Kotlie XL Covered Smart Odor Control Litter Box SH2119P Instruction Manual

Model: SH2119P | Brand: Kotlie

INTRODUCTION

Thank you for choosing the Kotlie XL Covered Smart Odor Control Litter Box. This manual provides essential information for the proper setup, operation, and maintenance of your new litter box. Please read these instructions carefully before use and retain them for future reference.

IMPORTANT SAFETY INFORMATION

- Ensure the product is placed on a stable, level surface.
- Keep the power adapter and cord away from water and moisture.
- Do not immerse the electronic components (top cover) in water. Clean with a damp cloth only.
- Supervise pets during initial use to ensure they adapt comfortably.
- Keep out of reach of children.

PACKAGE CONTENTS

Verify that all components are present before assembly:

- Odor Control Cat Litter Box (Main Unit) x1
- Cat Litter Mat x1

- Cat Litter Scoop x1
- Adapter + USB Cord x1
- User Guidance (this manual) x1

Packaging Details

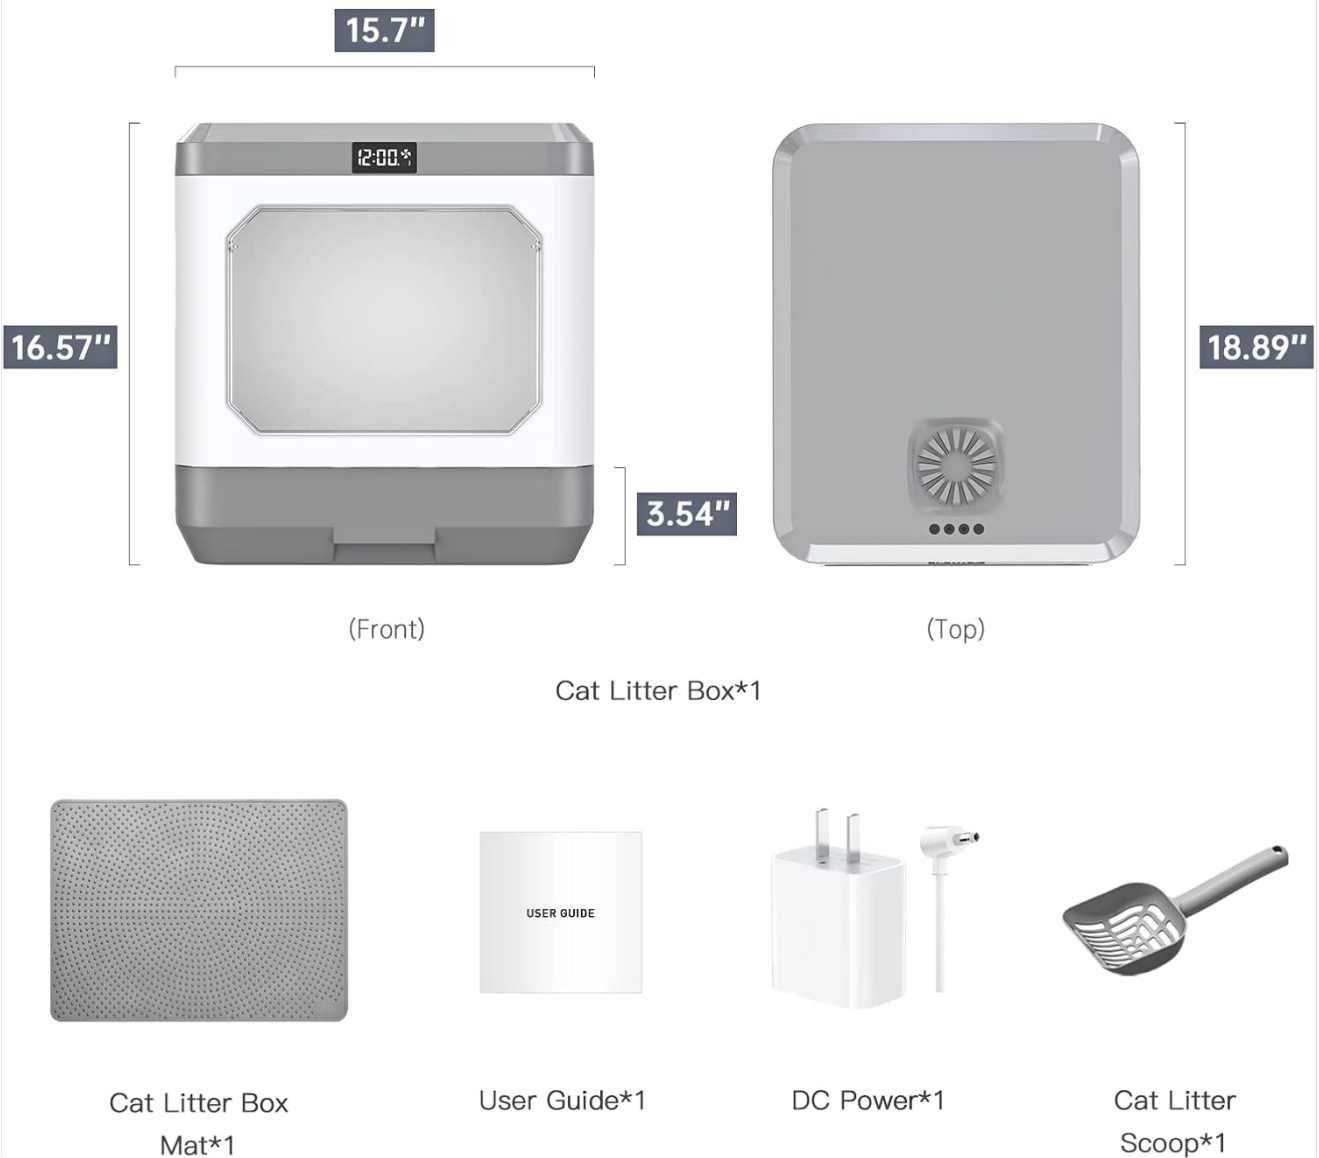

Figure 1: Packaging Details. This image displays all the components included in the Kotlie XL Covered Smart Odor Control Litter Box package, including the main litter box unit, a cat litter mat, a cat litter scoop, and the power adapter with USB cord.

SETUP INSTRUCTIONS

Follow these steps to assemble your Kotlie XL Covered Smart Odor Control Litter Box:

1. **Assemble the Side Panels:** Connect the four side panels by snapping them together. Ensure all connections are secure.
2. **Install the Top Cover:** Place the top cover onto the assembled side panels. The LED display on the top cover should face the same direction as the front opening of the litter box.

3. **Attach the Bottom Tray:** Flip the assembled upper section over. Attach the two bottom pieces that form the base of the litter box. Ensure they snap securely into place.
4. **Insert the Pull-Out Drawer:** Slide the pull-out drawer into the designated slot at the front bottom of the litter box.
5. **Connect Power:** Plug the adapter into the litter box and then into a power outlet. The odor control system requires continuous power to function.
6. **Place Litter Mat:** Position the included cat litter mat in front of the litter box entrance to help reduce litter tracking.
7. **Add Cat Litter:** Fill the pull-out drawer with your preferred cat litter.

OPERATING INSTRUCTIONS

