HOGOKIDS HG-8051

HOGOKIDS City Fire Station Building Set Instruction Manual

Model: HG-8051

Introduction

Welcome to the HOGOKIDS City Fire Station Building Set. This manual provides detailed instructions for assembling and understanding the features of your 775-piece building block set. The set includes components to construct a comprehensive fire station, a fire truck, an ambulance, and a rescue helicopter, designed for engaging and imaginative play.

Safety Information

- This product contains small parts and is not suitable for children under 3 years old due to potential choking hazards.
- Adult supervision is recommended during assembly and play to ensure proper handling and safety.
- Keep all packaging materials, such as plastic bags, away from children to prevent suffocation.
- Ensure all connections are secure during assembly to prevent parts from detaching unexpectedly during play.

Package Contents

Your HOGOKIDS City Fire Station Building Set includes approximately 775 building blocks and a comprehensive instruction booklet. Please verify all components are present upon opening the package.

The set's components allow for the construction of:

- A multi-level Main Fire Station Structure
- A Fire Truck with an extendable ladder
- An Ambulance/Emergency Vehicle
- A Rescue Helicopter with rotating blades
- A Water Sprayer accessory for interactive play
- Various decorative elements, including a palm tree and interior furniture pieces

Setup and Assembly

Assembly of the HOGOKIDS City Fire Station Building Set requires careful attention to the provided instruction booklet. It is recommended to sort the building blocks by color and shape before commencing assembly to streamline the process.

General Assembly Tips

- Review the entire instruction booklet thoroughly before beginning construction.
- Work on a clean, flat, and well-lit surface to prevent the loss of small parts.
- Pay close attention to the orientation of each block as depicted in the assembly diagrams.
- If a piece does not fit easily, re-examine the previous steps. Avoid using excessive force, as this may damage the blocks.

Building the Fire Station

The fire station serves as the central structure of the set. It features multiple vehicle bays, a command center, and a helipad. Follow the sequential steps in the instruction booklet to construct each section.

Assembling the Vehicles

The set includes three distinct emergency vehicles: a fire truck, an ambulance, and a rescue helicopter. Each vehicle has specific assembly steps and unique interactive features.

Fire Truck Assembly

Construct the fire truck, ensuring that the mechanism for the extendable ladder is correctly installed and functions smoothly.

Ambulance Assembly

Assemble the ambulance, focusing on its compact design, which allows for rapid response in emergency situations.

Rescue Helicopter Assembly

Build the rescue helicopter, ensuring that the main rotor blades are installed to rotate freely. The cockpit canopy is designed to open for access.

Operating Instructions

Fire Station Features

- **Sliding Doors:** The fire station includes vehicle bays equipped with sliding doors. Gently move them horizontally to open and close.
- **Rolling Doors:** Certain bays feature rolling doors that can be manually moved up and down to simulate vehicle entry and exit.
- **Openable Room Doors:** Interior doors within the station can be opened to access different sections, enhancing play scenarios.
- **Interior Details:** The station is furnished with detailed interior elements, such as a control desk with computer screens and a washroom area, adding realism to play.

Vehicle Functionality

- **Fire Truck Ladder:** The ladder on the fire truck is designed to be extended and rotated manually, allowing for various rescue simulations.
- **Water Sprayer:** The included water sprayer accessory can be connected to simulate water discharge. This feature is intended for imaginative play and does not actually spray liquid.
- **Helicopter Propeller:** The rescue helicopter's main propeller can be rotated manually. The cockpit canopy is also designed to open, allowing for placement of figures (not included).

Maintenance

- **Cleaning:** To clean the building blocks, gently wipe them with a damp cloth. Do not submerge the blocks in water or use harsh chemical cleaners, as this may cause damage or discoloration.
- **Storage:** Store the assembled set or individual blocks in a cool, dry place, away from direct sunlight. Prolonged exposure to sunlight can lead to discoloration or warping of the plastic components.
- **Disassembly:** If you choose to disassemble the set for storage, keep all pieces organized to prevent loss. It is recommended to store smaller pieces in sealed containers.

Troubleshooting

- **Missing Pieces:** In the event of missing pieces, please contact HOGOKIDS customer support. Provide details of the missing part (e.g., shape, color, quantity) and your purchase information for assistance.
- **Difficulty Connecting Blocks:** Ensure that blocks are correctly aligned before attempting to connect them. Some new blocks may require a firm but gentle push to snap into place. Avoid applying excessive force.
- **Instructions Unclear:** If a particular step in the instruction booklet is unclear, carefully review the accompanying diagrams. Sometimes, re-examining previous steps can clarify the current one. Online assembly guides or videos may also be available for additional support.

Specifications

Feature	Detail
Brand	HOGOKIDS
Model Number	HG-8051
Number of Pieces	775 PCS
Recommended Age	6+ Years
Product Dimensions (Assembled Fire Station)	Approx. 15.1 x 10 x 9.6 inches (38.5 x 25.5 x 24.5 cm)
Item Weight	3.1 pounds
