Yonvim BM06C

Yonvim 5 Inch 1080P Baby Monitor (Model BM06C) Instruction Manual

Model: BM06C | Brand: Yonvim

1. Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your Yonvim 5 Inch 1080P Baby Monitor. This device is designed to provide reliable monitoring of your baby with high-definition video and audio, ensuring peace of mind without requiring a Wi-Fi connection.

The monitor features a 5-inch 1080P display, a 5000mAh battery for extended use, remote pan and tilt functionality, infrared night vision, two-way talk, temperature sensing, and cry detection (VOX mode).

3. Setup & Installation

3.1 Initial Charging

Before first use, fully charge both the monitor unit and the camera unit using the provided power adapters. The monitor features a 5000mAh battery for extended portable use.

Image: The monitor's battery life performance under different usage conditions.

3.2 Automatic Pairing

The monitor and camera units are pre-paired at the factory. Once both units are powered on, they will automatically connect. No Wi-Fi or app is required for operation, ensuring a secure and private connection.

3.3 Mounting Options

The Yonvim Baby Monitor offers versatile mounting options to suit your nursery setup.

Flexible Twist Mount

Attach the camera to the flexible twist mount. This mount can be easily bent and wrapped around crib rails, shelves, or other suitable surfaces to achieve the desired viewing angle.

Image: Examples of flexible twist mount and wall mount installations.

Wall Mount

For a more permanent installation, use the provided wall mount kit. Secure the mount to a wall using the screws

and anchors, then attach the camera to the mount. Ensure the camera has a clear line of sight to the baby's crib.

4. Operating Instructions

4.1 Monitor Display Overview

The 5-inch 1080P HD display provides a clear view of your baby. The top bar of the monitor displays important

information such as signal strength, current room temperature, music status, volume level, current time, and battery life.

4.2 Remote Pan & Tilt

Use the arrow buttons on the monitor unit to remotely adjust the camera's viewing angle. The camera supports 330° horizontal pan and 110° vertical tilt, allowing you to see your baby from various corners of the room.

Image: Remote pan and tilt functionality of the camera.

4.3 Zoom Function

Press the zoom button on the monitor to digitally zoom in on your baby. The monitor supports 2x and 4x zoom levels for a closer view.

4.4 Two-Way Talk

To communicate with your baby, press and hold the microphone button on the monitor. Your voice will be transmitted through the camera's speaker, allowing you to soothe your baby remotely.

Image: The two-way talk feature allowing communication with the baby.

4.5 Lullabies

The monitor includes built-in lullabies to help soothe your baby to sleep. Access the music menu to select from various melodies or set a loop mode.

4.6 VOX Mode (Cry Detection)

In VOX mode, the monitor's screen will automatically turn off to conserve battery when no sound is detected. When your baby cries or makes noise, the screen will activate, alerting you to their needs.

Image: The cry detection feature (VOX mode) in action.

4.7 Night Vision

The camera is equipped with infrared night vision, which automatically activates in low-light conditions. This provides a clear black-and-white image of your baby, even in a completely dark room.

4.8 Temperature Monitoring

The camera includes a built-in temperature sensor that displays the room temperature on the monitor. You can set alerts for temperature ranges to ensure your baby's comfort.

4.9 Feeding Reminder

Utilize the feeding reminder function to set alarms for regular feeding schedules, helping you maintain a consistent routine for your baby.

5. Maintenance

- **Cleaning:** Wipe the monitor and camera surfaces with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Battery Care:** To prolong battery life, avoid fully discharging the monitor frequently. Charge it regularly.
- **Storage:** Store the device in a cool, dry place when not in use for extended periods.

6. Troubleshooting

6.1 No Signal/Poor Connection

- Ensure both the monitor and camera are powered on and fully charged.
- Move the monitor closer to the camera. The maximum range is 1000ft in an open area, but walls and obstacles can reduce this.
- Avoid placing the camera or monitor near other electronic devices that may cause interference.
- Try re-pairing the units if the connection is lost (refer to user manual for specific pairing steps if automatic pairing fails).

6.2 Poor Image Quality

- Ensure the camera lens is clean and free from dust or smudges.
- Check the lighting conditions in the nursery. Night vision will activate automatically in dark environments.

6.3 Short Battery Life

- Ensure the monitor is fully charged before use.
- Reduce screen brightness to conserve power.
- Utilize VOX mode to turn off the display when quiet, extending battery life.

7. Specifications

Feature	Specification
Model Number	BM06C
Display Size	5 inches
