Mophie Snap+ Powerstation Mini with Stand

5000mAh Qi2 Magnetic Wireless Charger

Model: SNP-PS-MINI-STND-5K

1. OVERVIEW

The Mophie Snap+ Powerstation Mini with Stand is a compact and portable 5000mAh Qi2-certified magnetic wireless charger designed for fast charging of iOS and Android smartphones. It offers up to 15W wireless charging and features an integrated kickstand for versatile viewing.

Key Features:

- **15W Fast Wireless Charging:** Delivers efficient power to iOS and Android devices.
- **MagSafe & Qi2 Compatibility:** Built-in magnets ensure perfect alignment with MagSafe and Qi2-enabled smartphones.
- **5,000mAh Internal Battery:** Provides up to a full charge for most smartphones.
- **Versatile USB-C Port:** Allows for recharging the powerstation or wired charging of devices.
- **Integrated Kickstand:** Supports both portrait and landscape modes for hands-free use.

2. WHAT'S IN THE BOX

- Mophie Snap+ Powerstation Mini with Stand
- 9-inch USB-C to USB-C Cable

3. SETUP

3.1 Charging the Powerstation Mini

Before first use, fully charge your Mophie Snap+ Powerstation Mini. Use the included USB-C to USB-C cable to connect the powerstation's USB-C port to a compatible USB-C power adapter (not included). The LED indicator lights on the side will show the charging progress. All four LEDs will be solid when fully charged.

3.2 Attaching to a Compatible Device

The powerstation features built-in magnets for easy attachment to MagSafe and Qi2-enabled smartphones. Simply

align the powerstation with the back of your compatible smartphone. The magnets will snap it into place, initiating wireless charging.

4. OPERATING INSTRUCTIONS

4.1 Wireless Charging

Once the powerstation is magnetically attached to your compatible smartphone, wireless charging will begin automatically. Ensure your device is Qi2 or MagSafe compatible for optimal performance. The powerstation can provide up to 15W of wireless power.

4.2 Wired Charging

For devices that are not wireless charging compatible, or for faster charging, use the USB-C port on the powerstation. Connect your device to the powerstation using the included USB-C to USB-C cable or another compatible charging cable. The USB-C port offers versatile charging options.

4.3 LED Indicator Lights

The LED lights on the side of the powerstation indicate the current battery level and charging status. Refer to the Quick Start Guide for detailed information on LED patterns.

5. MAINTENANCE

5.1 General Care

Keep the powerstation clean and dry. Avoid exposing it to extreme temperatures, moisture, or harsh chemicals. Do not disassemble the device.

5.2 Cleaning

Wipe the surface of the powerstation with a soft, lint-free cloth. Do not use abrasive cleaners or solvents.

5.3 Storage

When not in use for extended periods, store the powerstation in a cool, dry place. It is recommended to fully charge the device every three months to maintain battery health.

6. TROUBLESHOOTING

6.1 Device Not Charging Wirelessly

- Ensure your smartphone is Qi2 or MagSafe compatible.
- Verify the powerstation is adequately charged.
- Check for proper alignment between the powerstation and your phone. Remove any thick cases that might interfere with magnetic connection or wireless charging.

6.2 Slow Charging

- Ensure you are using a compatible power adapter for recharging the powerstation.
- For wired charging, use the included USB-C to USB-C cable or a high-quality, certified cable.
- Avoid using your device heavily while charging, as this can slow down the process.

6.3 Overheating

- It is normal for the powerstation and your device to become slightly warm during charging.
- If excessive heat is detected, disconnect the powerstation and allow it to cool down before resuming use.
- Ensure proper ventilation and avoid charging in direct sunlight or enclosed spaces.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	4.02 x 2.76 x 0.67 inches
Item Weight	9.3 ounces
Item Model Number	SNP-PS-MINI-STND-5K
