Pokémon Arven 166/198

Pokémon Arven 166/198 Scarlet & Violet Trainer Card Lot User Manual

1. Introduction

This manual provides essential information for the proper handling, usage, and care of your Pokémon Arven 166/198 Scarlet & Violet Trainer Card Lot. This lot includes four copies of the Arven Trainer card, designed for use within the Pokémon Trading Card Game (TCG).

The Arven Trainer card is a valuable addition to many Pokémon TCG decks, offering strategic options during gameplay. Understanding its proper use and maintenance will ensure the longevity and playability of your cards.

This image displays the Arven 166/198 Trainer card from the Scarlet & Violet set, part of a four-card lot. The card features the character Arven with his Pokémon, Mabosstiff, in a dynamic pose. The card's rarity and set symbols are visible, indicating its origin within the Pokémon Trading Card Game.

2. Setup

Follow these steps to prepare your cards for use:

1. **Unboxing:** Carefully remove the cards from their packaging. Avoid using sharp objects that could damage the cards.
2. **Inspection:** Examine each card for any manufacturing defects or shipping damage. If any issues are found, refer to the Troubleshooting section.

3. **Initial Storage:** For optimal preservation, it is highly recommended to immediately place each card into a protective sleeve. These sleeves prevent scratches, bends, and other forms of wear during handling and gameplay.
4. **Organization:** Store sleeved cards in a deck box, binder, or other suitable storage solution to protect them from environmental factors like dust and moisture.

3. Operating (Usage)

The Arven Trainer cards are designed for gameplay within the Pokémon Trading Card Game. Familiarize yourself with the official Pokémon TCG rules for proper integration and use.

- **Card Type:** Arven is a Supporter card. Only one Supporter card can be played per turn during your turn.
- **Effect:** The specific effect of the Arven card (166/198) allows you to search your deck for a Pokémon Tool card and an Item card, reveal them, and add them to your hand. Then, shuffle your deck. This effect provides strategic advantage by allowing you to retrieve specific cards needed for your game plan.
- **Deck Integration:** Incorporate these cards into your 60-card Pokémon TCG deck according to the game's deck construction rules. A playset of four copies is often used to maximize the chance of drawing the card during a game.
- **Gameplay:** Play the Arven card from your hand during your turn. Follow the instructions on the card text precisely. Once played, the card is typically moved to the discard pile at the end of your turn.

4. Maintenance

Proper care ensures the longevity and condition of your Pokémon cards:

- **Handling:** Always handle cards with clean, dry hands. Avoid touching the card surfaces directly, especially the holographic or foil areas. Hold cards by their edges.
- **Protection:** Keep cards in protective sleeves and stored in a secure container (e.g., deck box, binder) when not in use. This protects them from dust, spills, and physical damage.
- **Environment:** Store cards in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity. These conditions can cause warping, fading, or other damage.
- **Cleaning:** If a card becomes slightly dusty, gently wipe it with a clean, dry, soft microfiber cloth. Avoid using liquids or abrasive materials.
- **Avoid Bending:** Never bend, crease, or fold the cards. Even minor bends can significantly reduce their condition and playability.

5. Troubleshooting

Should you encounter any issues with your card lot, consider the following:

- **Damaged Cards Upon Arrival:** If cards are damaged during shipping or have manufacturing defects, document the damage with photographs and contact the seller immediately for assistance.
- **Missing Cards:** Verify the contents of your package against the product description. If cards are missing, contact the seller.
- **Gameplay Questions:** For rules clarifications or specific card interactions, consult the official Pokémon Trading Card Game rulebook or the official Pokémon TCG website. Online communities and forums can also be helpful resources.

- **Card Authenticity Concerns:** If you have concerns about the authenticity of your cards, compare them to known authentic cards and consult reputable sources or experts.

6. Specifications

Feature	Detail
Product Name	Arven 166/198 Scarlet & Violet Trainer Card Lot
Brand	Pokémon
Sub Brand	Pokémon
Set Name	Scarlet & Violet
Card Number	166/198
