Setup

Package Contents

- Redragon M811 PRO Wireless MMO Gaming Mouse
- USB Receiver (2.4Ghz)
- USB-C Charging Cable
- User Manual (this document)

Connecting the Mouse

1. **Charge the Mouse:** Connect the USB-C charging cable to the mouse and a USB power source. The mouse features a built-in Lithium Polymer battery.
2. **Insert USB Receiver:** Locate the USB receiver. Plug the 2.4Ghz USB receiver into an available USB port on your computer (PC or Mac).

Image: The Redragon M811 PRO mouse alongside its 2.4Ghz wireless USB receiver, illustrating the wireless connection capability.

3. **Power On:** Turn on the mouse using the power switch located on the underside of the mouse. The mouse should automatically connect to the receiver.
4. **Driver Installation (Optional but Recommended):** For full customization of buttons, DPI settings, and RGB lighting, download and install the Redragon dedicated software from the official Redragon website. Refer to the "Uncompromised Driver Support" section in the product features for more details.

Operating Instructions

Button Functions and Customization

The Redragon M811 PRO features 15 programmable buttons, including 10 side macro keys, designed for MMO gaming. These buttons can be customized using the Redragon software.

Image: A close-up view of the Redragon M811 PRO mouse, highlighting the 10 programmable side buttons for macro assignments.

- **Left/Right Click:** Standard mouse buttons.
- **Scroll Wheel:** For scrolling and can also be clicked.

- **DPI Buttons:** Typically located near the scroll wheel, used to cycle through DPI settings.
- **Side Macro Keys (1-10):** Fully programmable for in-game commands, macros, or system functions.

To customize button functions, launch the Redragon software. The software allows you to assign keybinds, macros, and multimedia functions to any of the 15 buttons.

Maintenance

Cleaning

- **Exterior:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the mouse.
- **Sensor:** Periodically clean the optical sensor on the underside of the mouse with a cotton swab lightly dampened with rubbing alcohol. Ensure the mouse is powered off before cleaning.

Battery Care

- **Charging:** Charge the mouse using the provided USB-C cable. Avoid using unapproved chargers.
- **Storage:** If storing the mouse for an extended period, charge it to approximately 50% and store in a cool, dry place. Recharge every few months to prevent deep discharge.
- The mouse has a 1000 mAh battery, providing approximately 80 hours of use with RGB off (Eco Mode).

Troubleshooting

Common Issues and Solutions

Problem	Possible Cause	Solution
Mouse not responding	Low battery; USB receiver disconnected; Driver issue.	Charge the mouse; Re-insert USB receiver; Reinstall mouse drivers/software.
Lag or erratic movement	Interference; Dirty sensor; Surface issue.	Move closer to receiver; Clean optical sensor; Use a clean, uniform mouse pad.
Buttons not working as expected	Incorrect software settings; Software conflict.	Check button assignments in Redragon software; Try resetting software to default settings.
RGB lighting not working	Lighting mode off; Software setting.	Check lighting settings in Redragon software; Ensure mouse is charged.

If the issue persists, please refer to the support section for further assistance.
