Hifree T6

Hifree T6 Table Lamp User Manual

Model: T6

INTRODUCTION

Thank you for purchasing the Hifree T6 Table Lamp. This manual provides detailed instructions for the safe and efficient use of your new lamp. The Hifree T6 features 3 levels of adjustable white light brightness, a 360° touch-sensitive base for control, and an RGB color cycling mode to enhance your environment.

SAFETY INSTRUCTIONS

- Read all instructions carefully before use and retain for future reference.
- This product is designed for indoor use only. Do not expose to water or high humidity.
- Ensure the power adapter voltage is compatible with your local power supply before connecting.
- Do not disassemble, repair, or modify the lamp. This may cause damage or injury and will void the warranty.
- Keep the lamp away from heat sources, direct sunlight, and flammable materials.
- Unplug the lamp from the power outlet before cleaning or if it will not be used for an extended period.
- Do not operate the lamp with a damaged cord or plug. Contact customer support for assistance.

PACKAGE CONTENTS

Please check the package contents upon opening. If any items are missing or damaged, contact customer support.

- Hifree T6 Table Lamp (1 unit)
- USB Power Cable (1 unit)
- User Manual (1 unit)

PRODUCT OVERVIEW

The Hifree T6 Table Lamp features a minimalist design with a cylindrical shape, an aluminum base, and a light-diffusing shade. The entire base acts as a 360° touch-sensitive control panel.

- **Light Diffuser:** Provides even and soft illumination.
- **Touch-Sensitive Base:** Controls power, brightness, and color modes.
- **USB Power Port:** Located at the back of the base for power connection.

SETUP

1. **Unpack:** Carefully remove the Hifree T6 Table Lamp and all accessories from the packaging.
2. **Placement:** Place the lamp on a stable, flat surface in your desired location.
3. **Connect Power:** Insert the small end of the USB power cable into the USB port on the back of the lamp's base. Plug the larger end of the USB cable into a compatible USB power adapter (not included).

included) and then into a wall outlet.

16 Millions of Colors

Suitable for every scene

Power On/Off and Brightness Adjustment (White Light Mode)

1. **Turn On:** Tap the aluminum base once to turn on the lamp. It will illuminate with a dim warm white light (Level 1).
2. **Adjust Brightness:** Tap the base again to cycle through the brightness levels:
 - **First Tap:** Dim warm white light (Level 1)
 - **Second Tap:** Medium warm white light (Level 2)
 - **Third Tap:** Bright warm white light (Level 3)
3. **Turn Off:** Tap the base a fourth time to turn off the lamp.

RGB Color Cycling Mode

- Activate Color Cycling:** While the lamp is on in any white light brightness level, press and hold your finger on the aluminum base for 2-3 seconds. The lamp will enter RGB color cycling mode, smoothly transitioning through various colors.
- Select Static Color:** To stop the color cycling and select a specific color, simply tap the base once while your desired color is displayed. The lamp will remain on that static color.
- Return to White Light:** To exit RGB mode and return to the white light brightness levels, press and hold the base again for 2-3 seconds. The lamp will revert to the last used white light brightness level.
- Turn Off from RGB Mode:** Tap the base once while in static RGB color mode to turn off the lamp.

MAINTENANCE

- Cleaning:** Ensure the lamp is unplugged before cleaning. Use a soft, dry cloth to wipe the surface of the lamp. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish.
- Storage:** If storing the lamp for an extended period, unplug it and store it in a cool, dry place away from direct sunlight.

- **Bulb Replacement:** The LED light source in this lamp is integrated and not user-replaceable.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	No power connection.	Check if the USB cable is securely connected to the lamp and the power adapter, and if the adapter is plugged into a working wall outlet.
Touch control is unresponsive.	Interference or improper touch.	Ensure your finger makes full contact with the aluminum base. Avoid touching with gloves or non-conductive materials. Try unplugging and re-plugging the lamp.
RGB colors are not cycling or changing.	Not in RGB cycling mode.	Press and hold the base for 2-3 seconds to activate RGB color cycling mode. If already cycling, tap once to select a static color.
Lamp flickers or dims unexpectedly.	Unstable power supply or faulty cable.	Try using a different USB power adapter and/or a different wall outlet. Ensure the USB cable is not damaged.
