iPettie Runway

iPettie Runway Stainless Steel Cat Water Fountain User Manual

Model: Runway (Wired-Corded Electric)

1. PRODUCT OVERVIEW

The iPettie Runway Stainless Steel Cat Water Fountain provides a continuous supply of fresh, filtered water for your pets. Designed with durability and hygiene in mind, this fountain features a large capacity and a multi-stage filtration system to ensure clean drinking water.

Image: The iPettie Runway Stainless Steel Cat Water Fountain, fully assembled and operating, showing water flowing into the basin.

Key Features:

- **304 Stainless Steel Construction:** Durable, hygienic, and dishwasher-safe material that helps prevent pet chin acne.
- **1.1 Gallon (4.0L) Large Capacity:** Suitable for multi-pet households, reducing the frequency of refills.
- **5-Stage Circulating Filtration System:** Ensures water is fresh, clean, and oxygen-enriched.
- **Whisper-Quiet Operation:** Equipped with a CE certified IP68 pump for minimal noise.
- **Smart Reminders:** Features indicators for low water level and filter replacement.

2. WHAT'S INCLUDED

Please check the package contents to ensure all items are present:

- Main Body (Stainless Steel Basin)

- Main Control Module & Pump
- Type-C Cable
- Filter (5-stage)
- Sponge
- Adapter
- Cleaning Brush
- Cleaning Tweezers
- User Manual

3. SETUP INSTRUCTIONS

Follow these steps to assemble and set up your iPettie Runway Cat Water Fountain:

1. **Clean Components:** Before first use, wash all parts (except the main control module, pump, Type-C cable, and adapter) with water. The stainless steel basin is dishwasher safe.
2. **Assemble Pump and Filter:** Insert the sponge into the pump. Place the 5-stage filter into the filter tray.
3. **Install Pump:** Place the assembled pump into the designated slot in the main control module. Ensure it is securely fitted.
4. **Place Main Control Module:** Position the main control module with the pump into the stainless steel basin.
5. **Fill with Water:** Fill the stainless steel basin with clean water up to the 'MAX' line indicated on the side. Do not overfill.
6. **Connect Power:** Connect the Type-C cable to the main control module and plug the adapter into a standard electrical outlet.

4. OPERATING INSTRUCTIONS

Once set up, the fountain operates automatically:

- **Power On:** The fountain will start circulating water once plugged in. The 'Power Is On' indicator light will illuminate.
- **Water Level Monitoring:** The fountain features a transparent window with 'MAX' and 'MIN' indicators. Ensure the water level stays above the 'MIN' line to prevent pump damage. A 'Lack of Water' indicator will light up if the water level is too low.
- **Filter Replacement Reminder:** The 'Filter Replacement Indicator' will light up when it's time to change the filter, typically every 2-4 weeks depending on usage and water quality.
- **Quiet Operation:** The fountain is designed to run quietly. The only sound you should hear is the gentle dripping of water.

Smart Reminders

More Conveniences

5. MAINTENANCE

Regular cleaning and filter replacement are crucial for your pet's health and the longevity of the fountain.

5.1 Cleaning the Fountain

- **Stainless Steel Basin:** The stainless steel basin is dishwasher safe. Before placing it in the dishwasher, ensure you remove the main control module and cable.
- **Manual Cleaning:** For manual cleaning, disassemble all parts. Wash the basin, filter tray, and other non-electrical components with mild soap and water. Use the provided cleaning brush and tweezers to clean hard-to-reach areas.
- **Pump Cleaning:** Disassemble the pump and clean its impeller and housing thoroughly to prevent mineral buildup and ensure optimal performance.

Easy Cleaning & Dishwasher Safe

* Remove the controller & cable before any cleaning

Prevents black acne

BPA Free

5.2 Filter Replacement

The 5-stage filter should be replaced every 2-4 weeks, or when the filter replacement indicator lights up. Regular filter replacement ensures optimal water purification.

- To purchase official replacement filters, search for ASIN [B0BZCV19QQ](#) on Amazon.
- Replacement pumps can be found by searching ASIN [B0BZCRNGW6](#).

5-Stage Circulating Purification

Each lick is fresh and clean

Upgraded Quiet Pump

6. TROUBLESHOOTING

If you encounter any issues with your iPettie Runway Cat Water Fountain, please refer to the following common problems and solutions:

- **No Water Flow:**

- Check if the power adapter is securely plugged into the outlet and the fountain.
- Ensure the water level is above the 'MIN' indicator. Refill if necessary.
- Disassemble and clean the pump, especially the impeller, as debris or mineral buildup can obstruct water flow.

- **Excessive Noise:**

- Check the water level; low water can cause the pump to run louder.

- Clean the pump and impeller. Hair or debris can cause vibrations.
- Ensure the pump is properly seated in its slot and not vibrating against the basin.

- **Water Tastes/Smells Bad:**

- Replace the filter.
- Thoroughly clean all fountain components, including the basin and pump.
- Ensure you are using fresh, clean water.

- **Filter Replacement Indicator Always On:**

- Replace the filter with a new one.
- If the issue persists after replacing the filter, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Name	Runway (Wired-Corded Electric)
Material	304 Stainless Steel
Color	Stainless Steel
Capacity	1.1 Gallons (4.0 Liters)
Item Dimensions (LxWxH)	10.79 x 9.13 x 5.83 inches
