SIFENE KC101

SIFENE Single Serve Coffee Maker KC101 User Manual

Model: KC101

INTRODUCTION

Thank you for choosing the SIFENE Single Serve Coffee Maker. This versatile 3-in-1 machine is designed to brew K-cup pods, ground coffee, and loose leaf tea, offering convenience and efficiency for your daily beverage needs. With its compact design and 50oz removable water reservoir, it is suitable for various settings including homes, offices, and dorms. Please read this manual thoroughly before use to ensure proper operation and maintenance.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to 'off', then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Always ensure the water tank is filled between the MIN and MAX lines before brewing.

- Do not open the lid when brewing.
- Do not remove the coffee mug until the machine turns off completely.

PACKAGE CONTENTS

Upon unpacking, please ensure all items are present:

- SIFENE Single Serve Coffee Maker Body
- Filter (for ground coffee/loose tea)
- Single Serve Pod Adapter (for K-cup pods)
- Instruction Manual

PRODUCT COMPONENTS

What's In the Box

Figure 1: SIFENE Coffee Maker with labeled components.

The SIFENE KC101 coffee maker consists of the following main parts:

1. **Tea Baskets / Capsule Baskets / Coffee Powder Baskets:** Interchangeable holders for different brewing methods.
2. **Top Cap:** Covers the brewing chamber.
3. **Control Panel:** Features power button and brew size selections.
4. **Removable Water Tank:** 50 oz capacity for multiple brews.
5. **Removable Drip Tray:** Collects spills and accommodates various mug sizes.

Figure 2: Front view of the SIFENE Single Serve Coffee Maker.

Compact & Modern Design

More space in your kitchen

Figure 3: Compact dimensions of the SIFENE Coffee Maker, measuring approximately 10.63"D x 6.3"W x 10.24"H.

Brew Up to 8 Cups

50 oz. removable reservoir

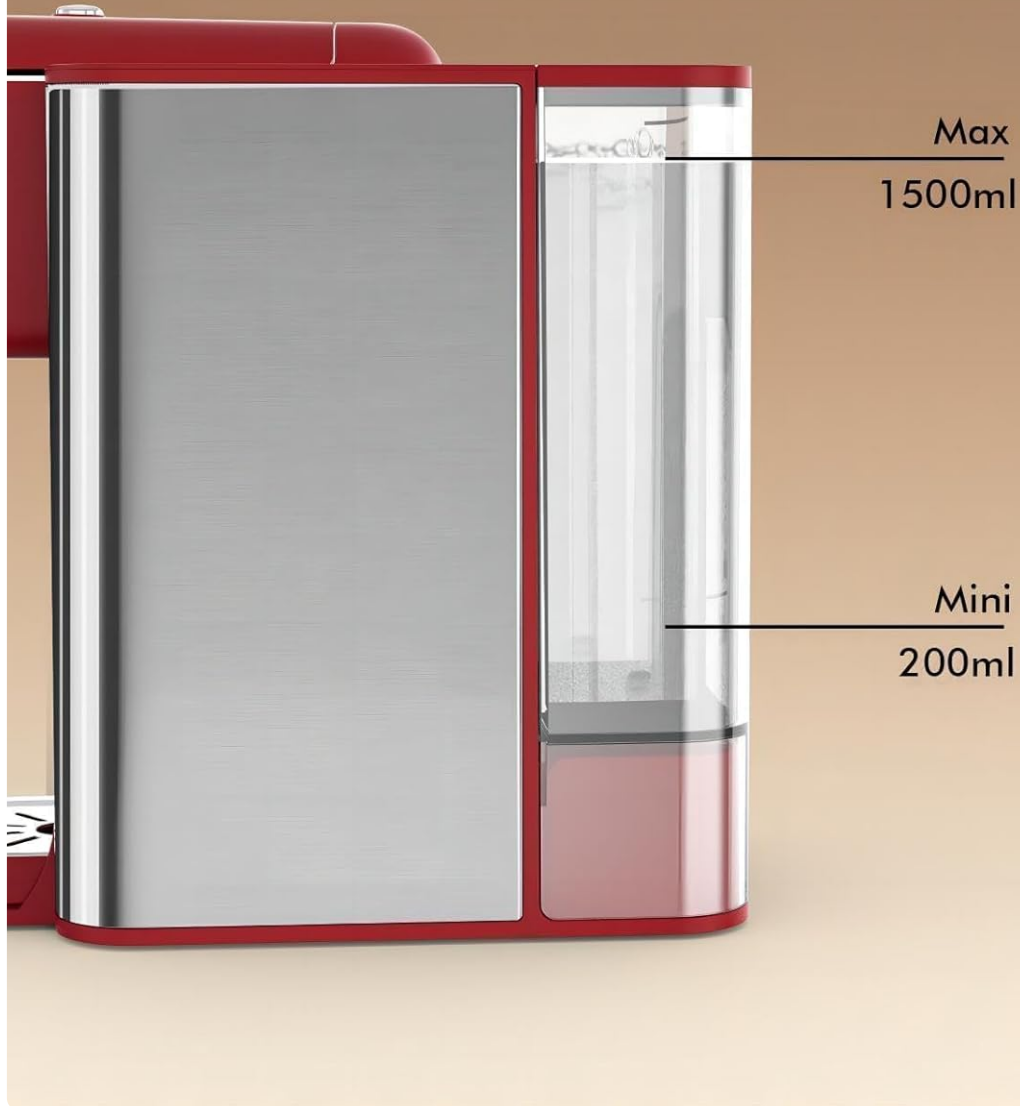

Figure 4: The 50 oz (1500ml) removable water reservoir with clear MAX and MIN fill indicators.

