5. OPERATING INSTRUCTIONS

5.1 Adjusting Volume

Use the slide switch on the in-line control unit to increase or decrease the listening volume.

5.2 Answering and Ending Calls

Press the answer/end button on the in-line control unit to accept an incoming call or to terminate an ongoing call.

5.3 Microphone Positioning

Adjust the flexible microphone boom to position the microphone approximately 1-2 inches from your mouth for optimal voice pickup. The 330° rotation allows for precise placement on either side of your head.

5.4 Noise Cancelling Feature

The built-in noise-cancelling microphone is designed to reduce background noise, ensuring clearer communication. Position the microphone correctly to maximize this feature's effectiveness.

6. MAINTENANCE AND CARE

To ensure the longevity and optimal performance of your Callez headset, follow these care guidelines:

- **Cleaning:** Wipe the headset with a soft, dry cloth. For ear cushions, a slightly damp cloth can be used, but

ensure they are completely dry before use. Do not use harsh chemicals or abrasive cleaners.

- **Storage:** Store the headset in a clean, dry place away from extreme temperatures and direct sunlight.
- **Handling:** Avoid pulling on the cable or microphone boom forcefully. Handle the headset by the earcups or headband.
- **Liquid Exposure:** The headset is not water-resistant. Avoid exposure to liquids.

7. TROUBLESHOOTING

If you encounter issues with your Callez headset, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from headset	Incorrect connection; Device volume too low; Headset volume too low; Incorrect audio output selected on device.	Ensure 3.5mm jack is fully inserted. For PC, ensure Y-adapter is correctly used. Increase device and headset volume. Check audio output settings on your computer/phone.
Microphone not working	Incorrect connection; Microphone muted; Incorrect audio input selected on device; Microphone boom not positioned correctly.	Ensure 3.5mm jack is fully inserted. For PC, ensure Y-adapter is correctly used. Check if microphone is muted on the in-line control or device. Verify microphone input settings on your computer/phone. Adjust microphone boom closer to your mouth.
Sound is distorted or unclear	Loose connection; Device audio issues; Interference.	Reconnect the headset. Test with another device to rule out device issues. Move away from potential sources of electronic interference.
Headset uncomfortable	Improper adjustment.	Adjust the headband and microphone boom for a more comfortable fit.
