### Vulpes Goods SB-01

## Vulpes Goods Ultrasonic Anti-Bark Device for Dogs: User Manual

Model: SB-01

### 1. INTRODUCTION

Thank you for choosing the Vulpes Goods Ultrasonic Anti-Bark Device. This device is designed to assist in training your dog to reduce unwanted barking and correct other undesirable behaviors using humane ultrasonic sound and other training modes. Please read this manual carefully before use to ensure proper operation and safety for both you and your pet.

## 2. PRODUCT OVERVIEW AND FEATURES

The Vulpes Goods Ultrasonic Anti-Bark Device is a compact, rechargeable, and user-friendly tool. It features multiple training modes and a flashlight function, making it versatile for various training scenarios.

- **Humane Training:** Emits a 25KHz ultrasonic sound, inaudible to humans, to effectively deter unwanted dog behavior.
- **Safety First:** 100% safe and effective for dogs weighing 3-60kg, aged 6 months to 8 years. Includes protection against overuse with an automatic 8-second shut-off for ultrasonic sound.
- **Compact and Portable:** Lightweight design fits easily in your hand or pocket, ideal for training on the go.
- **4-in-1 Functionality:** Offers a beep tone, normal ultrasonic sound, strong ultrasonic sound with flashlights, and a dedicated flashlight function.
- **Rechargeable Battery:** Provides up to 14 days of use on a single 2-hour charge. Includes a USB charging cable and lanyard.
- **Effective Range:** Operates effectively up to 10 meters.

### 3. SETUP

#### 3.1 Charging the Device

1. Locate the USB charging port on the device.
2. Connect the provided USB charging cable to the device and to a compatible USB power source (e.g., power bank, power adapter, PC).
3. The indicator light will show charging status. A full charge takes approximately 2 hours.
4. Once fully charged, disconnect the cable. The device is ready for use for up to 14 days.

Image 8: Visual representation of the six training modes available on the device, including beep tones, ultrasonic sounds, and flashlights.

## 4.1 Understanding the Modes

- **Beep Tone (Modes 1 & 2):** Emits an audible beep. The effective range for beep tones is 5-15 meters.
  - Mode 1: 2-second beep.
  - Mode 2: 2-7 second beep.
- **Normal Ultrasonic Sound (Modes 3 & 4):** Emits a 25KHz ultrasonic sound, inaudible to humans. The effective range for normal ultrasonic sound is 5 meters.
  - Mode 3: 2-second ultrasonic sound.
  - Mode 4: 2-7 second ultrasonic sound.
- **Strong Ultrasonic Sound + Flashlights (Modes 5 & 6):** Combines strong ultrasonic sound with visual flashlights for enhanced correction. The effective range for strong ultrasonic sound with flashlights is 10 meters.
  - Mode 5: 2-second strong ultrasonic sound + flashlights.

- Mode 6: 2-7 second strong ultrasonic sound + flashlights.

The device also features an automatic shut-off after 8 seconds of continuous ultrasonic sound to prevent overuse and ensure your dog's safety.

## 4.2 General Training Guidelines

- 1. Identify the Behavior:** Observe your dog to understand when and why unwanted barking or behavior occurs.
- 2. Choose a Mode:** Start with a milder mode (e.g., beep tone or normal ultrasonic) and escalate if necessary.
- 3. Timing is Key:** Activate the device immediately when the unwanted behavior starts. Consistency is crucial.
- 4. Use a Command:** Pair the device's activation with a verbal command like "Quiet" or "No."
- 5. Reward Good Behavior:** When your dog stops the unwanted behavior, immediately reward them with praise or a treat. This reinforces the desired action.
- 6. Be Patient:** Training takes time and consistency. Do not get discouraged if results are not immediate.
- 7. Range:** Ensure you are within the effective range (up to 10 meters) during training.

## 4.3 Flashlight Function

The device includes a separate flashlight function for convenience in low-light conditions. Activate it by pressing the dedicated flashlight button. This function can be used independently of the training modes and has an effective range of 20 meters.

Image 12: A person using the device as a flashlight, highlighting its utility beyond dog training.

## 5. MAINTENANCE

- Cleaning:** Wipe the device with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Battery Care:** To prolong battery life, avoid fully discharging the device frequently. Charge it regularly, even if not in constant use.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not turning on.	Low battery.	Charge the device for at least 2 hours.
Dog not responding to ultrasonic sound.	<ul style="list-style-type: none"><li>Dog is outside the effective range (10 meters).</li><li>Dog is too young (under 6 months) or too old (over 8 years).</li><li>Dog's hearing may be impaired.</li><li>Dog has become desensitized.</li></ul>	<ul style="list-style-type: none"><li>Ensure you are within 10 meters of your dog.</li><li>Confirm your dog meets the recommended age range.</li><li>Consult a veterinarian if you suspect hearing issues.</li><li>Try a different mode (e.g., strong ultrasonic + flashlight) or vary your training approach.</li></ul>
Battery life is shorter than expected.	Frequent use of strong ultrasonic mode or flashlight.	Reduce continuous use of high-power modes. Ensure full charge before use.

## 7. SPECIFICATIONS

Feature	Detail
Brand	Vulpes Goods
Model	SB-01
Ultrasonic Frequency	25 KHz
Effective Range (Ultrasonic)	Up to 10 meters
Effective Range (Flashlight)	Up to 20 meters
Recommended Dog Weight	3 - 60 kg
Recommended Dog Age	6 months - 8 years
Battery Type	1 Lithium Ion battery (included)
Charging Time	Approx. 2 hours
Battery Life (per charge)	Up to 14 days
Dimensions (Package)	13.2 x 7.5 x 5.4 cm
Weight (Package)	160 g

## 8. SAFETY INFORMATION

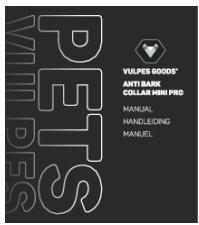

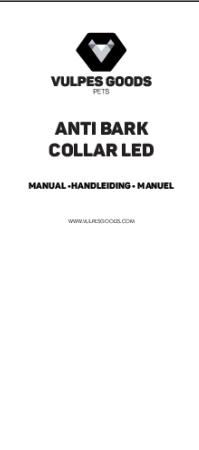

- This device is intended for dog training purposes only. Do not use it on other animals or for any other purpose.
- Keep out of reach of children.
- Do not aim the device directly at human ears. While the ultrasonic sound is generally inaudible to humans, prolonged exposure at close range may cause discomfort.
- Avoid exposing the device to water or extreme moisture.
- Do not attempt to disassemble or modify the device. This will void the warranty and may cause damage or injury.
- Always use the device responsibly and humanely. Never use it to intentionally harm or distress your pet.

## 9. WARRANTY AND SUPPORT

For warranty information or technical support, please contact Vulpes Goods customer service through the retailer where you purchased the product. Please have your purchase receipt and product model number (SB-01) available when contacting support.
