### SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Retain the packaging for future storage or transport.
2. **Charging the Battery:** Before first use, fully charge the speaker's internal battery using the provided AC power cable. Connect the cable to the speaker's AC input and then to a standard wall outlet. The charging indicator will show the status.
3. **Assembling the DJ Speaker Stand:**
  - Extend the tripod legs of the DJ stand to a stable position.

- Adjust the height of the stand using the locking pin and knob. Ensure the pin is fully engaged and the knob is tightened.
- Carefully place the Max Power MPD1238 speaker onto the pole of the DJ stand. Ensure it is securely seated.

### ADJUSTABLE UP TO 37" DJ STAND

Turn all the groovy vibes and enjoy your music any where with your friends

Image: The Max Power MPD1238 speaker securely mounted on its adjustable DJ stand, demonstrating its elevated position for optimal sound projection.

4. **Connecting the Microphone:** Insert the wired microphone's cable into one of the MIC input jacks on the speaker's control panel.

## OPERATING INSTRUCTIONS

### Power On/Off

Locate the power switch on the speaker's control panel. Toggle it to the "ON" position to power on the unit. Toggle to "OFF" to power off.

## Bluetooth Mode

1. Power on the speaker. The speaker will automatically enter Bluetooth pairing mode or you can select Bluetooth mode using the Mode button.
2. On your Bluetooth-enabled device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
3. Select "Max Power MPD1238" (or similar name) from the list of devices.
4. Once paired, the speaker will emit a confirmation sound, and you can begin streaming audio wirelessly.

## USB/SD Card Playback

1. Insert a USB flash drive or SD card (pre-loaded with MP3/WMA audio files) into the respective port on the speaker's control panel.
2. The speaker will automatically detect the media and switch to USB or SD mode, beginning playback. If not, press the Mode button to select.
3. Use the playback controls (Play/Pause, Next/Previous Track) on the speaker or remote control to manage your music.

## FM Radio Mode

1. Press the Mode button until "FM" is displayed on the LED screen.
2. Press the Play/Pause button to initiate an automatic scan for available FM stations. The speaker will save detected stations.
3. Use the Next/Previous Track buttons to navigate between saved FM stations.

## Auxiliary Input (AUX)

1. Connect one end of the provided Aux cable to the AUX input port on the speaker.
2. Connect the other end of the Aux cable to the audio output jack of your external device (e.g., MP3 player, computer).
3. Press the Mode button until "AUX" is displayed. Audio from your external device will now play through the speaker.

## Microphone and Guitar Inputs

- Plug your wired microphone into one of the "MIC IN" jacks.
- Plug your guitar into the "GUITAR IN" jack.
- Adjust the individual volume controls for the microphone and guitar on the speaker's control panel to achieve the desired mix with your music.

## LED Party Lights

The speaker features dynamic LED lights around the woofer. Use the dedicated light mode button on the control panel or remote to cycle through different light patterns or to turn the lights off.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the speaker. Do not use liquid cleaners or abrasive materials.

- **Storage:** When not in use for extended periods, store the speaker in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, fully charge the speaker before long-term storage and recharge it every 3-6 months if not in use.
- **Avoid Water:** This speaker is not waterproof. Keep it away from water and moisture to prevent damage.

### TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Battery is depleted; Power switch is off.	Charge the speaker; Ensure power switch is in "ON" position.
No sound from speaker	Volume is too low; Incorrect mode selected; Device not connected properly.	Increase master volume; Press Mode button to select correct input (Bluetooth, USB, AUX, FM); Reconnect device.
Bluetooth not pairing	Speaker not in pairing mode; Device too far; Bluetooth disabled on source device.	Ensure speaker is in Bluetooth mode; Move device closer to speaker; Enable Bluetooth on your device and rescan.
Microphone not working	Microphone not plugged in correctly; Microphone volume too low; Microphone faulty.	Ensure microphone is fully inserted into MIC IN jack; Increase microphone volume knob; Test with another microphone if available.
USB/SD card not playing	Incorrect file format; Card/drive not inserted correctly; Corrupted files.	Ensure files are MP3/WMA format; Reinsert USB/SD card; Try a different USB/SD card.
