Dexnor Samsung Galaxy A54

Dexnor Case for Samsung Galaxy A54 5G Instruction Manual

Model: Samsung Galaxy A54

INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Dexnor protective case for the Samsung Galaxy A54 5G. This case is designed to offer comprehensive protection against drops, impacts, and scratches, featuring a dual front frame design and a built-in kickstand.

This image shows the Dexnor full-body protective case for the Samsung Galaxy A54 5G in its violet color variant, highlighting its overall design.

COMPATIBILITY

This Dexnor case is specifically designed for the **Samsung Galaxy A54 5G** (6.4-inch display) only. It is not compatible with other Samsung models such as the Galaxy A34, A53 5G, or A32 5G.

Only Compatible

With Samsung A54

Samsung A34 6.6"

Not Compatible With
Samsung A53 5G 6.5"

Not Compatible With
Samsung A32 5G 6.5"

This image illustrates that the case is exclusively compatible with the Samsung Galaxy A54 5G. It explicitly shows other models like the A34, A53 5G, and A32 5G are not compatible, highlighting the precise fit for the A54 5G.

PACKAGE CONTENTS

The package includes the following items:

- 1x Dexnor Full-Body Protective Case for Samsung Galaxy A54 5G
- 2x Front Frames (one with integrated screen protector, one without)

INSTALLATION INSTRUCTIONS

Follow these steps to properly install the Dexnor protective case on your Samsung Galaxy A54 5G:

1. **Separate the Case:** Carefully separate the front frame from the back cover of the case.
2. **Prepare the Front Frame:** If using the front frame with the integrated screen protector, ensure any protective films on both sides of the screen protector are removed.
3. **Install Front Frame:** Place your Samsung Galaxy A54 5G into the front frame. Ensure the phone is

securely seated within the frame.

4. **Attach Back Cover:** Align the front frame (with your phone inside) with the back cover. Press firmly around the edges until the front frame snaps securely into the back cover.
5. **Final Check:** Verify that all edges are sealed and the case fits snugly around your phone.

You have the option to switch between the two provided front frames based on your preference: one with an integrated screen protector for full screen coverage, and one without if you prefer to use your phone's bare screen or a different screen protector.

This image displays the individual components of the Dexnor case, including the hard front frame, hard PC back cover, soft TPU edges, and the durable PC kickstand, illustrating the full-body protection design.

OPERATING INSTRUCTIONS

Using the Multifunctional Kickstand

The integrated kickstand allows for hands-free viewing in both portrait and landscape orientations. To use the kickstand:

- Gently pull out the kickstand from the back of the case until it locks into position.

- Adjust the angle as desired for comfortable viewing.
- When finished, push the kickstand back into its recess until it sits flush with the case.

Portrait Mode

For browsing or making video calls

Landscape Mode

For watching movies, shows, or games

This image shows the kickstand deployed in portrait mode, ideal for browsing or making video calls.

Multifunctional Kickstand

Allow you to hold the phone more securely and comfortably

This image demonstrates the kickstand in landscape mode, suitable for watching movies, shows, or playing games.

360°

Full-body Protection

Hard Front Frame

With a screen protector

Hard PC Back Cover

Shock-absorbing and
Impact-resistant

Soft TPU Edges

Easier to put on and take off

Durable PC Kickstand

Stable and reliable to use

This image illustrates the versatility of the kickstand, showing it can also be used as a finger loop for a more secure grip during one-handed phone operation.

Screen Protector Functionality

The integrated screen protector is designed to be highly responsive to touch, allowing for smooth typing and gaming without delay. It is also scratch and stain-resistant. Ensure the screen protector is clean and free of dust before installation to maintain optimal touch sensitivity.

Ultimate Drop Protection

Protect your device against scratches, drops, and other accidental damage

BumperShock Cushion

Bumper Shield Protected

360° Protection

This image highlights the ultimate drop protection features of the Dexnor case, including BumperShock Cushion technology, 360-degree protection, and MIL-STD 810H-516.8 certification, designed to protect your device from scratches, drops, and accidental damage.

This image provides a detailed view of the case's protective features, including raised edges for camera and screen protection, and the integrated screen shield designed to be bubble-free and highly responsive.

MAINTENANCE

To ensure the longevity and effectiveness of your Dexnor case, follow these maintenance guidelines:

- **Cleaning:** Regularly clean the case with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used. Avoid harsh chemicals or abrasive materials.
- **Screen Protector:** If using the integrated screen protector, clean it gently with a microfiber cloth to remove fingerprints and smudges.
- **Inspection:** Periodically inspect the case for any signs of wear or damage. If the case is significantly damaged, consider replacing it to ensure continued protection for your device.
- **Storage:** When not in use, store the case in a clean, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter any issues with your Dexnor case, refer to the following common solutions:

- **Case Does Not Fit:** Ensure your phone model is indeed the Samsung Galaxy A54 5G. This case is not compatible with other models. Re-check the installation steps to ensure the front frame and back cover are correctly aligned and snapped together.
- **Screen Protector Bubbles:** Small bubbles can sometimes appear during installation. Try to gently push them towards the edges with a soft cloth. Ensure the phone screen and the screen protector are completely clean and dust-free before installation.
- **Reduced Touch Sensitivity:** If the screen protector affects touch sensitivity, ensure it is clean. If the issue persists, consider using the alternative front frame without the integrated screen protector, or re-installing the case carefully.
- **Buttons Not Responsive:** Ensure the phone is correctly seated within the case and that the case's buttons align perfectly with the phone's buttons.
