Blackview K1

Blackview K1 Bluetooth Wireless Keyboard User Manual

Model: K1

Introduction

Thank you for choosing the Blackview K1 Bluetooth Wireless Keyboard. This ultra-slim, modern keyboard is designed to provide a seamless and responsive typing experience, making it an ideal companion for your tablet or other Bluetooth-enabled devices. Its compact design and long-lasting battery ensure productivity and convenience whether you are at the office, home, or on the go. This manual provides detailed instructions on how to set up, operate, and maintain your keyboard.

Safety Information

- Keep the keyboard away from water, moisture, and extreme temperatures.
- Do not attempt to disassemble or repair the keyboard yourself. Refer all servicing to qualified personnel.
- Avoid dropping or subjecting the keyboard to strong impacts.
- Use only the specified charging method and power source to prevent damage.
- Dispose of batteries and electronic components responsibly according to local regulations.

Package Contents

Please check the package contents upon unboxing. If any items are missing or damaged, contact customer support.

Figure 2: Angled view of the Blackview K1 Bluetooth Wireless Keyboard, highlighting its slim profile and key design.

1. **Function Keys (F1-F12):** Provide quick access to system functions like media control, volume, and brightness.
2. **Scissor-Switch Keys:** Designed for comfortable and responsive typing.
3. **Integrated Touchpad:** For navigation and cursor control.
4. **Bluetooth Indicator Light:** Shows Bluetooth connection status.
5. **Charging Port:** For connecting the USB charging cable.
6. **Power Switch:** To turn the keyboard on or off.

Setup

1. Charging the Keyboard

Before first use, fully charge the keyboard. A full charge typically takes 2-3 hours.

1. Connect the small end of the USB charging cable to the charging port on the keyboard.
2. Connect the other end of the USB cable to a USB power adapter (not included) or a computer's USB port.
3. The charging indicator light will illuminate during charging and turn off when fully charged.

2. Bluetooth Pairing

Follow these steps to pair your Blackview K1 keyboard with your device.

1. Ensure the keyboard is fully charged.
2. Turn on the keyboard by sliding the Power Switch to the "ON" position. The power indicator light will briefly illuminate.
3. Press and hold the **Fn** key and the **C** key simultaneously for 3-5 seconds. The Bluetooth indicator light will start blinking, indicating the keyboard is in pairing mode.
4. On your device (tablet, smartphone, computer), go to the Bluetooth settings.
5. Enable Bluetooth and search for available devices.
6. Select "Blackview K1" or a similar name from the list of found devices.
7. If prompted, enter the pairing code displayed on your device using the Blackview K1 keyboard, then press **Enter**.
8. Once paired, the Bluetooth indicator light on the keyboard will stop blinking and remain solid or turn off, depending on the model. Your keyboard is now ready for use.

Note: The keyboard will automatically attempt to reconnect to the last paired device when powered on.

Operating Instructions

Basic Usage

- **Typing:** Simply open any text editor or input field on your paired device and begin typing.
- **Function Keys:** Use the **Fn** key in combination with the F1-F12 keys to access special functions (e.g., volume control, media playback, screen lock). The specific functions may vary slightly depending on your device's operating system.
- **Touchpad:** The integrated touchpad functions like a mouse. Use single-finger taps for left-click, two-finger taps for right-click, and two-finger scrolls for scrolling.

Power Management

- **Automatic Sleep Mode:** To conserve battery, the keyboard will enter sleep mode after a period of inactivity. Press any key to wake it up.
- **Turning Off:** When not in use for an extended period, slide the Power Switch to the "OFF" position to completely power down the keyboard and save battery life.

Maintenance

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the keyboard surface. For stubborn dirt, slightly dampen the cloth with water or a mild, non-abrasive cleaner. Do not spray liquids directly onto the keyboard.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures. If storing for a long period, ensure the keyboard is fully charged before storage and recharge it every few months to maintain battery health.

- **Avoid Spills:** Liquids can severely damage the internal components. In case of a spill, immediately turn off the keyboard, disconnect it from any power source, and allow it to dry completely before attempting to use it again.

Troubleshooting

Problem	Possible Cause	Solution
Keyboard does not turn on.	Battery is low or dead.	Charge the keyboard fully.
Keyboard does not connect via Bluetooth.	Keyboard not in pairing mode; Device Bluetooth off; Out of range; Interference.	Ensure keyboard is in pairing mode (Fn+C). Check device Bluetooth settings. Move keyboard closer to device. Reduce interference from other wireless devices.
Keys are not responding or typing incorrectly.	Low battery; Connection issue; Software glitch.	Recharge the keyboard. Re-pair the keyboard. Restart your device.
Touchpad is not working.	Touchpad disabled; Software issue.	Ensure touchpad is not accidentally disabled (check function keys). Re-pair the keyboard. Restart your device.
