Instant Infusion Brew Plus 12 Cup Drip Coffee Maker

USER MANUAL

Brand: Instant Pot | Model: 140-0097-01

Introduction

The Instant Infusion Brew Plus 12-cup Coffee Maker is designed to quickly brew your favorite filtered ground coffee with customizable features. This manual provides essential information for setup, operation, and maintenance to ensure optimal performance and a satisfying coffee experience.

The Instant Infusion Brew Plus Coffee Maker ready for use on a kitchen counter.

Setup

1. Water Filter Preparation

Before first use, soak the carbon water filter in cold water for 10 minutes. Rinse it under running water for a few seconds. Insert the filter into its holder, then place the holder into the removable water reservoir. The water filter helps eliminate impurities for a richer taste.

Detailed view of the coffee maker's components, highlighting the integrated carbon water filter in the removable reservoir.

2. Filling the Water Reservoir

The coffee maker features a large, removable 60 oz water reservoir for easy refilling. Fill the reservoir with fresh, cold water up to the desired cup line. The amount of water added will determine the volume of coffee brewed.

The removable water reservoir being lifted from the coffee maker, illustrating its slim design and refill convenience.

3. Adding Coffee Grounds

Place a paper filter (size #6 cone filter) or the provided reusable gold-tone filter into the brew basket. Add your preferred medium-fine ground coffee. The innovative showerhead dispenser and pre-infuse technology will evenly soak the grounds for deeper flavor extraction.

Better tasting coffee. First sip to last.

Showerhead dispenser & pre-infuse technology wets coffee grounds evenly for deeper flavor

The showerhead dispenser ensures even saturation of coffee grounds for optimal flavor.

Operating Instructions

1. Control Panel Overview

The coffee maker features an LED display with touchscreen controls for easy operation. Icons indicate brew strength, warming plate settings, and programmable timer options.

Coffee your way!

- **MODERN TOUCHSCREEN CONTROLS**
- **CUSTOMIZABLE BREW STRENGTH**
- **SMALL BATCH BREW OPTION**
- **PROGRAMMABLE BREW TIME**

The intuitive touchscreen controls allow for personalized coffee brewing.

2. Brewing Coffee

After filling the water reservoir and adding coffee grounds, close the lid securely. Select your desired brew strength (classic or bold) and choose the 1-4 cup small batch option if brewing a smaller quantity. Press the play button to start brewing. The coffee maker brews 12 cups in under 10 minutes.

Brews fast & stays hot

Makes 12 cups in minutes and stays hot for up to 4 hours

The coffee maker brews quickly and keeps coffee hot for extended periods.

3. Programmable Timer

Utilize the 24-hour timer to set up auto-brew for a hot cup of coffee ready when you wake up or at any scheduled time.

4. Adjustable Warming Plate

The warming plate keeps your freshly brewed coffee hot for up to 4 hours. Choose from three temperature settings to maintain your preferred coffee warmth.

5. Pause & Serve

The pause and serve feature allows you to pour a cup of coffee before the brewing cycle is complete without drips.

6. Official Product Video

Your browser does not support the video tag.

Maintenance

Cleaning

For easy cleanup, the removable water reservoir, brew basket, and glass carafe are all dishwasher safe. Regularly clean these components to maintain hygiene and coffee quality.

Troubleshooting

If you encounter any issues with your coffee maker, please refer to the full troubleshooting guide available on the Instant Pot official website or contact customer support. Common issues may include improper water flow (check water filter and reservoir placement) or coffee not brewing (ensure lid is securely closed and brew button is pressed).

Specifications
