

Refillable Reusable Coffee Capsule Cups 60ml

Generic Refillable Reusable Coffee Capsule Cups (60ml Grey) Instruction Manual

INTRODUCTION

Thank you for choosing the Generic Refillable Reusable Coffee Capsule Cup. This manual provides essential information for the proper setup, operation, and maintenance of your new coffee capsule. Designed for compatibility with Bosch Tassimo coffee machines, this reusable capsule allows you to enjoy your preferred coffee grounds while reducing waste.

The capsule is constructed from food-grade PP (polypropylene) material, is BPA-free, and features a 304 food-grade stainless steel filter mesh for precision filtering.

SETUP AND OPERATING INSTRUCTIONS

Follow these steps to prepare and use your refillable coffee capsule with your Bosch Tassimo machine:

1. **Fill the empty pod:** Open the capsule and fill it with your desired coffee grounds.
2. **Observe maximum mark:** Ensure that the coffee grounds do not exceed the maximum fill line indicated inside the capsule. Do not press the coffee grounds firmly.

3. **Position the top filter:** Before closing the lid, make sure the top filter is correctly seated inside the silicone cover.
4. **Close the lid:** Close the lid tightly to secure the coffee grounds and filter.
5. **Insert into machine:** Place the filled and closed capsule into your Bosch Tassimo coffee machine, ensuring it is properly seated.
6. **Brew and enjoy:** Start your coffee machine and enjoy your freshly brewed coffee.

Easy Operation

1. Fill the empty pod with coffee grinds

2. Do not exceed the maximum mark

3. Make sure the top filter is inside the silicone cover before close Lid

4. Close the lid tightly and put it into your coffee machine.

5. Enjoy your coffee

A visual guide demonstrating the five steps for using the refillable coffee capsule: 1. Filling the empty pod with coffee grounds. 2. Ensuring coffee grounds do not exceed the maximum mark. 3. Making sure the top filter is inside the silicone cover before closing the lid. 4. Closing the lid tightly and placing it into the coffee machine. 5. Enjoying your brewed coffee.

MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and optimal performance of your reusable coffee capsule.

- **Cleaning:** After each use, open the capsule and discard the used coffee grounds. Rinse all components thoroughly under running water. The removable filter can be easily detached for more effective cleaning.
- **Drying:** Allow all parts to air dry completely before reassembling or storing to prevent mold or odor buildup.

- **Protection:** The silicone lid and capsule bottom groove are designed to protect your coffee machine's needle during insertion and brewing. Ensure these components are intact and properly aligned.

TROUBLESHOOTING

While this product is designed for simple operation, here are some common issues and solutions:

- **Weak Coffee:** Ensure you are using enough coffee grounds and that they are not packed too tightly. Also, check that the coffee grind size is appropriate for espresso or strong coffee.
- **No Coffee Dispensed:** Verify that the capsule is correctly inserted into the machine and the lid is securely closed. Check your coffee machine's water tank level.
- **Sediment in Coffee:** Ensure the 304 food-grade stainless steel filter mesh is clean and properly seated. Avoid overfilling the capsule, which can cause grounds to bypass the filter.

SPECIFICATIONS

Material	Food-grade PP (Polypropylene), 304 Stainless Steel
Capacity	60ml
Dimensions	Approx. 68 x 74 x 30 mm (2.68 x 2.91 x 1.18 inches)
