

Overstock FGF8203A110V

Overstock Modern Globel Satin Nickel LED Caged Ceiling Fan with Light and Remote (Model: FGF8203A110V) User Manual

1. INTRODUCTION

Thank you for purchasing the Overstock Modern Globel Satin Nickel LED Caged Ceiling Fan with Light and Remote. This manual provides essential information for the safe installation, operation, and maintenance of your new ceiling fan. Please read these instructions thoroughly before beginning installation and retain them for future reference.

This 27-inch ceiling fan features a modern industrial design with a brushed nickel finish, three plastic blades, and an integrated LED light. It includes a reversible motor for year-round comfort and is controlled via a handheld remote.

2. IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- Read all instructions before installing the fan.
- Ensure the electrical supply is disconnected at the main fuse box or circuit breaker before installation or servicing.
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- The fan must be mounted to a ceiling joist or support capable of supporting a minimum of 35 lbs (15.9 kg).
- Do not operate the fan with damaged blades or housing.
- Avoid placing objects in the path of the blades.
- This fan is designed for indoor use only.
- Use only with a non-dimmable wall switch. Dimmable switches are not compatible.

3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Ceiling Fan Assembly (Motor Housing, Light Kit)
- 3 Plastic Blades
- Handheld Remote Control

- 6-inch Down Rod
- Mounting Bracket and Hardware Kit
- Instruction Manual

4. INSTALLATION GUIDE

Professional installation is recommended if you are not experienced with electrical wiring.

4.1 Pre-Installation

1. Turn off power at the circuit breaker or fuse box.
2. Ensure the mounting location can support the fan's weight and is suitable for a 27-inch blade span.
3. Unpack all components and inspect for any damage.

4.2 Mounting the Fan

1. Attach the mounting bracket to the ceiling outlet box using the provided screws. Ensure the bracket is securely fastened to a structural ceiling member.
2. Insert the 6-inch down rod through the canopy and motor housing. Secure with the provided pin and screw.
3. Carefully lift the fan assembly and hang it on the mounting bracket hook, allowing for wiring connections.

4.3 Electrical Connections

- Connect the fan's electrical wires to the household wiring according to standard electrical codes (typically black to black, white to white, and green/bare copper to ground).
- Ensure all connections are secure using wire nuts.

4.4 Final Assembly

1. Attach the three plastic blades to the motor housing using the provided screws.
2. Carefully slide the canopy up to the ceiling and secure it to the mounting bracket with the screws.
3. Ensure all connections are tight and the fan is stable before restoring power.

Image 2: A diagram illustrating the key dimensions of the ceiling fan, including the 27-inch blade span, 6-inch downrod, and 19.5-inch ceiling-to-bottom-of-light measurement.

5. OPERATING INSTRUCTIONS

After successful installation, restore power to the fan. The fan and light are controlled using the included handheld remote control or a compatible smart application.

5.1 Fan Operation

- The fan features 6 adjustable speeds. Use the remote control to cycle through speeds or select a specific speed.
- **Reversible Motor:** This fan includes a reversible DC motor for year-round use. In warm weather, the fan should rotate counter-clockwise to create a downdraft, providing a cooling effect. In cool weather, the fan should rotate clockwise to create an updraft, circulating warm air near the ceiling.

5.2 Light Operation

- The integrated LED light provides a 4000K color temperature.
- Use the remote control to turn the light on or off.

6. REMOTE CONTROL FUNCTIONS

The handheld remote control allows for convenient operation of your ceiling fan and light. Ensure batteries are correctly installed (typically 2x AAA, not always included).

- **Fan ON/OFF:** Powers the fan on or off.
- **Fan Speed Buttons:** Adjusts the fan speed from 1 (low) to 6 (high).
- **Light ON/OFF:** Turns the LED light on or off.
- **Reverse Function:** Changes the direction of the fan blade rotation (clockwise/counter-clockwise).

- **Timer Function:** (If available) Sets the fan to turn off after a specified period.

7. APP CONTROL (FANLAMP PRO)

This ceiling fan supports control via the "FanLamp Pro" smart application, offering additional functionalities such as voice control and customized settings. The application connects via Bluetooth.