The Kotlie litter box features an advanced smart odor control system and user-friendly controls.

Control Panel Overview

Figure 4: Control Panel. The top panel features buttons for power, fan speed adjustment (up/down arrows), and time setting. The LED display shows current settings and time.

- **Power Button (ON/OFF):** Long press to turn the unit on or off.
- **Fan Speed Adjustment (Up/Down Arrows):** Use these buttons to adjust the odor control fan speed (1-3 speeds). Speed 1 is the recommended default for best odor control.
- **Set Button (Clock Set):** Long press to set the hour, then short press to set the minutes. Short press again to confirm.

Odor Control System

The litter box utilizes an electronic odor control system with a high efficiency of up to 97%. It works by circulating air and using an ion generator to destroy odor and bacterial cell walls. For optimal odor control, it is recommended that the power is always on.

Advanced Plasma Device

Indulge in an odor-free environment with Kotlie plasma odor control cat litter box

MAINTENANCE AND CLEANING

Regular cleaning ensures hygiene and extends the product's lifespan.

Cleaning the Litter Box

1. **Remove Litter Mat:** Move the litter mat away from the front of the box.
2. **Pull Out Drawer:** Gently pull out the bottom drawer to access the used litter.
3. **Scoop Waste:** Use the provided scoop to remove solid waste.
4. **Clean Drawer:** Empty the remaining litter and clean the drawer with mild soap and water. Rinse thoroughly and dry before reinserting.
5. **Wipe Down Interior:** Wipe the interior surfaces of the litter box with a damp cloth. Do not use harsh chemicals.
6. **Clean Top Cover:** Wipe the top cover gently with a damp cloth. Avoid getting water into the fan or electronic components.

Video 4: Upgraded Leak-proof Urine, Odor Control Cat Litter Box. This video showcases the leak-proof design of the litter box, particularly the upgraded ramp and raised edges that prevent urine leakage, contributing to easier cleaning.

Cleaning the Litter Mat

The silicone litter mat is designed to trap loose litter. Simply shake off trapped litter back into the box or dispose of it. The mat can be rinsed with water and air-dried.

Figure 7: Litter Mat. The image shows the textured surface of the included litter mat, designed to capture loose litter from your cat's paws.

