Flamaker ADL230058

Flamaker 6' x 3' Metal Frame Outdoor Storage Shed

MODEL: ADL230058 - INSTRUCTION MANUAL

1. Introduction

Thank you for choosing the Flamaker 6' x 3' Metal Frame Outdoor Storage Shed. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage solution. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

This outdoor shelter is designed to provide a waterproof and UV-resistant space for storing items such as bikes, motorcycles, firewood, and other outdoor equipment. Its sturdy metal frame and durable tarp ensure protection against various weather conditions.

2. Safety Information

- Always assemble the shed on a flat, level surface.
- Ensure all connections are securely fastened before use.
- Do not use sharp objects near the tarp material to prevent damage.
- In areas prone to strong winds, additional anchoring may be required beyond the provided ropes.
- Keep children and pets away from the assembly area.
- Do not store flammable materials or hazardous chemicals inside the shed.

3. Package Contents

Please verify that all components are present before starting assembly. If any parts are missing or damaged, please contact customer support.

- Thickened Aluminum Frame Tubes
- Connectors and Fasteners (Spring clips, butterfly nuts)
- Waterproof and UV-resistant Tarp
- Roll-up Zipper Door
- Spring Ropes for Tarp Securing
- Ground Anchoring Ropes (for optional use)
- Instruction Manual

4. Setup and Assembly Instructions

Assembly is designed to be straightforward. It is recommended to have at least two people for easier installation.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out. Identify each component using the parts list (not included in this document, refer to packaging).
2. **Assemble the Base Frame:** Connect the base frame tubes using the appropriate connectors. Ensure the spring clips engage fully into the holes for a secure connection.
3. **Construct the Vertical Supports:** Attach the vertical frame tubes to the base. Some connections may use butterfly nuts, which can be tightened by hand without tools.
4. **Install the Roof Frame:** Connect the roof frame tubes to the vertical supports. Again, ensure spring clips are fully engaged.
5. **Drape the Tarp:** Carefully drape the waterproof tarp over the assembled metal frame. Ensure the tarp is oriented correctly, with the zippered door facing the desired entrance.
6. **Secure the Tarp:** Use the provided spring ropes to secure the tarp to the frame. The ropes should be threaded through the fixed rope holes on the tarp and attached to the frame, allowing for easy adjustment to ensure a snug fit.
7. **Check All Connections:** Double-check all frame connections and tarp fastenings to ensure stability and security.

Figure 1: Frame Details - Illustrates spring buckles for easy connection, butterfly nuts for solid installation, and two zippers for the door.

Figure 2: Outer Details - Shows the plastic buckle, stretch rope, and fixed rope hole for securing the tarp.

5. Operating Instructions

The Flamaker storage shed features a convenient roll-up zipper door for easy access and security.

- **Opening the Door:** Unzip the door completely. Roll the door panel upwards and secure it at the top using the integrated snaps or buckles to keep it open.
- **Closing the Door:** Unfasten the snaps/buckles, unroll the door panel, and zip it down completely. This helps protect contents from weather and keeps small animals out.

Figure 3: Front View of Assembled Shed - Demonstrates the shed's design with the roll-up zipper door.

Figure 4: Shed in Use - Illustrates the shed's capacity, storing bicycles.

Figure 5: Shed Storing Firewood - Shows the shed's versatility for storing various items.

6. Maintenance

Proper maintenance will extend the lifespan of your Flamaker storage shed.

- **Cleaning:** Clean the tarp regularly with mild soap and water. Avoid harsh chemicals or abrasive cleaners that could damage the material. Rinse thoroughly and allow to air dry.
- **Tarp Care:** The tarp is made of all-weather double-layer ripstop material with waterproof and UV-resistant properties. To maintain its integrity, avoid scratching the surface with hard objects.
- **Frame Inspection:** Periodically check all frame connections and fasteners to ensure they remain tight and secure. Tighten any loose butterfly nuts.
- **Weather Considerations:** While designed for outdoor use, consider additional anchoring in extreme weather conditions (e.g., high winds, heavy snow). Clear any accumulated snow from the roof to prevent structural strain.

Figure 6: Material Properties - Highlights the UV-resistant and waterproof features of the tarp.

7. Troubleshooting

- **Shed Instability:** Ensure all frame connections are fully engaged with spring clips and butterfly nuts are tightened. Verify the shed is on a level surface. Utilize the provided rope holes for additional ground anchoring if needed.
- **Water Leakage:** Check that the tarp is properly draped and secured, with no gaps or loose areas. Ensure the zipper door is fully closed. Inspect the tarp for any tears or punctures.
- **Difficulty with Zipper:** Ensure the zipper path is clear of any fabric obstructions. Apply a silicone-based lubricant if the zipper is stiff.
- **Tarp Damage:** If the tarp experiences minor tears, repair kits for outdoor fabrics can be used. For significant damage, contact customer service for replacement options.

8. Specifications

Feature	Detail
---------	--------

Brand	Flamaker
Model Number	ADL230058
Material	Aluminum Frame, Ripstop Tarp
Color	Gray
Product Dimensions (L x W x H)	70"L x 37"W x 62.5"H
Water Resistance Level	Waterproof
UV Protection	Yes
Assembly Required	Yes
Item Weight	35.7 pounds
