General Assembly Steps:

1. Unpack all components from the packaging and verify them against the parts list provided in your assembly guide.
2. Attach the steel base frame to the tabletop using the provided hardware (screws, bolts, and tools). Ensure all connections are secure and tightened appropriately.

OPERATING INSTRUCTIONS

Adjusting Table Height:

To adjust the table height, locate the lifting mechanism lever, typically positioned underneath the tabletop. Engage the lever and gently lift or lower the tabletop to your desired height. Release the lever to lock the table securely in the chosen position. Ensure the table is stable before use.

Extending the Table Length:

To extend the table from its compact size to a larger dining surface:

1. Ensure the table is in a stable position and clear of any objects.
2. Unlock any locking mechanisms that secure the tabletop sections.
3. Gently pull the main tabletop sections apart from the center to reveal the internal extension leaves.
4. Position the extension leaves into the gaps created. Ensure they are properly seated and aligned.
5. Push the main tabletop sections back together until they are flush with the extensions. Re-engage any locking mechanisms to secure the extended table.

MAINTENANCE AND CARE

Proper care and maintenance will help preserve the appearance and functionality of your Vente-unique MORIALA table for years to come.

Cleaning and General Care:

- Wipe all surfaces regularly with a soft, clean, damp cloth.
- For stubborn marks, use a mild soap solution on a damp cloth, then wipe clean with a fresh damp cloth and dry thoroughly.
- Avoid using abrasive cleaning pads, powders, or chemical cleaners, as these can scratch or damage the lacquered finish.
- Immediately wipe up any spills to prevent staining or moisture damage, especially on the MDF surfaces.
- Protect the tabletop from excessive heat, direct sunlight, and sharp objects. Use coasters and placemats when necessary.
- Periodically check all screws, bolts, and fittings to ensure they remain tight. Re-tighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your Vente-unique MORIALA table, refer to the following common problems and solutions:

Problem: Table is difficult to lift or lower.

Solution: Check for any obstructions in the lifting mechanism. Ensure the mechanism is clean and free of debris. If the mechanism feels stiff, a small amount of silicone-based lubricant may be applied to moving parts, avoiding contact with the tabletop surface. Consult the assembly guide for mechanism details.

Problem: Table extensions do not slide smoothly.

Solution: Inspect the sliding rails for any debris, dust, or damage. Ensure the rails are aligned correctly. If necessary, clean the rails and apply a suitable furniture lubricant (e.g., silicone spray) to facilitate smoother movement.

Problem: Table feels unstable or wobbly.

Solution: Verify that all assembly screws and bolts are securely tightened. Ensure the table is placed on a flat, even surface. If the floor is uneven, adjust the feet if applicable, or use shims to stabilize the table.
