## SAFETY INFORMATION

**WARNING:** To reduce the risk of fire, electric shock, or personal injury, always follow these basic precautions:

- Read all instructions before installing the fan.

- Ensure the installation site is structurally sound and can support the fan's weight (approximately 8.36 lbs).
- All wiring must be in accordance with national and local electrical codes. If you are unfamiliar with wiring, consult a qualified electrician.
- Disconnect power at the circuit breaker or fuse box before installation or servicing.
- Do not operate the fan with damaged parts.
- Avoid placing objects in the path of the fan blades.
- This fan is designed for indoor use only.

## PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Motor Housing
- Fan Blades (3)
- Downrod (various lengths for adjustable height)
- Canopy
- Mounting Bracket
- Remote Control
- Hardware Pack (screws, washers, wire nuts)
- Instruction Manual

# INSTALLATION GUIDE

## 1. Pre-Installation

- Turn off power at the circuit breaker.
- Ensure the electrical box is securely mounted and rated for ceiling fan support.
- Gather necessary tools: screwdriver, wire strippers, electrical tape, ladder.

## 2. Mounting Options

The fan supports standard downrod mounting and sloped ceiling installation.

Image: Illustration of the fan's compatibility with sloped ceilings, highlighting the adjustable canopy for proper alignment.

## 3. Assembly Steps

Refer to the following visual guide for assembly. The image displays a sequence of steps for fan assembly and installation.

Image: A composite image showing nine distinct steps for the fan's assembly, from attaching blades to the motor to securing the downrod and canopy.

- 1. Attach Blades to Motor:** Secure each fan blade to the motor housing using the provided screws and washers. Ensure they are firmly attached.
- 2. Assemble Downrod:** Insert the downrod through the canopy and secure it to the motor assembly. Pass the electrical wires through the downrod.
- 3. Mount Bracket:** Secure the mounting bracket to the ceiling electrical box.
- 4. Hang Fan:** Carefully lift the fan assembly and hang it onto the mounting bracket.
- 5. Wire Connections:** Connect the fan's electrical wires to the household wiring according to the wiring diagram (typically black to black, white to white, ground to ground). Use wire nuts to secure connections.
- 6. Secure Canopy:** Slide the canopy up to the ceiling and secure it to the mounting bracket with screws.
- 7. Final Checks:** Ensure all connections are secure and the fan is stable.

## OPERATING INSTRUCTIONS

Your JONATHAN Y Aldrin ceiling fan can be controlled via the included remote control or a mobile application.

### Remote Control Functions

- Power On/Off:** Press the power button to turn the fan on or off.
- Fan Speed:** Use the speed buttons to cycle through 6 available fan speeds.

- **Reversible Motor:** Press the reverse button to change the blade direction for summer (downward airflow) or winter (upward airflow) operation.
- **Timer:** Set an automatic shutoff timer (specific timer options may vary by model).

## Mobile App Control

The JONATHAN Y Aldrin fan is compatible with a mobile application for enhanced control. Download the official JONATHAN Y app from your device's app store. Follow the in-app instructions to pair your fan. The app allows for remote control, speed adjustment, direction change, and potentially scheduling features.

