Vimukun V6-JJ-KFJ0829201

Vimukun Single Serve Coffee Maker User Manual

Model: V6-JJ-KFJ0829201

Introduction

This manual provides detailed instructions for the safe and efficient operation, maintenance, and troubleshooting of your Vimukun Single Serve Coffee Maker. Please read this manual thoroughly before using the appliance and retain it for future reference.
The Vimukun 2-in-1 Coffee Maker is designed to brew delicious coffee using both K-cup pods and ground coffee. Its compact design and user-friendly features make it ideal for home, office, or travel use.

Safety Instructions

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and/or injury to persons.

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or coffee maker in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.

- Do not use appliance for other than intended use.

Product Overview

Familiarize yourself with the components of your Vimukun Single Serve Coffee Maker.

Figure 1: Front view of the Vimukun Single Serve Coffee Maker showing the control panel, brew spout, and drip tray with a mug. Also shown are the K-cup adapter, reusable filter, and coffee pods.

Figure 2: Overview of key features including 2-in-1 brewing, customizable cup sizes (6, 8, 10, 12, 14 oz), 40 oz removable water reservoir, and fast brewing time (less than 3 minutes).

Figure 3: Close-up of the control panel with buttons for power, brew size selection (6oz, 8oz, 10oz, 12oz, 14oz), and brew initiation. An "Add Water" indicator and "Clean" indicator are also visible.

Figure 4: The removable 40oz water reservoir being detached from the coffee maker, highlighting its ease of refilling and cleaning.

Setup

1. **Unpacking:** Carefully remove all packaging materials and the coffee maker from the box. Retain packaging for future transport if needed.
2. **Initial Cleaning:** Before first use, clean the water reservoir, reusable filter, and drip tray with warm, soapy water. Rinse thoroughly.
3. **First Use Cycle:** It is recommended to run 2-3 cycles with cold water only, without coffee, to clean the internal components.
    - Fill the water reservoir with cold water.
    - Place an empty mug on the drip tray.
    - Close the lid without inserting a pod or ground coffee.
    - Press the power button, then select the largest brew size (14oz) and press the brew button.
    - Repeat this process 2-3 times.

4. **Placement:** Place the coffee maker on a stable, flat, heat-resistant surface. Ensure adequate ventilation around the unit.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet. The coffee maker operates on 120 Volts.

Operating Instructions

Brewing with K-Cup Pods

1. **Fill Water Reservoir:** Remove the 40oz water reservoir and fill it with fresh, cold water. Replace it securely on the coffee maker.
2. **Insert K-Cup Pod:** Lift the handle to open the brew chamber. Insert a K-cup pod into the K-cup holder. Close the handle firmly until it clicks.
3. **Place Mug:** Place your coffee mug on the drip tray. The removable drip tray allows for mugs up to 7.2 inches tall.

Figure 5: The coffee maker accommodating a travel mug, illustrating its compact design and adjustable height.

4. **Select Brew Size:** Press the "SIZE" button repeatedly to cycle through the available brew sizes: 6oz, 8oz, 10oz, 12oz, 14oz. The selected size will illuminate.

5. **Start Brewing:** Press the "BREW" button to begin brewing. The coffee will dispense into your mug. Brewing typically takes less than 3 minutes.
6. **Enjoy:** Once brewing is complete, carefully remove your mug. The coffee maker will automatically shut off after brewing.

Brewing with Ground Coffee

1. **Fill Water Reservoir:** As with K-cup brewing, ensure the 40oz water reservoir is filled with fresh, cold water.
2. **Prepare Reusable Filter:** Lift the handle to open the brew chamber. Insert the reusable filter into the K-cup holder.

Figure 6: The coffee maker illustrating its versatility for both K-cup pods and ground coffee using the reusable pod and coffee capsule adaptor.

3. **Add Ground Coffee:** Add your desired amount of ground coffee (typically 1-2 tablespoons per 6oz of water) into the reusable filter. Do not overfill. Close the handle firmly.

Figure 7: A hand demonstrating how to add ground coffee into the reusable filter for brewing.

4. **Place Mug:** Place your coffee mug on the drip tray.
5. **Select Brew Size:** Press the "SIZE" button to choose your desired brew volume (6oz, 8oz, 10oz, 12oz, 14oz).
6. **Start Brewing:** Press the "BREW" button. Coffee will begin to brew.
7. **Enjoy:** Once brewing is complete, remove your mug. The appliance will power off automatically.

Maintenance

Daily Cleaning

- **Drip Tray:** Empty and clean the drip tray and its cover after each use. Wash with warm, soapy water and rinse thoroughly.
- **K-Cup Holder/Reusable Filter:** After each use, remove and rinse the K-cup holder or reusable filter under running water. For thorough cleaning, wash with warm, soapy water.
- **Water Reservoir:** The 40oz water reservoir should be emptied and rinsed daily. For deeper cleaning, wash with warm, soapy water periodically.

- **Exterior:** Wipe the exterior of the coffee maker with a damp cloth. Do not use abrasive cleaners or immerse the unit in water.

Self-Cleaning Function (Descaling)

To prevent mineral buildup and extend the life of your coffee maker, use the self-cleaning function approximately once every two months, or more frequently if you have hard water.

1. **Prepare Solution:** Fill the water reservoir with a mixture of 1 part white vinegar and 2 parts water.
2. **Initiate Cleaning:** Place a large empty mug or bowl on the drip tray. Press and hold the "BREW" and "SIZE" buttons simultaneously for a few seconds until the cleaning cycle begins.
3. **Cycle Completion:** The coffee maker will run a cleaning cycle, dispensing the solution. This process may take several minutes.
4. **Rinse Cycles:** After the cleaning cycle is complete, empty the reservoir and fill it with fresh, cold water. Run 2-3 full water-only cycles to rinse out any remaining vinegar solution.

Troubleshooting

Problem	Possible Cause	Solution
Coffee maker does not turn on.	Not plugged in; Power outlet not working.	Ensure the power cord is securely plugged into a working electrical outlet. Check circuit breaker.
"Add Water" indicator is on.	Water reservoir is empty or low.	Fill the water reservoir with fresh, cold water.
Coffee is not brewing or brewing slowly.	Brew chamber not closed properly; Water reservoir not seated correctly; Clogged needle/system due to mineral buildup.	Ensure the brew chamber handle is fully closed. Re-seat the water reservoir. Perform a self-cleaning (descaling) cycle.
Coffee tastes weak or watery.	Incorrect coffee-to-water ratio; Pod/grounds not suitable for selected brew size.	Use more ground coffee or a stronger K-cup pod. Select a smaller brew size for a stronger cup.
Coffee grounds in cup.	Reusable filter overfilled or not seated correctly; Fine grind coffee used with reusable filter.	Do not overfill the reusable filter. Ensure it is seated properly. Use a medium grind coffee for best results with the reusable filter.

Specifications

- **Model Number:** V6-JJ-KFJ0829201
- **Colour:** Black
- **Product Dimensions:** 35.56 x 30.48 x 17.78 cm (14 x 12 x 7 inches)
- **Item Weight:** 1.8 kg (3.97 lbs)
- **Capacity:** 1.13 kg (40 oz water reservoir)
- **Power/Wattage:** 1000 watts

- **Voltage:** 120 Volts
- **Material:** BPA Free Plastic
- **Special Features:** Auto Clean Function, Auto Shut-Off, Removable Tank
- **Brew Sizes:** 6, 8, 10, 12, 14 oz
- **Compatibility:** K-Cup Pods, Ground Coffee
