ODDSAN ODD20230204

ODDSAN LED Bathroom Mirror User Manual

Model: ODD20230204 | Brand: ODDSAN

INTRODUCTION

Thank you for choosing the ODDSAN Rectangular LED Bathroom Mirror. This manual provides essential information for the safe installation, operation, and maintenance of your new mirror. Please read it thoroughly before installation and keep it for future reference.

Image: The ODDSAN LED Bathroom Mirror featuring both front and back lighting, installed in a modern bathroom setting above a sink.

SAFETY INFORMATION

- Always disconnect power before installation or maintenance.
- Installation should be performed by a qualified electrician if hardwiring is chosen.
- Do not strike the mirror with hard objects. While made of tempered glass, excessive force can cause damage.
- Keep children away from the installation area.
- Ensure the mounting surface is structurally sound to support the mirror's weight.

Image: A visual comparison highlighting the safety of ODDSAN's tempered glass mirror, which resists shattering into dangerous shards, unlike common glass.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- 1 x ODDSAN LED Bathroom Mirror
- 2 x Z-shaped Mounting Brackets
- 4 x Screws with Anchors
- 1 x Work Glove

Screws* 4 sets

Bracket* 2 pcs

Glove* 1 pcs

PRODUCT FEATURES

The ODDSAN LED Bathroom Mirror is equipped with several features for enhanced functionality and user experience:

- **Dual Lighting:** Features both front-lit and back-lit LED strips, providing ample light for tasks like makeup application and shaving.
- **Adjustable Color Temperature:** Adjust between warm white (3000K) and cool white (6000K) lighting to suit your preference.
- **Dimmable Brightness:** Adjust the light intensity from 10% to 100% for optimal ambiance and visibility.
- **Anti-Fog Function:** An integrated defogger pad prevents condensation, ensuring a clear reflection even in steamy bathrooms. The defogger automatically shuts off after 1 hour.
- **Memory Function:** The mirror remembers your last brightness setting when controlled by a wall switch.

- **Tempered Glass:** Constructed from shatterproof tempered glass, offering five times the strength of ordinary glass for increased safety.
- **Versatile Mounting:** Can be installed either vertically or horizontally to fit your bathroom layout.
- **ETL Certified:** Ensures compliance with North American safety standards.

SETUP AND INSTALLATION

Mounting Options: Vertical or Horizontal

The mirror is designed for flexible installation and can be mounted in either a vertical or horizontal orientation to best suit your space.

Image: Two mirrors displayed, one in a vertical orientation and the other horizontally, illustrating the flexible mounting options available for the product.

Power Connection Options

The mirror offers two methods for power connection:

1. **Plug-in:** Connect the mirror directly to a standard electrical outlet using the provided plug.
2. **Hardwire:** For a seamless look, the mirror can be hardwired directly into your electrical system. This option requires professional installation by a qualified electrician to ensure safety and compliance with local electrical codes.

Image: A visual representation of the two power connection methods: direct plug-in and hardwiring to a wall switch.

Installation Steps

1. **Prepare the Wall:** Choose the desired mounting location. Ensure there are no hidden electrical wires or pipes. Mark the positions for the mounting brackets.
2. **Install Brackets:** Drill holes at the marked positions. Insert the wall anchors and secure the two Z-shaped mounting brackets horizontally using the provided screws. Ensure they are level and spaced correctly for your mirror's dimensions.
3. **Connect Power:**
 - **For Plug-in:** Route the power cord to a nearby outlet.
 - **For Hardwire:** Have a qualified electrician connect the mirror's wiring to your home's electrical system, following all local codes.
4. **Mount the Mirror:** Carefully lift the mirror and align the long support rail on the back of the mirror with the installed Z-shaped brackets. Gently lower the mirror onto the brackets until it is securely seated.

5. **Test Functionality:** Once mounted, connect power and test all mirror functions (lights, dimming, color temperature, anti-fog).

OPERATING INSTRUCTIONS

The mirror's functions are controlled via touch buttons located on the mirror surface.

