ANJIELO SMART F8 7-inch Smart Home Control Panel User Manual

Model: F8 | Brand: ANJIELO SMART

1. INTRODUCTION

The ANJIELO SMART F8 is a 7-inch touch control panel designed to centralize smart home device management. It integrates features such as lighting control, dimmer functions, background music playback, and two-way video doorbell intercom. This manual provides detailed instructions for setting up, operating, and maintaining your smart home control panel.

2. KEY FEATURES

- **7-inch Multi-Touch LCD Screen with Rotary Switch:** Features a main 7-inch multi-touch LCD screen complemented by a 1.2-inch LCD touch screen on the rotary switch, ideal for thermostat and dimmer control.
- **All-in-One Control Center:** Manage up to 100 USB devices directly from the screen, including lighting, locks, thermostats, and scenes, without needing a mobile application for every action.
- **Integrated Audio:** Built-in speakers support two-way intercom with Tuya devices and synchronous music playback from connected cell phones or panels.
- **App Installation Support:** Supports 16GB TF card (not included) for downloading preferred music players or other applications.
- **Scene Customization:** Create and activate different smart home scenes to match your lifestyle, automating multiple appliances with a single tap.

3. SETUP AND INSTALLATION

The ANJIELO SMART F8 control panel is designed for straightforward installation, replacing existing dimmers. The process typically takes about 10 minutes.

3.1 Wiring and Mounting

Connect the wires hidden in the wall directly to the dimmer. The unit is compatible with a standard 86 bottom box, eliminating the need for rerouting or rebuilding walls.

The central control panel can replace the Zigbee gateway and support 100+ sub-devices under the Zigbee communication protocol to access the network.

Smart switches, sockets, sensors, door locks... Really realize that a single panel is in charge of the whole home.