SETUP

1. **Unpack:** Carefully remove all packaging materials and place the coffee maker on a stable, flat surface.
2. **Clean:** Wash the removable water tank, filter, and single-serve pod adapter with warm, soapy water. Rinse thoroughly and dry.
3. **Fill Water Tank:** Fill the removable water tank with fresh, clean water up to the MAX line (50 oz / 1500ml). Ensure it is securely placed back into the machine.
4. **Initial Rinse Cycle:** Before first use, perform a rinse cycle without any coffee or tea. Place a

large mug on the drip tray, press the power button, and then select the largest brew size (e.g., 10oz) to run hot water through the system. Discard the water. This cleans the internal components.

5. **Power Connection:** Connect the power cord to a standard 120V electrical outlet.

OPERATING INSTRUCTIONS

The SiFENE coffee maker offers three brewing options: K-cup pods, ground coffee, and loose leaf tea.

3 in 1 Single Serve Coffee Maker

Figure 6: The 3-in-1 brewing versatility of the SIFENE coffee maker.

General Brewing Steps:

1. Ensure the water tank is filled with fresh water between the MIN and MAX lines.
2. Place your desired mug on the drip tray. The removable drip tray allows for travel mugs.
3. Open the top cap of the brewing chamber.
4. Insert the appropriate basket/adapter for your chosen beverage.
5. Close the top cap firmly.
6. Press the power button to turn on the machine.
7. Select your desired brew size (e.g., 6oz, 8oz, 10oz) from the control panel.
8. The machine will begin brewing. Brewing typically takes 60 to 100 seconds.
9. Once brewing is complete, the machine will automatically turn off. Carefully remove your mug.

Brewing with K-Cup Pods:

- Insert a K-cup pod into the single-serve pod adapter.

- Place the adapter with the K-cup into the brewing chamber.
- Follow the general brewing steps above.

Figure 7: The coffee maker is compatible with most K-pod capsules.

Brewing with Ground Coffee:

- Fill the reusable filter basket with your desired amount of ground coffee. Do not overfill.
- Place the filled filter basket into the brewing chamber.
- Follow the general brewing steps above.

Brewing with Loose Leaf Tea:

- Fill the reusable filter basket with your desired amount of loose leaf tea.
- Place the filled filter basket into the brewing chamber.
- Follow the general brewing steps above.

MAINTENANCE

Cleaning:

- Always unplug the coffee maker before cleaning.
- The removable water tank, filter, and single-serve pod adapter are dishwasher-safe. Alternatively, wash them with warm, soapy water and rinse thoroughly.
- Wipe the exterior of the coffee maker with a damp cloth. Do not use abrasive cleaners or scouring pads.
- Clean the drip tray and its cover regularly to prevent overflow and maintain hygiene.

Descaling:

Over time, mineral deposits (scale) can build up in your coffee maker, affecting performance and taste. Descaling is recommended every 3-6 months, or when you notice slower brewing or reduced coffee temperature.

1. Fill the water tank with a mixture of white vinegar and water (e.g., 1 part vinegar to 2 parts water).
2. Place a large mug or container on the drip tray.
3. Press and hold the 'DESCALE' button (if available on your model, otherwise refer to the general operating instructions for a rinse cycle). The red light will indicate descaling mode.
4. Allow the machine to complete the descaling cycle. This may involve multiple short cycles.
5. After the descaling cycle, discard the vinegar solution.
6. Fill the water tank with fresh, clean water and run 2-3 rinse cycles to flush out any remaining vinegar taste.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outlet malfunction.	Ensure the power cord is securely plugged into a working outlet. Try a different outlet.
No water dispenses or brewing is slow.	Water tank is empty or below MIN line; machine needs descaling.	Fill the water tank to the appropriate level. Perform a descaling cycle.
Coffee/tea is not hot enough.	Machine needs descaling; insufficient preheating.	Perform a descaling cycle. Ensure the machine has completed its initial heating phase (power light solid).

Problem	Possible Cause	Solution
Water leaks from the machine.	Water tank not properly seated; brewing chamber lid not closed properly.	Ensure the water tank is correctly installed. Close the brewing chamber lid firmly until it clicks.
Brewed beverage tastes weak.	Too little coffee/tea; incorrect grind size (for ground coffee); selected brew size is too large.	Increase the amount of coffee/tea. Use a finer grind for ground coffee. Select a smaller brew size.
Red light is on.	Descaling mode is active.	This indicates the machine is in descaling mode. Follow descaling instructions.

SPECIFICATIONS

Brand: SIFENE

Model Name: KC101

Color: Red

Product Dimensions: 10.63"D x 6.3"W x 10.24"H

Coffee Maker Type: Drip Coffee Machine

Special Features: Ground Coffee Brewer, Loose Tea Maker, Quick Brewing (1min), Single Serve Coffee Capsule Pod Use

Water Reservoir Capacity: 50 oz (approx. 8 cups)
