VEVOR Chicken Coop 13.1 x 9.8 x 6.6 ft

VEVOR Large Metal Chicken Coop with Run User Manual

Model: Chicken Coop 13.1 x 9.8 x 6.6 ft

Brand: VEVOR

[Introduction](#) [Safety Information](#) [Package Contents](#) [Setup & Assembly](#) [Operating](#)
[Instructions](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your VEVOR Large Metal Chicken Coop with Run. Please read this manual thoroughly before assembly and use, and retain it for future reference. This poultry cage is designed to provide a secure and spacious outdoor environment for various animals, including chickens, ducks, geese, and rabbits.

2. SAFETY INFORMATION

Always prioritize safety during assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Two-Person Assembly:** Assembly requires at least two people for safe handling of components.
- **Stable Ground:** Ensure the coop is assembled on level and stable ground to prevent tipping.
- **Weather Precautions:** Before storms or hurricanes, move livestock indoors and remove tarps from the shed. Place sandbags at all four interior corners for added stability.
- **Predator Protection:** For added protection against wildlife like raccoons, consider adding a galvanized wire fence, wood, or stones to the bottom to tightly reinforce the large chicken coop.
- **Component Integrity:** Regularly inspect all components for damage or wear. Replace any damaged parts immediately.
- **Proper Tools:** Use appropriate tools for assembly as indicated in the instructions.

3. PACKAGE CONTENTS

Verify that all components listed below are present before beginning assembly. If any parts are missing or damaged, contact VEVOR customer support.

Component	Quantity
Steel Pipes (various lengths and bends)	As required for frame assembly
Metal Bases	Multiple
Hexagonal Wire Mesh	1 roll
Waterproof PE Tarp	1
Door Frame Components	As required
Pipe Clamps	10
U-Clamps	2
Screws	8
Nuts	8
T-Threaded Rods	5
Ground Pegs	9
Pack of Zip Ties	2
Bungee Cords	22
Door Lock	1
Gloves	2
Instruction Manual	1

Note: The exact quantity of pipes may vary slightly based on the specific model variant. Refer to the included paper manual for precise counts.

4. SETUP & ASSEMBLY

Follow these steps carefully for proper assembly. Two people are recommended for installation.

4.1. Frame Assembly Overview

The VEVOR chicken coop features a sturdy galvanized steel pipe frame, designed for durability and ease of assembly. The pipes connect with a snap-button mechanism for quick setup.

Your browser does not support the video tag. This video demonstrates the installation process of the VEVOR large metal chicken coop, showing how to connect the steel pipes, install the door, attach the hexagonal mesh, and secure the waterproof tarp.

Video 1: How to Install this large metal chicken coop (Seller Video)

4.2. Step-by-Step Assembly

- 1. Assemble the Base Frame:** Connect the straight steel pipes to the metal bases to form the

rectangular bottom perimeter of the coop. Ensure all connections snap securely into place.

Figure 2: Illustration of the sturdy galvanized steel frame construction.

- 2. Install Vertical Support Pipes:** Insert the vertical support steel pipes into the designated slots on the metal bases. These pipes will form the upright structure of the coop.
- 3. Construct the Upper Frame:** Attach the curved and straight pipes to form the dome-shaped roof structure. Ensure all connectors are firmly engaged.
- 4. Install the Door:** Assemble the door frame components. Attach the assembled door onto the main frame using the provided hinges and screws. Secure the door lock mechanism.

Figure 3: The walk-in door design allows for easy access for cleaning and feeding.

- 5. Attach Hexagonal Wire Mesh:** Unroll the hexagonal wire mesh and secure it around the entire frame using the provided zip ties. Ensure the mesh is taut and covers all open sides to prevent escape and deter predators.

Figure 4: The tight hexagonal mesh provides an escape-proof and predator-resistant enclosure.

6. **Install Waterproof Tarp:** Drape the waterproof PE tarp over the roof section of the coop. Secure the tarp to the frame using the bungee cords. The dome design helps water and debris slide off.

Figure 5: The waterproof tarp offers protection from sun and rain.

5. OPERATING INSTRUCTIONS

5.1. Intended Use

This VEVOR chicken coop is suitable for housing various poultry and small animals, including chickens, ducks, geese, and rabbits. Its spacious design (13.1 x 9.8 x 6.6 ft) provides ample room for movement and comfort.

