. (Charger not included)

5. OPERATING INSTRUCTIONS

5.1 Charging Your Devices

Connect your device to the power bank using the built-in USB-C cable or one of the additional USB-C or USB-A ports. The power bank will automatically begin charging. The digital display will show the remaining battery percentage and estimated time to full charge for your connected device.

Charge the iPhone 15 Lineup From 0 to 50% Within 30 Min*

30W Max**

*Data based on internal lab testing.

**Actual charging power varies based on the device. Some phones may not reach the maximum 30W output.

5.2 Recharging the Power Bank

To recharge the power bank, connect its built-in USB-C cable to a compatible wall charger. The digital display will indicate the charging status and estimated time until the power bank is fully charged.

5.3 Using the Digital Display

Press the button on the side of the power bank to activate the vibrant color screen. It displays the remaining battery percentage, estimated hours, and minutes until the power bank is fully recharged or until the connected device is fully charged.

Reduced Carbon Emissions by 80%**

*No bio-based materials were used.

*The exterior casing incorporates 80% post-consumer recycled plastic, contributing to about 69% of the entire product.

**Assessment based on internationally recognized standards ISO 14040 / ISO 14044 for evaluating the cradle-to-gate environmental impacts of this product's manufacturing process.

5.4 Simultaneous Charging

The power bank can charge multiple devices simultaneously using its various ports. Note that when multiple ports are in use, the total output wattage may be distributed among the connected devices.

6. MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and liquids.
- Do not drop or subject the power bank to strong impacts.
- Clean the power bank with a dry, soft cloth. Do not use corrosive cleaners.
- Store the power bank in a cool, dry place when not in use.

7. TROUBLESHOOTING

7.1 Power Bank Not Charging

- Ensure the charging cable is securely connected to both the power bank and the wall charger.
- Verify that the wall charger is functioning correctly and is plugged into a live power outlet.
- Try using a different charging cable or wall adapter.

7.2 Device Not Charging from Power Bank

- Confirm that the power bank has sufficient charge. Check the digital display.
- Ensure the cable connecting your device to the power bank is securely attached.
- Try using a different port on the power bank or a different charging cable.
- Some devices may require a specific charging protocol. Ensure your device is compatible with the power bank's output.