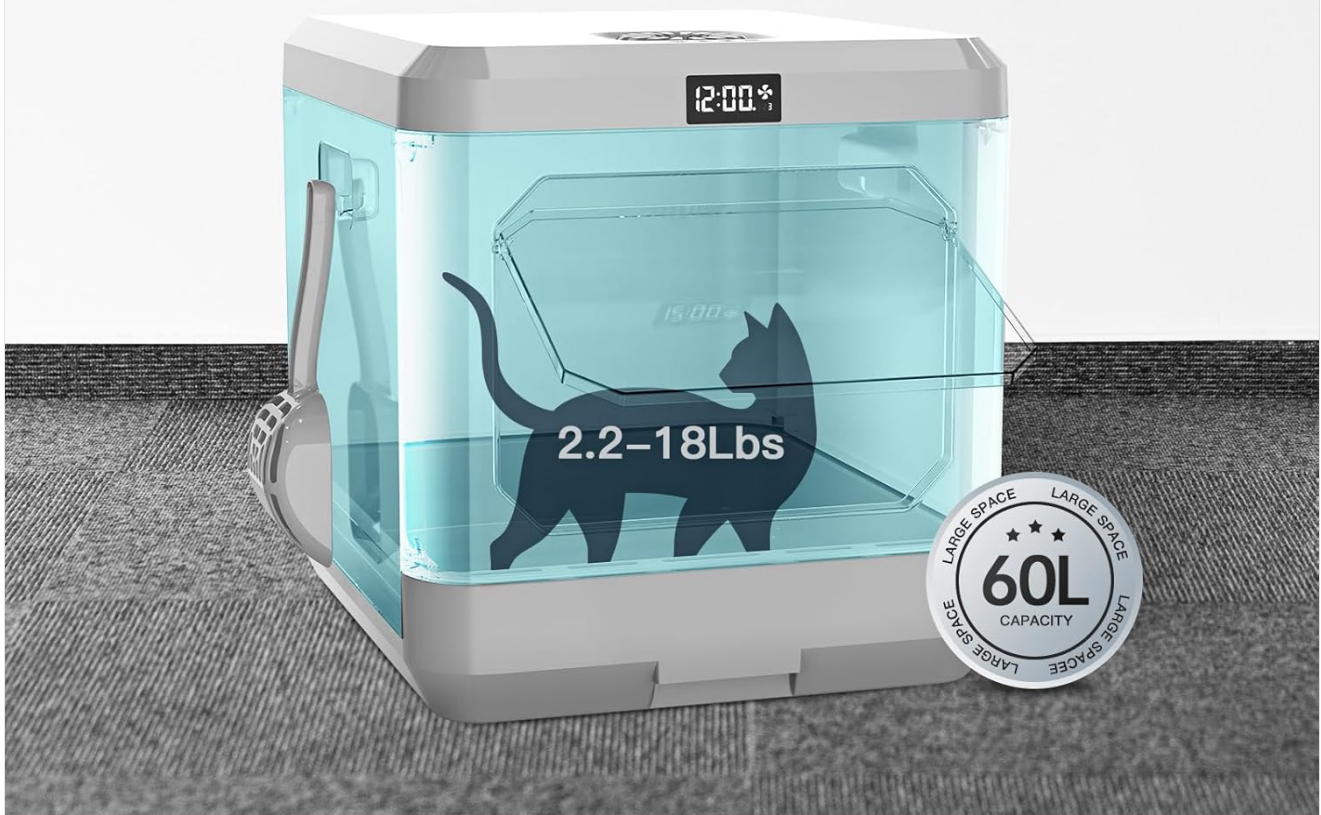

TROUBLESHOOTING

Problem	Possible Cause	Solution
Odor persists or is not fully controlled.	Odor control fan is off or on a low setting. Litter box needs cleaning. Power adapter is disconnected.	Ensure the odor control fan is on (long press power button) and set to speed 1 for best effect. Clean the litter box and change litter regularly. Verify the power adapter is securely plugged in.
Urine leakage from the sides.	Improper assembly of the bottom tray. Male cats urinating high.	Ensure the bottom tray is correctly installed and sealed tightly with the main unit. The upgraded ramp design with raised edges is specifically designed to prevent male cat urine side leakage. Consider using a higher-sided litter box liner if issues persist.
Cat is hesitant to use the litter box.	Unfamiliarity with the enclosed design or swinging door. Fan noise is bothering the cat.	Remove the swinging door temporarily to allow the cat to adjust. Reintroduce it later if desired. Start with the fan on the lowest setting or turn it off initially until the cat is comfortable.
Digital display is off.	Unit is off or power is disconnected.	Long press the power button to turn on the unit. Check power connections and ensure the outlet is functional.
