

iGuzzini RP16.35

iGuzzini Whisper LED Cordless Table Lamp User Manual

Model: RP16.35

1. PRODUCT OVERVIEW

The iGuzzini Whisper is a portable, rechargeable LED table lamp designed for both indoor and outdoor use. It features a direct emission LED light source, a durable painted aluminum body, and a textured polycarbonate diffuser. The lamp offers touch control for dimming and selecting color temperatures (2200K, 2700K, 3000K). Its IP65 rating ensures protection against dust and water jets, making it suitable for various environments. The package includes a charging base with a USB cable and features overcharging protection for battery longevity.

2. SAFETY INSTRUCTIONS

Please read these safety instructions carefully before using the lamp. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Do not disassemble or modify the lamp. Repairs should only be performed by qualified personnel.
- Use only the provided charging base and USB cable.

- Ensure the charging base is placed on a stable, dry surface.
- Avoid exposing the lamp to extreme temperatures or direct sunlight for prolonged periods.
- Although the lamp has an IP65 rating for outdoor use, avoid submerging it in water.
- Keep the lamp away from flammable materials.
- The lamp includes overcharging protection; however, it is recommended to disconnect the charger once the battery is fully charged.

3. PACKAGE CONTENTS

Verify that all components are present in the package:

- iGuzzini Whisper LED Cordless Table Lamp
- Charging Base
- USB Cable
- Integrated Lithium Battery (pre-installed)

4. SETUP

4.1 Initial Charging

Before first use, fully charge the lamp. The lamp comes with a pre-installed lithium battery.

1. Connect the USB cable to the charging base.
2. Plug the other end of the USB cable into a compatible USB power adapter (not included) or a USB port.
3. Place the lamp onto the charging base, ensuring proper contact.
4. The charging indicator (if present, typically a light on the base or lamp) will show the charging status. Charge until the indicator signals a full charge.

The lamp features overcharging protection, which prevents damage if left on the charger for extended periods.

5. OPERATION

5.1 Power On/Off and Dimming

The lamp is controlled via a touch-sensitive surface located on the top of the light unit.

- **To Power On/Off:** Lightly touch the top surface of the lamp.
- **To Dim:** Once the lamp is on, touch and hold the top surface to continuously adjust the brightness. Release your finger when the desired brightness level is reached.

5.2 Color Temperature Adjustment

The Whisper lamp allows you to cycle through three predefined color temperatures: 2200K (warmest), 2700K (warm white), and 3000K (neutral white).

- **To Change Color Temperature:** With the lamp on, quickly tap the top surface. Each tap will cycle to the next

color temperature setting.

5.3 Indoor and Outdoor Use

The iGuzzini Whisper lamp has an IP65 protection rating, making it suitable for both indoor and outdoor environments. This rating signifies that the lamp is protected against dust ingress and low-pressure water jets from any direction.

6. MAINTENANCE

6.1 Cleaning

To maintain the appearance and functionality of your lamp:

- Ensure the lamp is turned off and disconnected from the charging base before cleaning.
- Wipe the lamp's aluminum body with a soft, damp cloth.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- For the polycarbonate diffuser, use a soft, lint-free cloth.

6.2 Battery Care

The integrated lithium battery is designed for long life. To maximize battery lifespan:

- Avoid completely draining the battery frequently.

- If storing the lamp for an extended period, charge it to about 50% capacity and recharge every few months.
- The lithium battery is available as a spare part if replacement is needed. Contact iGuzzini support for assistance.

7. TROUBLESHOOTING

If you encounter issues with your iGuzzini Whisper lamp, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Lamp does not turn on.	Battery is depleted.	Place the lamp on the charging base and ensure it is connected to power.
Lamp does not turn on.	Improper touch.	Ensure you are touching the center of the top surface firmly but gently.
Lamp does not dim or change color temperature.	Improper touch gesture.	For dimming, touch and hold. For color temperature, quick tap.
Lamp does not charge.	Charging base not connected or lamp not properly seated.	Check USB cable connection and ensure the lamp is correctly placed on the charging base.
Light flickers or is inconsistent.	Low battery or internal issue.	Charge the lamp fully. If the problem persists, contact customer support.

8. SPECIFICATIONS

Feature	Detail
