CUCKOO CACFS-R12M03US

CUCKOO Air Purifier Filter Replacement Bundle User Manual

Model: CACFS-R12M03US

For Air Purifier Model: CAC-R1510FW

INTRODUCTION

This manual provides essential information for the proper installation, operation, and maintenance of your CUCKOO 1-Year Filter Replacement Bundle for Air Purifier Model CAC-R1510FW. The filter bundle is designed to be replaced every six months or when the filter indicator light on the air purifier turns on. Regularly replacing the filter bundle will help ensure optimal air quality and maintain the performance of the air purifier.

SETUP AND INSTALLATION

Package Contents

The 1-Year Filter Replacement Bundle includes the following components:

- Pre-Filter (1)
- H13 True HEPA Filter (1)
- Carbon Filters (2)

Installation Steps

Follow these steps to install the new filter bundle into your CUCKOO Air Purifier Model CAC-R1510FW:

1. **Power Off and Unplug:** Before beginning, ensure your air purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate and open the filter compartment cover on your air purifier. Refer to your air purifier's main user manual for specific instructions on accessing the filter compartment.
3. **Remove Old Filters:** Carefully remove the used pre-filter, HEPA filter, and carbon filters from the air purifier. Dispose of them according to local regulations.
4. **Install New Filters:**
 - Insert the new H13 True HEPA Filter into its designated slot. Ensure it is oriented correctly.
 - Place the two new Carbon Filters into their respective positions, typically around or in front of the HEPA filter.
 - Finally, install the new Pre-Filter, which is usually the outermost filter layer.

5. **Close Compartment:** Securely close the filter compartment cover.
6. **Plug In and Power On:** Plug the air purifier back into the power outlet and turn it on.
7. **Reset Filter Indicator:** If your air purifier has a filter replacement indicator light, follow the instructions in your air purifier's main user manual to reset it. This typically involves pressing and holding a specific button for a few seconds.

FILTER OPERATION

The CUCKOO Air Purifier Model CAC-R1510FW, when equipped with this filter bundle, utilizes a multi-stage filtration system to ensure optimal air quality:

- **Pre-filter:** This is the first layer of filtration. It captures large particles such as hair, pet dander, and dust, extending the life of the subsequent filters.
- **Activated Carbon Filter:** This layer is designed to absorb odors and gases, including volatile organic compounds (VOCs), formaldehyde, and other common household smells.
- **H13 True HEPA Filter:** This is the most critical layer of filtration. It captures up to 99.97% of airborne particles as

small as 0.3 microns, including pollen, dust mites, mold spores, and pet dander.

Together, these filters work to provide comprehensive air purification, removing both particulate matter and gaseous pollutants from your indoor environment.

MAINTENANCE

Filter Replacement Schedule

The CAC-R1510FW filter bundle is designed for regular replacement to ensure continuous optimal performance of your air purifier. It is recommended to replace the entire filter bundle every **six months** or when the filter indicator light on your air purifier illuminates, whichever comes first. Actual replacement frequency may vary based on air quality and usage.

Cleaning the Pre-Filter

While the HEPA and Carbon filters are not washable and must be replaced, the pre-filter can often be gently cleaned between replacements to maintain efficiency. Refer to your air purifier's main manual for specific instructions on cleaning the pre-filter. Typically, this involves vacuuming or rinsing the pre-filter with water and allowing it to air dry completely before reinstallation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Air quality not improving after filter replacement.	Filter indicator light not reset; filters not installed correctly; air purifier malfunction.	Ensure filter indicator light is reset. Verify filters are seated properly. Consult your air purifier's main manual or CUCKOO support if the issue persists.
Filter indicator light remains on after new filter installation.	Reset procedure not followed or completed correctly.	Refer to your air purifier's main manual for the correct filter reset procedure. Repeat the reset steps carefully.
Unusual odor from air purifier after filter replacement.	New filter "new" smell (temporary); old filters not fully removed; issue with new carbon filter.	Allow a few hours for any new filter smell to dissipate. Ensure all old filters were removed. If the odor persists, contact CUCKOO support.

SPECIFICATIONS

- Model Number:** CACFS-R12M03US
- Compatible Air Purifier Model:** CAC-R1510FW
- Included Components:** 1 x Pre-Filter, 1 x H13 True HEPA Filter, 2 x Carbon Filters
- Material:** Paper, Carbon Fiber, Plastic
