LG 75QNED75URA

LG QNED75 Series 75-Inch Class QNED LED Smart TV User Manual

Model: 75QNED75URA | Brand: LG

1. PRODUCT OVERVIEW

The LG QNED75 Series Smart TV combines Quantum Dot and NanoCell color technologies for a vivid and immersive viewing experience. It features Dimming Pro for deep black levels and is powered by the a5 AI Processor Gen6 for enhanced picture detail and improved sound. The webOS 23 platform offers easy access to streaming services and over 300 free LG Channels. This model also includes FILMMAKER MODE for cinematic viewing and Game Optimizer for an enhanced gaming experience.

2. SETUP AND INSTALLATION

2.1 What's in the Box

- Power Cable
- Remote Control
- Stand

2.2 Physical Setup

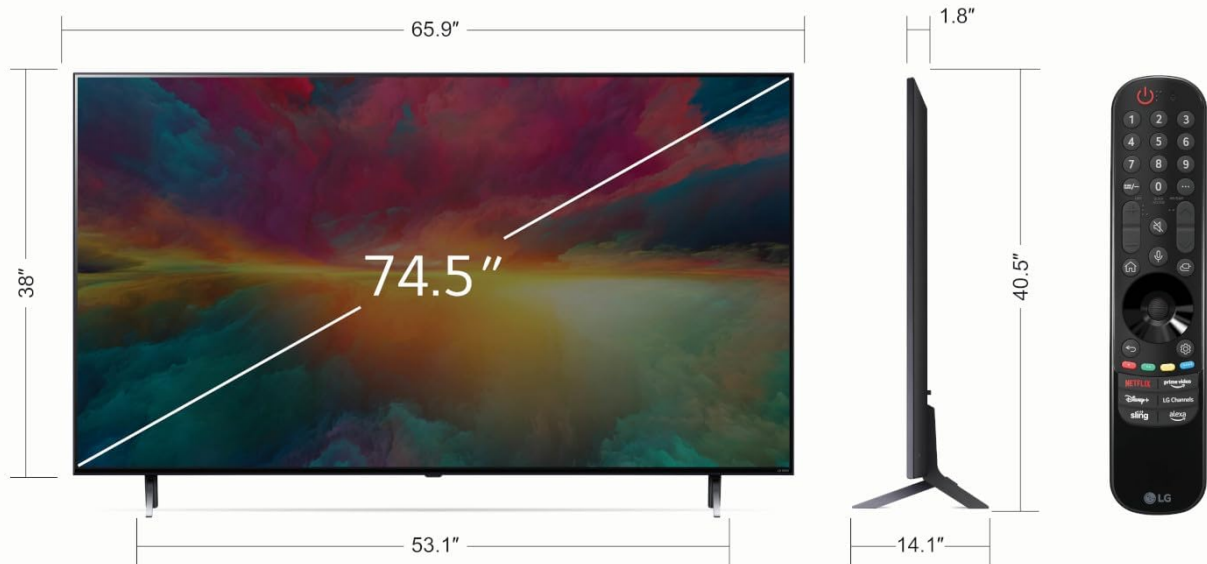

Carefully unpack all components from the box. Ensure you have a stable surface for the TV stand or appropriate wall mount hardware if you choose to wall-mount the television. Connect the power cable to the TV and a power outlet. For initial setup, it is recommended to connect the TV to your home network via an Ethernet cable for a stable internet connection, though Wi-Fi setup is also available.

3.2 Navigating webOS 23

The LG webOS 23 operating system provides a user-friendly interface for accessing content. Use the Magic Remote's pointer to select apps, settings, and features. Quick Cards allow you to group your favorite applications for faster access. The a5 AI Processor Gen6 enhances picture and sound quality dynamically.

ThinQ AI & webOS

Enjoy your favorite content including fitness, sports, entertainment and more

*Internet connection and subscriptions to streaming services are required; number of LG Channels subject to change

3.3 Key Features

- **Quantum Dot NanoCell:** Experience uniquely bright and colorful images with enhanced contrast thanks to Dimming Pro.
- **a5 AI Processor Gen6:** AI-powered processor upscales content to 4K and optimizes picture and sound based on room lighting.
- **webOS 23 & LG Channels:** Access a vast library of streaming apps and over 300 free LG Channels without subscription.
- **Home Cinema Experience:** Enjoy virtual 5.1 surround sound and FILMMAKER MODE for an immersive movie experience.
- **Powerful Gameplay:** Customize your gaming settings quickly with LG Game Optimizer and access GeForce NOW.

Game Optimizer & Dashboard

Quickly adjust all your game settings in one location.

4. MAINTENANCE

To ensure the longevity and optimal performance of your LG QNED75 TV, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, dry microfiber cloth to gently wipe the screen. For stubborn smudges, lightly dampen the cloth with water or a specialized screen cleaner. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Frame:** Wipe the TV frame and stand with a soft, dry cloth.
- **Ventilation:** Ensure the TV's ventilation openings are not blocked. Adequate airflow prevents overheating.
- **Power Management:** Unplug the TV from the power outlet during lightning storms or when it will be left unattended for long periods.

5. TROUBLESHOOTING

This section provides solutions to common issues you might encounter with your LG QNED75 TV.

5.1 No Power

- Check if the power cord is securely plugged into both the TV and the wall outlet.
- Verify that the power outlet is functional by plugging in another device.

- Try pressing the power button on the TV itself, not just the remote.

5.2 No Picture or Distorted Picture

- Ensure the correct input source is selected (e.g., HDMI 1, TV).
- Check all cable connections between the TV and external devices (cable box, Blu-ray player, etc.).
- If using an antenna, check its connection and position.
- Perform a picture test through the TV's settings menu.

5.3 No Sound or Low Sound

- Check the volume level on both the TV and any connected audio devices.
- Ensure the TV is not muted.
- Verify audio cable connections.
- If using external speakers, ensure they are powered on and correctly configured in the TV's sound settings.

5.4 Remote Control Not Working

- Replace the batteries in the remote control.
- Ensure there are no obstructions between the remote and the TV's sensor.
- If it's a Magic Remote, try re-pairing it with the TV according to the TV's on-screen instructions or user manual.
