## JBL JBLT520BTPUREU

# JBL Tune 520 BT Wireless Headphones

## USER MANUAL

### Introduction

---

Thank you for choosing the JBL Tune 520 BT Wireless Headphones. These headphones are designed to provide a superior audio experience with the signature JBL Pure Bass Sound, combined with the convenience of wireless connectivity and long-lasting battery life. This manual will guide you through the setup, operation, and maintenance of your new headphones.

## Setup

---

### 1. Charging the Headphones

Before first use, fully charge your JBL Tune 520 BT headphones. Connect the included USB-C charging cable to the

headphone's charging port and a power source. A full charge takes approximately 2 hours. A quick 5-minute charge provides up to 3 hours of additional music playback.

## 2. Power On/Off

- To power on: Press and hold the Power button until the LED indicator lights up.
- To power off: Press and hold the Power button until the LED indicator turns off.

## 3. Bluetooth Pairing

The JBL Tune 520 BT headphones utilize Bluetooth 5.3 for stable and efficient wireless connection.

1. Ensure the headphones are powered off.
2. Press and hold the Power button for approximately 5 seconds until the LED indicator flashes blue, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "JBL Tune 520 BT" from the list of devices to connect.
5. Once connected, the LED indicator will turn solid blue.

**Fast Pair (Android):** For Android 6.0+ devices, simply turn on the headphones near your device, and a pop-up notification will appear for quick pairing.

**Microsoft Swift Pair (Windows):** For Windows 10 v1803+ devices, turn on the headphones near your PC, and a notification will appear to initiate pairing.

## Operating

---

### 1. Basic Controls

Function	Action
Volume Up	Press the '+' button
Volume Down	Press the '-' button

Function	Action
Play/Pause	Press the multi-function button once
Next Track	Double-press the multi-function button
Previous Track	Triple-press the multi-function button
Answer/End Call	Press the multi-function button once
Reject Call	Press and hold the multi-function button
Activate Voice Assistant	Press the multi-function button twice (after a call)

## 2. Multi-point Connection

The JBL Tune 520 BT supports multi-point connection, allowing you to seamlessly switch between two Bluetooth devices. For example, you can watch a video on your tablet and effortlessly switch to answer a call on your mobile phone without re-pairing.

## 3. JBL Headphones App

Enhance your listening experience by downloading the free JBL Headphones App. The app provides customizable sound settings, including bass and treble adjustments, to personalize your audio to your preferences.

## Maintenance

---

### 1. Battery Care

To ensure optimal battery life and performance, fully recharge your headphones at least once every three months, even if

not in regular use. Battery life may vary depending on usage and settings.

## 2. Cleaning

Gently wipe the headphones with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the finish or internal components. Keep the charging port free of dust and debris.

## 3. Storage

When not in use, store your headphones in a cool, dry place, away from direct sunlight and extreme temperatures. The foldable design allows for compact storage and easy portability.

## Troubleshooting

---

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Headphones do not power on	Low battery	Charge the headphones fully.
Cannot pair with device	Headphones not in pairing mode; Device Bluetooth off; Out of range	Ensure headphones are in pairing mode (flashing blue LED). Turn on Bluetooth on your device. Move headphones closer to the device.
No sound or low volume	Volume too low; Not connected; Incorrect audio output selected	Increase headphone and device volume. Ensure headphones are connected. Check device's audio output settings.
Poor sound quality	Interference; Out of range; Low battery	Move away from other wireless devices. Move closer to the source device. Recharge headphones.