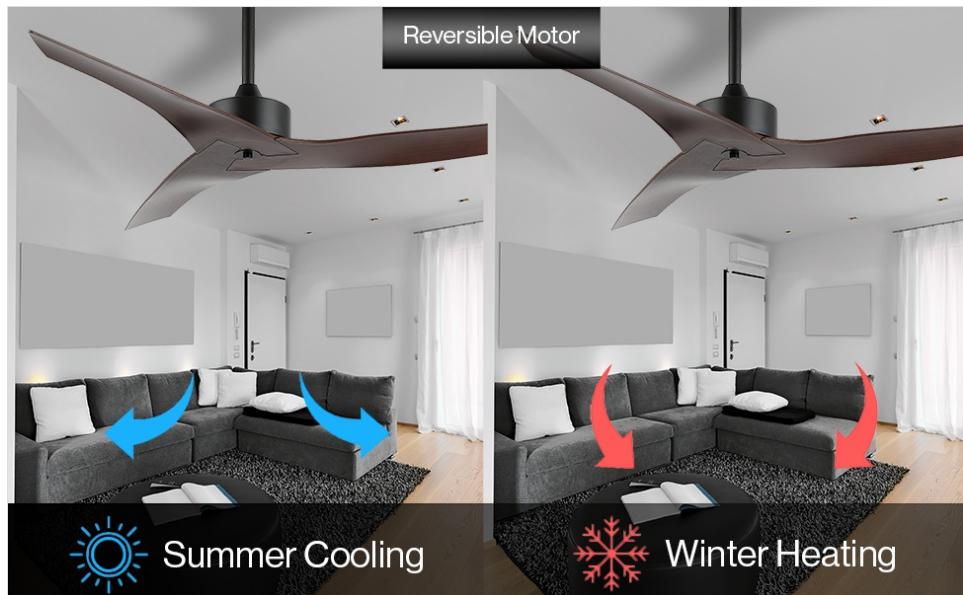

Image: Visual representation of key features including app control, sloped ceiling compatibility, adjustable height, and remote operation.

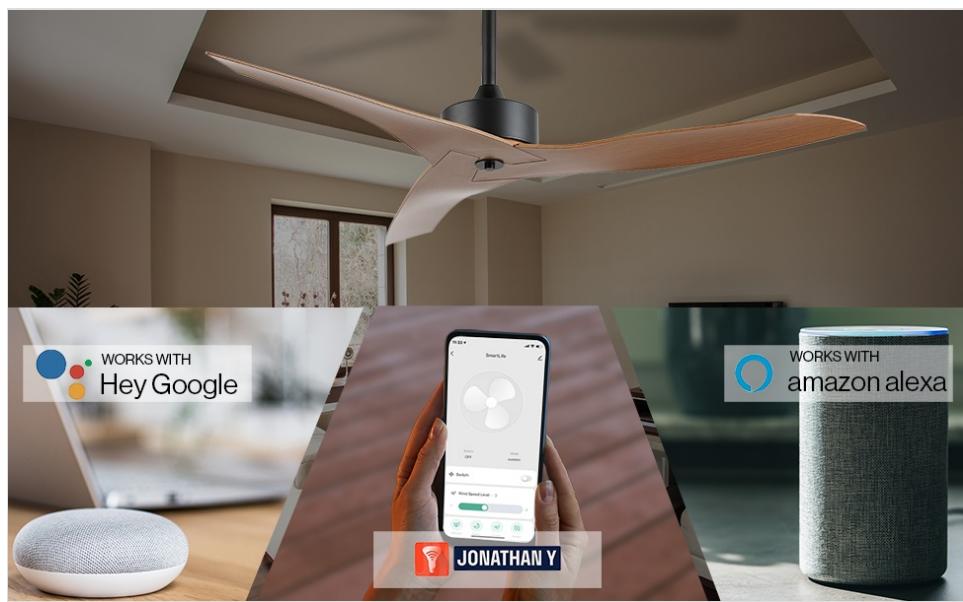

Image: Diagram explaining the reversible motor function, showing downward airflow for summer cooling and upward airflow for winter heating.

## MAINTENANCE

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Tighten Fasteners:** Check all screws and fasteners annually to ensure they are secure.

- **No Lubrication Required:** The fan motor is permanently lubricated and does not require oiling.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; loose wire connections; remote control battery low.	Check circuit breaker/fuse; ensure all wire connections are secure; replace remote control battery.
Fan wobbles	Loose blade screws; unbalanced blades; loose mounting bracket.	Tighten all blade screws; use a balancing kit (not included) if necessary; ensure mounting bracket is securely fastened.
No remote control function	Remote battery low; remote not paired; obstruction.	Replace remote battery; refer to pairing instructions in the full manual; ensure clear line of sight to fan receiver.
App control not working	Fan not paired with app; Wi-Fi connectivity issues.	Follow in-app pairing instructions; check Wi-Fi connection and router.

## SPECIFICATIONS

<b>Brand</b>	JONATHAN Y
<b>Model Name</b>	JYL9715A (Aldrin)
<b>Product Dimensions</b>	50"D x 50"W x 16.25"H (Adjustable height: 6.25-11.25-16.25" high)
<b>Number of Blades</b>	3
<b>Air Flow Capacity</b>	4125 Cubic Feet Per Minute
<b>Power Source</b>	DC
<b>Wattage</b>	18 watts
<b>Voltage</b>	120 Volts
<b>Control Method</b>	App, Remote, Wall Switch (compatible)
<b>Special Features</b>	6-speed propeller, Reversible Motor, Sloped Ceiling Compatible
<b>Item Weight</b>	8.36 Pounds
<b>Indoor/Outdoor Usage</b>	Indoor
<b>Coverage</b>	75-125 square feet
<b>Certifications</b>	ETL, UL
