SETUP

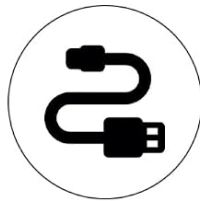

Charging the Device

1. Connect the provided Type-C charging cable to the charging port on the device.
2. Plug the other end of the cable into a 5V 1A charging head (not included), a laptop, car charger, or power bank.
3. The LED display will show the battery percentage. It is recommended to fully charge the device before first use.
4. A full charge takes approximately 3 hours and provides 120-180 minutes of use.

Powering On/Off and Speed Adjustment

1. Press the power button to turn the device on. The LED display will illuminate, showing battery level and current speed.
2. Press the power button repeatedly to cycle through the 3 speed settings:
 - **Speed 1 (M1)**: Ideal for delicate fabrics like socks, scarves, and knitwear.
 - **Speed 2 (M2)**: Suitable for thicker clothes such as sweaters, cotton-padded clothes, and cotton-padded jackets.
 - **Speed 3 (M3)**: Recommended for more durable surfaces like wool coats, blankets, sofas, and bedding.
3. To turn off the device, press and hold the power button.

THREE-SPEED REGULATION TECHNOLOGY

any clothes can be handled calmly

M1

The M1 gear is suitable for socks, scarves, knitwear.

M2

The M2 gear is suitable for thick sweaters, cotton-padded clothes, and cotton-padded jackets.

M3

The M3 gear is suitable for woolen coat/blanket/sofa/bedding

Usage Tips

- Always place garments on a flat surface before using the lint remover.
- Ensure the fabric has no wrinkles, as this may damage the fabric.
- Be careful not to press too hard on the same part to avoid crushing or damaging clothes.
- Move the shaver gently and evenly across the fabric surface.

MAINTENANCE

Emptying the Lint Bin

1. Ensure the device is turned off.
2. Gently slide out the large transparent lint bin located on the handle.
3. Discard the collected lint and fuzz.
4. Slide the lint bin back into place until it clicks securely.

Cleaning the Blades and Unit

1. Ensure the device is turned off and unplugged.
2. Carefully twist and remove the blade net cover.
3. Use the provided cleaning brush to remove any trapped lint or debris from the blades and the inner chamber.
4. Clean the inside of the blade net cover.
5. Reattach the blade net cover by twisting it back into place until it is secure. The safety protection switch will prevent operation if not properly secured.

Image: The fabric shaver disassembled, showing the large capacity lint bin removed and the cleaning brush being used to clear debris from the blades. The safety protection switch is also visible.

Replacing Blades

The iRUNTEK Fabric Shaver comes with 3 extra blades for replacement. When the blades become dull or damaged, follow these

steps:

1. Ensure the device is turned off and unplugged.
2. Carefully remove the blade net cover.
3. Gently lift the old blade assembly from its central pin.
4. Place a new blade assembly onto the central pin, ensuring it sits flat and securely.
5. Reattach the blade net cover by twisting it back into place until it is secure.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or loose blade net cover.	Check LED display for battery level (recharge if below 10%). Ensure blade net cover is securely attached.
Not removing lint effectively.	Dull blades, full lint bin, or incorrect speed setting.	Replace blades, empty lint bin, or adjust to a higher speed setting suitable for the fabric.
Device stops unexpectedly during use.	Safety protection switch activated due to loose blade net cover.	Turn off the device, re-secure the blade net cover, and then turn it back on.

SPECIFICATIONS

- **Brand:** iRUNTEK
- **Model:** B0BZPBZKD4
- **Material:** Plastic, Stainless Steel
- **Color:** Pinksilver
- **Product Dimensions:** 4.45"D x 7.17"W x 4.45"H
- **Handle Material:** Alloy Steel
- **Operation Mode:** Automatic
- **UPC:** 784300130031
- **Item Weight:** 14.4 ounces
- **Batteries:** 1 Lithium Ion battery required (included)
- **Charging:** Type-C port, 5V 1A recommended

WARRANTY & SUPPORT

iRUNTEK is committed to providing high-quality products and excellent customer service.
