4. SETUP

4.1 Initial Charging

Upon receiving your EIGIIS KE2 smart watch, please charge it for at least 2 hours to ensure the battery is fully charged before normal use. Use the provided charging cable.

4.2 App Installation (FitCloudPro)

To unlock the full potential of your smartwatch, download and install the **FitCloudPro** app on your smartphone. The app is available on both Google Play Store (for Android) and Apple App Store (for iOS).

4.3 Device Pairing

Follow these steps to pair your smartwatch with your phone:

1. Turn on your phone's Bluetooth.
2. Open the FitCloudPro app.
3. In the app, navigate to the 'Device' section and select 'Add Device'.
4. The app will search for nearby devices. Select 'KE2' from the list to connect.
5. Once connected, enable the Bluetooth dial and answer calls function by going to your phone's Bluetooth settings and pairing with 'KE2 Call'.

Video 4.2: How to connect the KE2 smart watch. This video provides a step-by-step guide on pairing your EIGIIS Smart Watch KE2 with your smartphone and enabling call functions.

5. OPERATING INSTRUCTIONS

5.1 Basic Navigation

The smartwatch features a full touch screen for easy navigation. Swipe left, right, up, or down to access different functions and

menus. Use the physical buttons on the side for quick access to specific features or to return to the home screen.

5.2 Raise to Wake

Simply raise your wrist to automatically wake the watch screen and view information.

5.3 Customizing Watch Faces

The EIGIIS KE2 offers over 100 personalized dial options. You can change your watch face directly on the device or through the FitCloudPro app to match your style or display preferred information.

6. HEALTH MONITORING

The EIGIIS KE2 smartwatch provides continuous health monitoring to help you stay informed about your body's condition. **Note: The measurement data is FOR SPORTS OR AVIATION USE ONLY, NOT FOR MEDICAL USE.**

6.1 Heart Rate Monitoring

The watch continuously monitors your heart rate 24/7, providing real-time data and historical trends in the FitCloudPro app.

6.2 Blood Oxygen Monitoring

Monitor your blood oxygen levels to gain insights into your respiratory health.

6.3 Sleep Tracking

The sleep tracker analyzes your sleep quality, including deep sleep, light sleep, and awake times, helping you develop healthier sleep habits.

6.4 Pedometer

Automatically records your daily steps, distance traveled, and calories burned.

Video 6.3: Smart Watch KE2. This video highlights the various smart features of the watch, including its health monitoring capabilities and daily activity tracking.

7. SPORTS MODES

The EIGIIS KE2 supports up to 20 sports modes, including Running, Climbing, Cycling, Basketball, Badminton, Football, Elliptical, Yoga, Pingpong, Rope Skipping, Tennis, Baseball, and more. During exercise, the watch automatically records steps, heart rate, and calories burned. You can review your exercise data in the FitCloudPro app.

Video 7.2: EIGIIS Sports Smart Watch KE2. This video demonstrates the watch's sports tracking capabilities and how it helps improve athletic performance.

8. MAINTENANCE & CARE

8.1 Water Resistance (IP67)

The EIGIIS KE2 is IP67 water resistant, meaning it can withstand splashes, rain, and brief immersion in water. You can wash your hands or dishes with the watch on. However, **do not use it while diving, in a sauna, or during a shower**, as steam and high water pressure can damage the device.

8.2 Cleaning

Regularly clean your watch and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and then dry thoroughly. Avoid

using harsh chemicals or abrasive materials.

8.3 Battery Care

To prolong battery life, avoid exposing the watch to extreme temperatures. Charge the watch fully before its first use and when the battery is low. Do not leave the watch uncharged for extended periods.

9. TROUBLESHOOTING

If you encounter any issues with your EIGIIS Smart Watch KE2, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charging cable and allow it to charge for at least 30 minutes before attempting to turn it on.
- **Cannot pair with phone:**
 - a. Ensure Bluetooth is enabled on your phone.
 - b. Make sure the watch is within range of your phone (typically 0.5 meters during initial pairing).
 - c. Restart both your phone and the watch.
 - d. Clear the Bluetooth cache on your phone (if applicable).
 - e. Ensure the FitCloudPro app has necessary permissions (Bluetooth, location).
- **Call function not working:** Ensure you have paired both 'KE2' and 'KE2 Call' in your phone's Bluetooth settings.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch. Remember, data is for reference only, not medical use.
- **Notifications not appearing:** Check app permissions for FitCloudPro to ensure it can access notifications. Verify notification settings within the FitCloudPro app for specific applications.

For further assistance, please contact EIGIIS customer support.

10. SPECIFICATIONS
