MIYADIVA SZ3.5in-30x-suction

MIYADIVA 30X Magnifying Mirror Instruction Manual

Model: SZ3.5in-30x-suction

Introduction

Thank you for choosing the MIYADIVA 30X Magnifying Mirror. This compact and portable mirror is designed to provide exceptional magnification for detailed grooming and makeup application. Please read this manual carefully to ensure proper use and maintenance of your product.

Image: MIYADIVA 30X Magnifying Mirror with included tweezers.

Product Features

- **30X Magnification:** Provides an extreme close-up view, ideal for precision tasks such as eyebrow plucking, blackhead removal, and detailed makeup application.
- **Compact Design:** With a 3.5-inch diameter and weighing only 1.5 ounces, this mirror is lightweight and portable, fitting easily into a pocket, purse, or handbag for travel.
- **Easy Installation:** Equipped with two removable suction cups, allowing for secure attachment to any smooth, clean surface like glass, mirrors, or countertops.
- **Included Accessories:** Comes with durable stainless steel tweezers, resistant to wear and corrosion, perfect for fine grooming tasks.
- **Target Users:** Particularly beneficial for individuals with blurred vision and those over 40 years of age who require enhanced visual clarity for grooming.

Setup and Installation

1. **Prepare the Surface:** Choose a clean, smooth, and non-porous surface such as a bathroom mirror, glass, or a smooth tile. Ensure the surface is free from dust, dirt, and moisture.
2. **Attach the Mirror:** Press the two suction cups firmly against the prepared surface. Apply even pressure to both cups to expel any air and create a strong vacuum seal.
3. **Verify Stability:** Gently tug on the mirror to ensure it is securely attached and will not fall during use.
4. **Removal:** To remove, gently lift the edge of each suction cup to break the seal. Do not pull the mirror directly off the surface without releasing the suction.

Operating Instructions

The MIYADIVA 30X Magnifying Mirror provides powerful magnification. To achieve a clear and undistorted image, it is crucial to use the mirror at the correct distance.

- **Optimal Viewing Distance:** Begin by holding the mirror approximately 3 inches (7.5 cm) from your eyes.
- **Adjust for Clarity:** If the image appears upside down, distorted, or blurry, slowly move the mirror slightly closer or further away from your face until a clear reflection is achieved. This adjustment is normal for high-magnification mirrors.
- **Precision Tasks:** Once a clear image is obtained, you can perform detailed tasks such as applying eyeliner, plucking fine hairs, or inspecting skin with enhanced accuracy.

Maintenance

- **Cleaning the Mirror:** Use the provided cleaning cloth or a soft, lint-free microfiber cloth to gently wipe the mirror surface. Avoid using paper towels or abrasive materials, which can scratch the mirror.
- **Cleaning Suction Cups:** If the suction cups lose their grip, wash them with warm, soapy water, rinse thoroughly, and let them air dry. This can restore their adhesive properties.
- **Storage:** When not in use, store the mirror in a clean, dry place to prevent dust accumulation and potential damage.

Troubleshooting

- **Image Appears Distorted/Blurry:** This is a common characteristic of high-magnification mirrors. The solution is to adjust the distance between your eye and the mirror. Slowly move your face closer or further away (typically 2-3 inches) until the image becomes clear and focused. This is not a product defect.
- **Suction Cups Not Sticking:** Ensure both the suction cups and the mounting surface are completely clean and dry. Dust, dirt, or moisture can prevent a proper seal. Press firmly on the center of each suction cup to remove all air.

Safety Information

- Always ensure the mirror is securely mounted on a stable surface before use to prevent it from falling and causing injury or damage.
- Due to the high magnification, avoid looking directly into the mirror for extended periods, as this may cause eye strain or discomfort.
- Keep out of reach of children to prevent misuse or accidental damage.

Specifications

Feature	Detail
Product Dimensions	4 x 0.04 x 4 inches
Item Weight	1.5 ounces (42.4 Grams)
Model Number	SZ3.5in-30x-suction
Manufacturer	MIYADIVA
Shape	Round
Color	Black
Magnification	30X
Mounting Type	Suction Cup
Frame Material	Acrylonitrile Butadiene Styrene (ABS)
Included Components	Magnifying Mirror, Precision Tweezers

Warranty and Support

For warranty information or product support, please refer to the manufacturer's official website or contact their customer service directly. Keep your purchase receipt for any warranty claims.
