VAULTEK Zip20 (Dual Layer)

VAULTEK LifePod Zip Travel Case User Manual

Model: Zip20 (Dual Layer)

1. INTRODUCTION

The VAULTEK LifePod Zip20 is a versatile and portable storage case designed for secure and organized travel. It features a dual-layer design with splash-proof construction, making it ideal for protecting your valuables and essential items. This manual provides detailed instructions on the setup, operation, maintenance, and specifications of your LifePod Zip20 Travel Case.

2. SETUP AND ORGANIZATION

The LifePod Zip20 is designed for flexible organization with its dual-layer system. Upon opening the case, you will find a built-in lid organizer and a main compartment with a removable tray.

2.1 Lid Organizer

The lid features two small mesh zip pockets and one large mesh pocket. These are suitable for storing smaller items such as cables, memory cards, or identification documents.

2.2 Main Compartment and Removable Tray

The main compartment includes a removable interior tray. Beneath this tray, you will find repositionable dividers that allow you to customize the storage space to fit various items securely. This dual-layer soft-lined interior protects contents from scratches and impacts.

3. OPERATION AND USAGE

The LifePod Zip20 is designed for ease of use and protection. Its splash-proof construction and water-resistant zipper provide a barrier against light moisture, making it suitable for various environments.

3.1 Securing the Case

Ensure the zipper is fully closed to engage the splash-proof feature. The molded EVA foam provides a protective hard outer shell, safeguarding contents from impacts.

3.2 Portability and Attachment

A detachable carabiner is included with the case. This carabiner can be used to secure the case to other travel bags, backpacks, or for convenient storage.

COMPLIMENT YOUR VAULTEK SAFE

Fits LifePod XT, MX Series, and RS Series Safes

The detachable carabiner (included with Zip Case 10/20) can be used to secure the case or attach to other travel bags.

4. MAINTENANCE

Proper care will ensure the longevity and performance of your LifePod Zip20 Travel Case.

- **Cleaning:** Wipe the exterior and interior surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by wiping with a clean, damp cloth.

- **Drying:** If the case becomes wet, ensure it is thoroughly air-dried before closing and storing to prevent moisture buildup.
- **Storage:** Store the case in a cool, dry place away from direct sunlight and extreme temperatures.
- **Zipper Care:** Periodically check the zipper for any debris and clean if necessary. A silicone-based lubricant can be applied sparingly to the zipper teeth if it becomes stiff.

5. TROUBLESHOOTING

This section addresses common inquiries regarding the LifePod Zip20 Travel Case.

Issue: Strong Odor from the Case

Solution: New cases, especially those made with EVA foam and nylon, may have a slight manufacturing odor. This is normal and typically dissipates over time. To expedite the process, leave the case open in a well-ventilated area for several days.

Issue: Zipper feels stiff or difficult to close

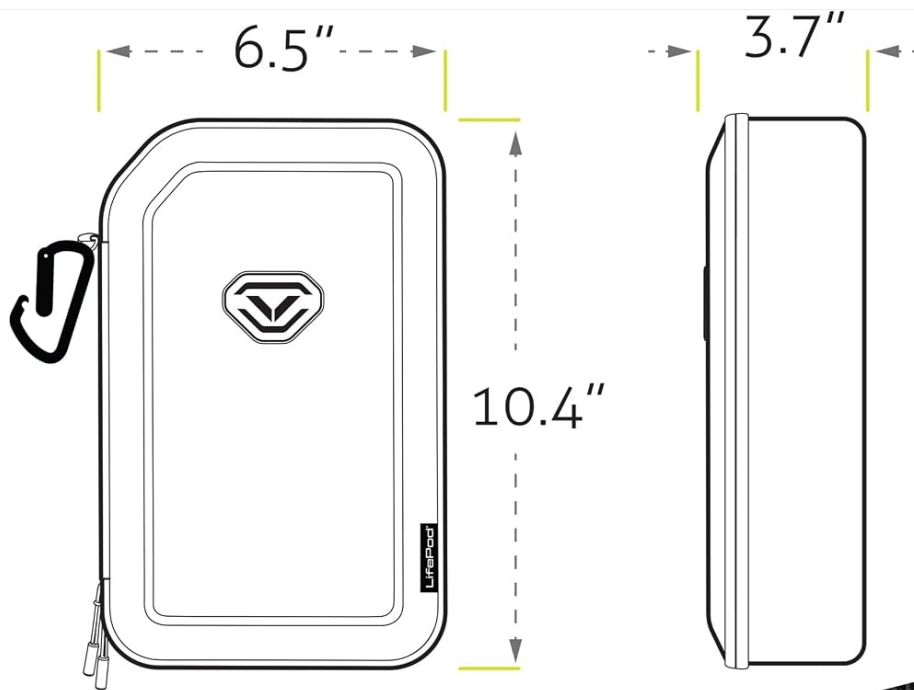

Solution: Ensure no fabric or items are caught in the zipper teeth. Clean any visible debris. If stiffness persists, apply a small amount of zipper lubricant (e.g., silicone spray or wax) to the zipper teeth and work the zipper back and forth several times.

Issue: Concerns about splash resistance

Solution: The case is designed with splash-proof construction and a water-resistant zipper. For optimal protection against splashes, ensure the zipper is fully and securely closed. This case is not designed for submersion or prolonged exposure to heavy rain.

6. SPECIFICATIONS

Feature	Detail
Model Name	Zip Case (Zip20 Dual Layer)
Exterior Dimensions (L x W x H)	10.4" x 6.5" x 3.7"
