K18 K18-32011

K18 Molecular Repair Hair Oil - Instruction Manual

Brand: K18

Model: K18-32011

PRODUCT OVERVIEW

The K18 Molecular Repair Hair Oil is a weightless, silicone-free formula designed to repair hair at a molecular level, reducing frizz, enhancing shine, and providing heat protection. It is suitable for all hair types.

Key Benefits

- Reverses frizz-causing damage by working at the molecular level.
- Reduces frizz and flyaways, smoothing the cuticle without weighing hair down.
- Enhances shine and color vibrancy for nourished, moisturized hair.
- Provides heat protection up to 450°F (232°C) to prevent further damage.
- Strengthens and smooths hair by working on two levels of the hair fiber.

SAFETY INFORMATION

For external use only. Avoid contact with eyes. Keep away from naked flame or direct heat sources.

USAGE INSTRUCTIONS

General Application Guidelines

The K18 Molecular Repair Hair Oil is a highly concentrated formula. Start with 1-3 drops and build as needed based on hair type and length. It can be applied to damp, towel-dried hair before styling, or to dry hair as a finishing product.

highly concentrated formula.

Start with 1-3 drops,
build as needed.

Use on damp hair for:
strengthening benefits
+ frizz reduction

Use on dry hair to:
smooth frizz and flyaways
+ add shine

Detailed Application Steps

1. **Dispense:** Begin by dispensing 1-3 drops of the oil into the palm of your hand. For thicker or longer hair, you may gradually increase the amount, but always start small.
2. **Emulsify:** Rub your hands together to evenly distribute the oil across your palms. This helps ensure a consistent application.
3. **Apply to Damp Hair:** For strengthening benefits and frizz reduction, apply the oil to clean, towel-dried hair before any styling. Focus on the mid-lengths and ends.
4. **Apply to Dry Hair:** To smooth frizz and flyaways, and to add shine, apply a small amount to dry hair as a finisher.
5. **Heat Protection:** The oil provides heat protection up to 450°F (232°C), making it suitable for use before heat styling.

PRODUCT TECHNOLOGY & INGREDIENTS

K18PEPTIDE™

The patented K18PEPTIDE™ technology works at the molecular level to reverse damage that causes frizz and

promotes long-term strength and smoothness in the hair.

Key Ingredients for Performance

- **Avocado Oil:** Known for having one of the highest smoke points, it helps provide heat protection up to 450°F (232°C).
- **Sunflower Oil, Hemisqualane, and Squalane:** These natural oils reinforce the hair's natural moisture barrier, contributing to immediate frizz reduction and enhanced shine.

**silicone-free,
weightless oil is

Item Model Number	K18-32011
UPC	858511001500

Hair Type	All
Material Type Free	Silicone Free
Scent	Unscented
Liquid Volume	1 Fluid Ounces (30 ml)

TROUBLESHOOTING

- **Hair appears greasy after application:** This indicates too much product was used. The K18 Molecular Repair Hair Oil is highly concentrated. Reduce the amount to 1-2 drops and apply only to mid-lengths and ends, avoiding the scalp.
- **No noticeable improvement in frizz/shine:** Ensure hair is towel-dried to a damp state before applying for optimal absorption. For dry hair application, ensure hair is clean and free of heavy product buildup. Consistent use is recommended for best results.

MAINTENANCE

- **Storage:** Store the K18 Molecular Repair Hair Oil in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Cap Security:** Always ensure the dropper cap is securely closed after each use to prevent air exposure, contamination, and evaporation of the product.

WARRANTY AND SUPPORT

For detailed warranty information, product inquiries, or customer support, please visit the official K18 website or contact their customer service department directly. Keep your purchase receipt for any warranty claims.

COMPLEMENTARY PRODUCTS

For a comprehensive hair repair and maintenance routine, K18 offers a range of products designed to work synergistically. Consider incorporating the K18 Leave-In Molecular Repair Mask into your routine for enhanced results.

are you using the K18 mask today?