Power On/Off and Light Adjustment

- **Power On/Off:** Tap the main power button (usually indicated by a light bulb icon) to turn the lights on or off.
- **Adjust Color Temperature:** With the lights on, long-press the light button to cycle through color temperatures (3000K warm white, 4500K neutral white, 6000K cool white). Release the button when the desired temperature is reached.
- **Dimming:** With the lights on, long-press the light button again (or a dedicated dimming button if present) to adjust brightness. The brightness will cycle from 10% to 100%. Release when the desired brightness is achieved.
- **Memory Function:** If controlled by a wall switch, the mirror will retain the last brightness setting when powered off and on.

ODDSAN

Image: A visual guide illustrating how to adjust the brightness from 10% to 100% and change the color temperature between 3000K (warm), 4500K (neutral), and 6000K (cool) using the touch controls.

Anti-Fog Function

- **Activate Anti-Fog:** Tap the anti-fog button (often indicated by a steam icon). The button indicator will turn white when active.
- **Deactivate Anti-Fog:** Tap the anti-fog button again. The button indicator will turn blue when inactive.
- **Automatic Shut-off:** The anti-fog function will automatically turn off after 1 hour of continuous operation to conserve energy.

Image: A woman applying makeup in front of the mirror, demonstrating the effectiveness of the anti-fog feature in a humid bathroom, ensuring a clear reflection.

Turning Off Blue Indicator Light

- To completely turn off the blue indicator light when the mirror is off, long-press the blue button while the mirror is in the off state.

MAINTENANCE

- **Cleaning the Mirror Surface:** Use a soft, lint-free cloth and a non-abrasive glass cleaner. Spray the cleaner onto the cloth, not directly onto the mirror, to avoid liquid seeping into the electrical components.
- **Cleaning the Frame:** Wipe the frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Electrical Components:** Ensure the mirror is disconnected from power before cleaning any electrical parts. Do not use water or liquid cleaners near electrical connections.
- **Regular Inspection:** Periodically check mounting hardware for tightness and signs of wear.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror lights do not turn on.	No power supply; loose connection; faulty switch.	Check if the mirror is properly plugged in or hardwired. Ensure the wall switch (if applicable) is on. Verify circuit breaker. If hardwired, consult an electrician.
Anti-fog function not working.	Anti-fog function not activated; automatic shut-off.	Tap the anti-fog button to activate it (indicator light should be white). Note that it automatically turns off after 1 hour.
Lights flicker or dim unexpectedly.	Unstable power supply; loose wiring; internal component issue.	Ensure stable power. If hardwired, check connections (consult electrician). If problem persists, contact customer support.
Touch buttons are unresponsive.	Mirror surface is wet or dirty; temporary electronic glitch.	Clean and dry the mirror surface around the buttons. Disconnect power for 30 seconds and reconnect to reset.

SPECIFICATIONS

- **Model Number:** ODD20230204
- **Brand:** ODDSAN
- **Dimensions:** 36 x 76.2 cm (14.17 x 30 inches) -*Note: Product variant is 30x36, but description specifies 36x76.2 cm. Please verify actual product size upon receipt.*
- **Material:** Tempered Glass
- **Weight:** Approximately 11.7 kg (25.8 lbs)
- **Lighting Type:** Front-lit and Back-lit LED
- **Color Temperature:** Adjustable from 3000K (Warm White) to 6000K (Cool White)
- **Brightness:** Dimmable (10% - 100%)
- **Features:** Anti-Fog, Memory Function, Shatterproof, Vertical/Horizontal Mounting
- **Power Options:** Plug-in or Hardwire
- **Certifications:** ETL Certified

WARRANTY AND SUPPORT

ODDSAN provides a **3-year warranty** for this LED Bathroom Mirror, covering manufacturing defects and malfunctions under normal use.

For any issues, questions, or support needs, please contact ODDSAN customer service. Please have your model number (ODD20230204) and purchase information ready when contacting support.

Contact information (e.g., email, website) would typically be provided here by the manufacturer.
