IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric

shock, and injury to persons.

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electric shock, do not immerse cord, plugs, or appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.

SETUP AND ASSEMBLY

Unpacking and Initial Cleaning

Before first use, carefully unpack all components and remove any packaging materials. Wash all removable parts, such as the air fry baskets, bake pans, and drip tray, with warm, soapy water. Wipe the interior and exterior of the main unit with a clean, damp cloth. Ensure all parts are completely dry before assembly and use.

Placement

Place the appliance on a stable, level, heat-resistant surface. Ensure there is adequate air circulation around the unit, with at least 6 inches of clearance on all sides and above. Do not place the appliance directly against a wall or under cabinets.

Using Dual Zones and QuickSync Technology

The dual-zone feature allows you to cook two different foods simultaneously with independent temperature and time settings. The QuickSync Technology ensures both zones finish cooking at the same time, perfect for preparing a complete meal.

1. Place food items in their respective air fry baskets or bake pans.
2. Insert the accessories into the desired cooking zones.
3. Select the appropriate cooking function, temperature, and time for each zone using the dedicated controls.
4. Activate QuickSync if you wish for both zones to finish simultaneously. The oven will automatically adjust cooking times.
5. Press Start/Pause to begin cooking.