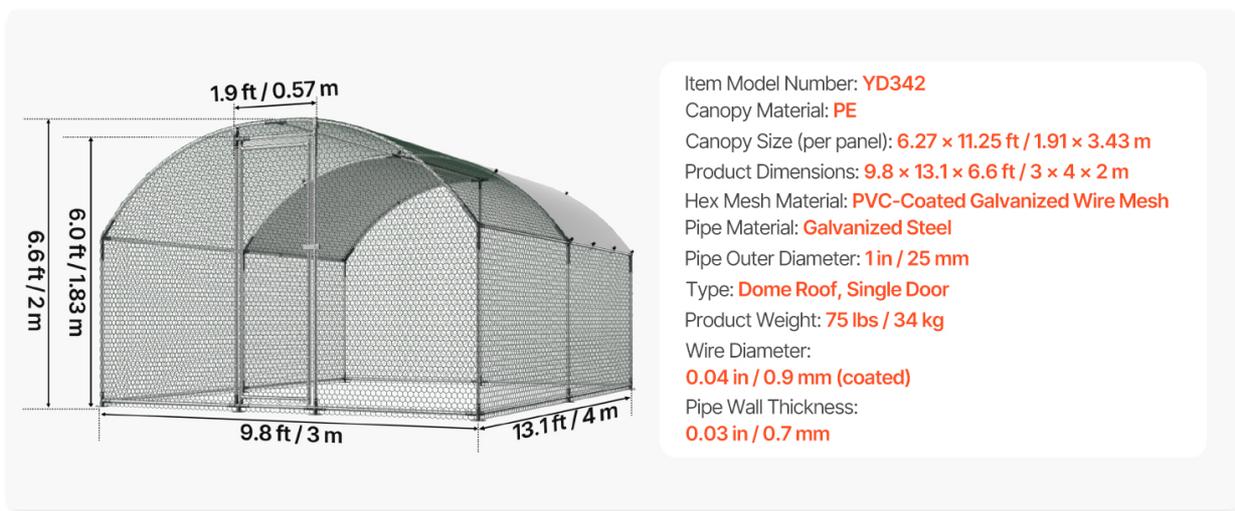

Figure 6: The coop is versatile for various small animals.

5.2. Access and Security

The coop features a walk-in door for easy access to feed, water, and clean the enclosure. The door is equipped with a lock for added security, protecting your animals from predators.

5.3. Ventilation

The open design of the coop, combined with the mesh, ensures good air circulation, creating a comfortable environment for your animals.

Figure 7: The open design promotes fresh air circulation within the coop.

6. MAINTENANCE

- **Regular Cleaning:** Periodically clean the coop to maintain hygiene for your animals. The walk-in design facilitates easy access for cleaning.
- **Inspect Mesh:** Regularly check the hexagonal wire mesh for any damage or weak points that could compromise security. Repair or replace as needed.
- **Tarp Condition:** Inspect the waterproof tarp for tears or damage, especially after severe weather. Replace if necessary to ensure continued protection from elements.
- **Frame Stability:** Ensure all frame connections remain secure. Tighten any loose screws or clamps.
- **Ground Anchoring:** Verify that ground pegs are firmly in place, especially in areas prone to high

winds.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Coop feels unstable or wobbly.	Loose connections, uneven ground, insufficient anchoring.	Ensure all pipes are fully connected and secured. Assemble on level ground. Use all provided ground pegs and consider additional anchoring (e.g., sandbags) in windy conditions.
Door does not close properly.	Frame misalignment, door hinges not properly installed.	Check that the main frame is square and level. Adjust door hinges or drill and adjust the door frame slightly after assembly to ensure it closes properly.
Animals escaping or predators entering.	Gaps in mesh, mesh not secured, insufficient bottom reinforcement.	Ensure mesh is tightly secured with zip ties and covers all openings. Reinforce the bottom perimeter with galvanized wire, wood, or stones to prevent digging.
Tarp accumulates water or snow.	Tarp not taut, incorrect placement.	Ensure the tarp is stretched tightly and secured with all bungee cords. The dome roof design is intended to shed water, but proper tension is crucial. Remove heavy snow accumulation promptly.

8. SPECIFICATIONS

- **Model Name:** Large Metal Chicken Coop with Run, Walkin Poultry Cage for Yard with Waterproof Cover
- **Model Number:** Chicken Coop 13.1 x 9.8 x 6.6 ft
- **Product Dimensions (L x W x H):** 157.5"L x 118.1"W x 78.7"H (13.1 ft x 9.8 ft x 6.6 ft)
- **Item Weight:** 73.63 Pounds
- **Material:** Alloy Steel (Galvanized Steel Pipes), PVC-Coated Galvanized Wire Mesh, PE Canopy
- **Pipe Outer Diameter:** 1 inch / 25 mm
- **Pipe Wall Thickness:** 0.03 inch / 0.7 mm
- **Wire Diameter:** 0.04 inch / 0.9 mm (coated)
- **Style:** Dome Roof
- **Color:** Silver - Dome Roof
- **Specific Uses:** Outdoor poultry and small animal enclosure
- **Included Components:** Stand, Hexagonal Mesh, Waterproof Tarp, Hardware

9. WARRANTY & SUPPORT
