**Beurer BF720**

# Beurer BF720 Smart Scale User Manual

Model: BF720 (Item Model Number: QWQ9100)

## 1. Introduction

The Beurer BF720 Smart Scale is designed to provide comprehensive body composition analysis, helping you monitor your health and fitness progress. This digital scale connects to your smartphone via Bluetooth, offering detailed insights beyond just body weight.

It measures body weight, body fat percentage, body water percentage, muscle percentage, bone mass, Basal Metabolic Rate (BMR), Active Metabolic Rate (AMR), and Body Mass Index (BMI). The scale features a 400 lb capacity, 8 user storage spaces with automatic user recognition, and an XL LCD display for clear readings.

For detailed tracking and analysis, the Beurer BF720 integrates seamlessly with the free Beurer HealthManager Pro app, which automatically syncs your data.

## 2. Setup

### 2.1 Battery Installation

The Beurer BF720 Smart Scale comes with batteries included. Ensure they are correctly installed in the battery compartment, typically located on the underside of the scale, following the polarity indicators.

### 2.2 App Download and Pairing

1. Download the **Beurer HealthManager Pro** app from your smartphone's app store (available for iOS and Android).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the HealthManager Pro app and follow the on-screen instructions to add a new device. Select the BF720 Smart Scale.
4. Step onto the scale to activate it and initiate the pairing process. The scale's display will indicate successful connection.

*Figure 2: The Beurer HealthManager Pro app is essential for full functionality and data tracking.*

## 2.3 User Profile Setup and Recognition

The scale supports up to 8 user profiles with automatic recognition. Within the HealthManager Pro app, create individual profiles for each user. Input details such as height, age, gender, and activity level. The scale uses this information for accurate body composition analysis and calorie estimations.

When a user steps on the scale, it attempts to recognize them based on their previous weight and body composition data. If multiple users have similar weights, the app may prompt you to confirm the user.

*Figure 3: The scale features 8 user memories with automatic user recognition.*

## 3. Operating Instructions

### 3.1 Taking a Measurement

1. Place the scale on a firm, flat surface. Avoid carpets or uneven flooring for accurate readings.
2. Step onto the scale barefoot. Ensure your feet are positioned correctly on the brushed stainless-steel electrodes for bioelectrical impedance analysis (BIA).
3. Stand still until your weight and other body composition data are displayed on the XL LCD screen.
4. The scale features quickstart technology and automatic switch-off for convenience.

*Figure 4: The easy-to-read LCD display shows your weight and other metrics.*

*Figure 5: Brushed stainless-steel electrodes ensure accurate body composition measurements.*

### 3.2 Data Synchronization and App Features

Once a measurement is taken, the data will automatically sync to your HealthManager Pro app via Bluetooth when the app is open and within range. The app allows you to:

- View your weight and body composition trends over time.
- Set personal goals and track your progress.
- Adjust your activity level (from 1 to 5) to help the scale estimate your daily calorie needs more accurately.
- Switch between measurement units (pounds or kilograms).

*Figure 6: Select from 5 activity levels for personalized calorie estimations.*

## 4. Maintenance

### 4.1 Cleaning

To clean the scale, wipe it with a damp cloth and a mild detergent. Do not use abrasive cleaning agents or immerse the scale in water. Ensure the glass surface and electrodes are clean and dry before each use for optimal accuracy.

### 4.2 Battery Replacement

When the battery indicator appears on the display, replace the batteries with new ones of the specified type. Refer to the battery compartment for specific battery requirements.

### 4.3 Storage

Store the scale in a dry place, away from extreme temperatures and direct sunlight. Avoid placing heavy objects on the

scale when not in use.

## 5. Troubleshooting

- **Inaccurate Readings:** Ensure the scale is on a hard, flat surface. Avoid moving the scale between measurements. Ensure your feet are clean and dry and properly positioned on the electrodes.
- **No Display/Power:** Check battery installation and replace batteries if necessary.
- **Bluetooth Connectivity Issues:** Ensure Bluetooth is enabled on your smartphone and the app is open. Try restarting both the scale (by removing and reinserting batteries) and your smartphone.
- **User Recognition Errors:** Confirm your user profile details in the app are accurate. If multiple users have similar weights, manually select your profile in the app after weighing.

For further assistance, consult the Beurer HealthManager Pro app's help section or visit the official Beurer support website.

## 6. Specifications

| Feature | Detail |
| --- | --- |
| **Model** | BF720 (QWQ9100) |
| **Weight Capacity** | 400 lbs (180 kg) |
| **Measurement Increments** | 0.2 lbs (0.1 kg) |
| **Product Dimensions** | 11.8 x 11.8 x 1 inches |
| **Item Weight** | 3.5 Pounds |
| **Display Type** | XL LCD with backlight |
| **Special Features** | Body weight, body fat, body water, muscle percentage, bone mass, BMI, BMR, AMR, auto-recognition, auto shut-off |
| **Connectivity** | Bluetooth |
| **User Memory** | 8 users |
