BoxWave SlimKeys Bluetooth Keyboard

BoxWave SlimKeys Bluetooth Keyboard Instruction Manual

Model: SlimKeys Bluetooth Keyboard

Introduction

Thank you for choosing the BoxWave SlimKeys Bluetooth Keyboard. This manual provides essential information for setting up, operating, and maintaining your new keyboard. Designed for portability and comfort, this keyboard enhances your typing experience on compatible devices, including the ZONKO Android 3G Phone Tablet K105-36 (10.1 in).

Setup

1. Charging the Keyboard

Before initial use, ensure the keyboard is fully charged. Connect the included charging cable to the keyboard's charging port and to a standard USB power source. The charging indicator light will illuminate during charging and turn off when complete. A full charge provides up to 30 days of active use or 6 months of standby time.

2. Pairing with Your Device

1. **Power On:** Locate the ON/OFF switch on the keyboard and slide it to the 'ON' position. The power indicator light will briefly

illuminate.

2. **Activate Pairing Mode:** Press the 'Connect' button (often located near the ON/OFF switch). The Bluetooth indicator light will begin to blink, indicating the keyboard is in pairing mode.
3. **Enable Bluetooth on Your Device:** On your ZONKO Android 3G Phone Tablet K105-36 (or other compatible device), go to the Bluetooth settings and ensure Bluetooth is enabled.
4. **Select Keyboard:** Your device will search for available Bluetooth devices. Select "BoxWave SlimKeys Keyboard" (or similar name) from the list.
5. **Confirm Pairing:** Follow any on-screen prompts to complete the pairing process. A successful connection will be indicated by the Bluetooth light on the keyboard turning solid or off, depending on the model.

Operating the Keyboard

Key Features

- **Chiclet-Style Keys:** The keyboard features responsive, low-profile chiclet-style keys designed for comfortable and quiet typing.
- **Multi-Platform Compatibility:** Seamlessly connects with Android, Windows, and iOS devices, offering versatility across your gadgets.
- **Ultra-Slim and Lightweight Design:** Measuring just 3/16 inch thick and weighing 8.6 ounces, this keyboard is highly portable and ideal for travel.

Specialized Function Keys

The keyboard includes a row of specialized function keys (F1-F12) that provide quick access to common commands. These functions may vary slightly depending on your device's operating system.

Key	Function
Esc / Home (F1)	Go to Home screen
F2 / Search	Open search function
F3 / Select All	Select all text or items
F4 / Copy	Copy selected content

Key	Function
F5 / **Paste**	Paste copied content
F6 / **Cut**	Cut selected content
F7 / **Skip Back**	Skip to previous track/media
F8 / **Play/Pause**	Play or pause media
F9 / **Skip Forward**	Skip to next track/media
F10 / **Volume Down**	Decrease volume
F11 / **Volume Up**	Increase volume
F12 / **Brightness Down**	Decrease screen brightness
Delete / **Brightness Up**	Increase screen brightness
Lock	Lock the device screen

Maintenance

Battery Care

- To conserve battery life, always slide the ON/OFF switch to the 'OFF' position when the keyboard is not in use.
- Avoid fully discharging the battery frequently. Charge the keyboard when the low battery indicator appears.
- Store the keyboard in a cool, dry place if not used for extended periods.

Cleaning

- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keyboard surface.
- Do not use harsh chemicals, abrasive cleaners, or excessive moisture, as this can damage the keyboard.
- Avoid getting liquid into the key gaps or charging port.

Troubleshooting

- **Keyboard not connecting:**
  - Ensure the keyboard is powered on and fully charged.
  - Make sure Bluetooth is enabled on your device.
  - Re-enter pairing mode on the keyboard by pressing the 'Connect' button.
  - Forget the keyboard from your device's Bluetooth settings and attempt to pair again.
  - Ensure the keyboard is within the effective range (typically 10 meters or 33 feet) of your device.
- **Keys not responding:**
  - Check if the keyboard is connected to your device.
  - Ensure the keyboard battery is not critically low.
  - Restart both the keyboard and your device.
- **Unexpected behavior:**
  - Interference from other wireless devices can sometimes affect performance. Try moving away from other Bluetooth or Wi-Fi devices.
  - Ensure your device's operating system is up to date.
