4. SETUP

4.1 Initial Power On

1. Before first use, ensure the tablet is fully charged using the provided 30W charging adapter and Type-C cable.
2. Press and hold the Power Button until the Headwolf logo appears on the screen.
3. Follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, and Google account setup.

4.2 Inserting SIM and MicroSD Cards

The tablet supports dual SIM cards and a microSD card for expanded storage.

1. Locate the card slot on the side of the tablet.
2. Use the provided SIM card pin to gently push into the small hole next to the card slot to eject the tray.
3. Place your SIM card(s) and/or microSD card into the designated slots on the tray. Ensure they are correctly oriented.

4. Carefully reinsert the tray into the tablet.

4.3 Memory Expansion Activation

The tablet features intelligent memory expansion, allowing you to allocate 12GB from storage to RAM for improved performance.

1. Go to **Settings**.
2. Navigate to **Memory expansion**.
3. Enable **Memory expansion**.
4. Select the desired **Memory expansion size** (e.g., 12GB).
5. Restart the tablet for the changes to take effect.

4G LTE+2.4G/5GHz wifi/ Bluetooth 5.0 対応

デュアルカードスロットを備え、SIMカードとTFカードを同時装着に対応している。wifi環境で使用するだけでなく、アウトドア旅行や出張で携帯する場合は、4G LTE データ ネットワークとの接続を維持してタブレットをさせる。

7. MAINTENANCE

To ensure the longevity and optimal performance of your tablet, follow these maintenance guidelines:

- Keep the tablet away from extreme temperatures, direct sunlight, and high humidity.
- Avoid dropping the tablet or subjecting it to strong impacts.
- Clean the screen with a soft, lint-free cloth. Do not use harsh chemicals.
- Regularly back up your data to prevent loss.
- Keep the software updated to the latest version for security and performance improvements.

8. TROUBLESHOOTING

If you encounter issues with your tablet, refer to the following common solutions:

8.1 Tablet Does Not Power On

- Ensure the tablet is sufficiently charged. Connect the original 30W charger and cable, and charge for at least 3 hours before attempting to power on.
- If unresponsive, try pressing and holding the power button for 10-15 seconds to force a restart.

8.2 SD Card Not Readable

- If the SD card is not recognized, try formatting it on a computer. Recommended formats are exFAT or FAT32.
- Ensure the SD card is correctly inserted into the card slot.

8.3 Other Issues

For other issues, please refer to the warranty and support section for contact information.