7.1 App Download and Pairing

1. Download the "FanLamp Pro" application from your device's app store (e.g., Google Play Store, Apple App Store).
2. Open the app and agree to the privacy policy and user agreement.
3. Ensure your fan is powered on. In the app, click the 'Add Device' button (often represented by a '+' symbol).
4. Follow the on-screen prompts to pair your fan. This typically involves turning the fan's power off and then on at the wall switch, then clicking a 'Pair' button in the app within 5 seconds. The fan light will flash to confirm successful pairing.
5. Once paired, you can control fan speed, light, and other features directly from the app.

Your browser does not support the video tag.

Video 1: A demonstration of how to connect and pair the ceiling fan with the "FanLamp Pro" application, including steps for downloading the app, agreeing to terms, adding a device, and pairing the fan by cycling power and pressing the pair button in the app. It also shows how to change RGB mode within the app.

8. MAINTENANCE

Regular maintenance ensures optimal performance and extends the life of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish or electrical components. Ensure power is off before cleaning.
- **Tightening Screws:** Periodically check all screws on the fan and mounting hardware to ensure they are tight. Loose connections can cause noise or wobble.
- **Blade Cleaning:** Clean the plastic blades gently to avoid bending or scratching them.

9. TROUBLESHOOTING

Before attempting any repairs, ensure the power supply is disconnected.

| Problem | Possible Cause | Solution |
|-----------------------|---|---|
| Fan does not start | No power supply; Loose wire connections; Remote control battery low/dead. | Check circuit breaker/fuse; Verify all wire connections are secure; Replace remote control batteries. |
| Light does not work | Loose wire connections; LED driver issue. | Check light kit wiring; Contact customer support if LED driver is suspected. |
| Fan wobbles | Loose mounting screws; Unbalanced blades. | Tighten all mounting screws; Ensure blades are securely attached and balanced. |
| Remote not responding | Remote battery low/dead; Remote not paired. | Replace remote batteries; Re-pair the remote control with the fan (refer to app control section for pairing process). |

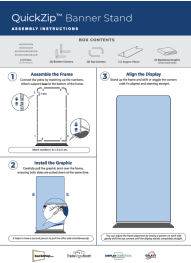

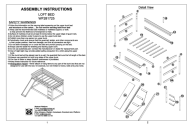

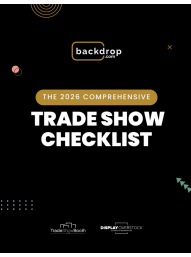

10. SPECIFICATIONS

- **Brand:** Overstock
- **Model Name:** FGF8203A110V
- **Item Model Number:** 709930814687
- **Color:** Satin Nickel
- **Material:** Aluminum, Iron, Plastic
- **Style:** Modern
- **Light Fixture Form:** Ceiling
- **Room Type:** Ideal for small rooms (e.g., hallway, walk-in closet, laundry rooms less than 100 sq ft)
- **Indoor/Outdoor Usage:** Indoor
- **Power Source:** Corded Electric
- **Installation Type:** Semi Flush Mount
- **Control Method:** Remote, App (Bluetooth)
- **Light Source Type:** LED
- **Finish Type:** Brushed Nickel, Satin
- **Shade Material:** Aluminum, Iron, Metal, Plastic
- **Number of Light Sources:** 1
- **Light Color:** Cool White (4000K)
- **Wattage:** 50 watts
- **Brightness:** 4500 lumens
- **Fan Speeds:** 6
- **Airflow (CFM):** 2600
- **Blade Span:** 27.4 inches
- **Ceiling to Bottom of Light:** 19.5 inches (with 6-inch down rod)
- **Sloped Ceiling Adaptable:** Max 15-degree
- **Assembly Required:** No (referring to main fan assembly, some minor assembly required)
- **Water Resistance Level:** Not Water Resistant

11. WARRANTY AND CUSTOMER SUPPORT

For warranty information or technical assistance, please refer to the purchase documentation or contact Overstock customer support. Keep your proof of purchase for any warranty claims.

Contact Information: Please visit the Overstock website or your retailer's support page for current contact details.
