TWSOUL HKF-TUE0613

TWSOUL Self-Adhesive Metal Decorative Molding (Model: HKF-TUE0613) - Instruction Manual

1. PRODUCT OVERVIEW

The TWSOUL Self-Adhesive Metal Decorative Molding (Model HKF-TUE0613) is a flexible, self-adhesive trim designed to enhance the aesthetic appeal of various surfaces in your home or office. Made from high-quality 201 stainless steel, this molding offers a durable and stylish solution for decorating walls, tiles, mirror frames, and furniture.

2. SETUP AND INSTALLATION

Proper surface preparation is crucial for optimal adhesion. Ensure the installation surface is clean, smooth, dry, and free

from dust, soap, grease, or any loose particles. Acceptable surfaces include drywalls and clean, smooth tiles.

Installation Steps:

1. **Measure the Length:** Carefully measure the desired length of the molding for the installation area. Mark the position on the surface to ensure accurate placement.

2. **Prepare the Molding:** Cut the molding to the measured length if necessary. The molding can be cut freely to achieve the required length and shape.

Image: A coiled roll of TWSOUL decorative molding, indicating a width of 50mm and a length of 5 meters.

3. **Remove Adhesive Backing:** Carefully peel off the red protective film from the adhesive backing of the molding. Avoid touching the adhesive with your hands to maintain its strong viscosity.

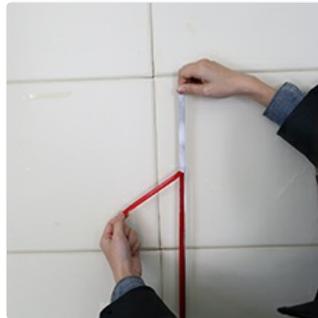

Image: A hand carefully peeling off the red protective layer from the adhesive side of the molding strip.

4. **Install the Molding:** Align the molding with the marked position on the surface and press it firmly into place.

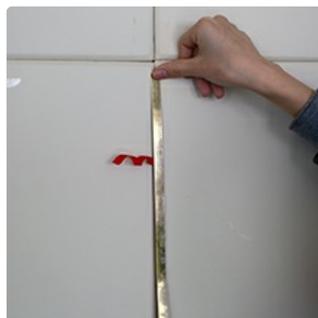

Image: A hand pressing the molding strip onto the wall, aligning it with the previously marked line.

5. **Remove Protective Film and Secure:** While pressing the molding firmly, gradually tear off its own transparent protective film from the front surface. Apply consistent pressure along the entire length to ensure strong adhesion.

Image: A hand pressing down on the installed molding while simultaneously peeling off the clear protective film from its surface.

For best results, avoid repeated repositioning after initial adhesion, as this can affect the adhesive strength.

3. USAGE AND FLEXIBILITY

The TWSOUL decorative molding is highly versatile and can be used in various applications:

- **Wall Decoration:** Ideal for creating accent walls, defining sections, or adding linear patterns in living rooms, dining rooms, and bedrooms.
- **Furniture Enhancement:** Apply to cabinets, tables, or other furniture pieces for a customized, modern look.
- **Mirror and Frame Edging:** Use to create elegant borders around mirrors or picture frames.
- **Tile Edging:** Provides a clean finish for tile installations.
- **Ceiling Accents:** Can be applied to ceilings to add architectural detail.

Its flexible design allows it to conform to curved or irregular surfaces, offering creative freedom for your decorative projects.

4. MAINTENANCE

To maintain the appearance and longevity of your TWSOUL decorative molding, follow these simple guidelines:

- **Cleaning:** Wipe the surface with a soft, damp cloth to remove dust and light smudges. Avoid abrasive cleaners or

harsh chemicals, as these may damage the metal finish.

- **Avoid Impact:** Protect the molding from direct impact or sharp objects that could scratch or dent the surface.

5. TROUBLESHOOTING

If you encounter issues with the molding's adhesion, consider the following:

- **Poor Adhesion:** Ensure the installation surface was thoroughly cleaned and dried before application. Dust, moisture, grease, or uneven surfaces can significantly reduce adhesive effectiveness. The molding is not recommended for use on dusty walls.
- **Repeated Application:** Avoid repositioning the molding multiple times, as this weakens the adhesive bond. Mark your desired position accurately before applying.
- **Adhesive Contamination:** Do not touch the adhesive strip with your hands during installation, as oils and dirt can compromise its stickiness.

6. SPECIFICATIONS (MODEL: HKF-TUE0613)

Brand	TWSOUL
Model Number	HKF-TUE0613
Color	Black
Material	Metal (201 Stainless Steel)
Special Features	Self-adhesive, Flexible
Recommended Surfaces	Walls, Tiles, Mirrors, Ceilings
Style	Modern, Contemporary, Industrial, Versatile

Black
