MAINTENANCE

Care and Cleaning

- **Exterior:** For the leather exterior, wipe gently with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the material.
- **Interior:** The microfiber interior can be gently wiped with a dry, soft cloth to remove dust. For spills, lightly dampen a cloth with water and mild soap, then wipe and allow to air dry completely.
- **Storage:** When not in use, store the case in a cool, dry place away from direct sunlight to preserve the material's integrity.

TROUBLESHOOTING

Common Issues and Solutions

- **Laptop does not fit:** Ensure your laptop's dimensions are compatible with the case's specifications (up to 13.3 inches). Do not force the device into the case, as this may cause damage to both the case and your laptop.
- **Zipper sticking:** Apply a small amount of zipper lubricant or graphite from a pencil to the zipper teeth and gently work the zipper back and forth.
- **Case appears creased:** Due to packaging or storage, the leather may develop minor creases. These often smooth out with regular use. For deeper creases, consult a leather care specialist.
