Intex 28483E

INTEX SimpleSpa Inflatable Hot Tub User Manual

Model: 28483E | Brand: Intex

Introduction

The INTEX SimpleSpa Bubble Massage Hot Tub offers a convenient and relaxing spa experience for up to 4 people. It provides 100 powerful bubble jets surrounding the interior for a great and soothing massage. Designed for durability, this inflatable hot tub includes an insulated cover and ground cloth to minimize heat loss, and a built-in Electronic Hard Water Treatment System to reduce calcium buildup.

Setup

Setting up your SimpleSpa hot tub is designed to be straightforward. While assembly is required, many users find the process easy to follow. It is recommended to review the included instructions thoroughly before beginning.

1. **Site Selection:** Choose a flat, stable, and clean surface for your hot tub. Ensure it is free from sharp objects and can support the weight of the filled spa (approximately 210 gallons of water plus occupants).
2. **Ground Cloth Placement:** Lay down the included thermal ground cloth to provide insulation and protection for the base of the spa.
3. **Inflation:** Unfold the hot tub and connect the QuickFill inflation system. Inflate the spa until it is firm but not overinflated.
4. **Control Unit Connection:** Attach the sleek and compact all-in-one control unit to the hot tub.
5. **Filling:** Fill the hot tub with water to the recommended level.

6. **Initial Heating:** Once filled, activate the heating system. Note that initial heating may take several hours to reach the desired temperature.

Operating Instructions

The SimpleSpa is designed for ease of use with its intuitive control panel.

- **Power On/Off:** Use the main power button on the control unit to turn the spa on or off.
- **Temperature Adjustment:** Utilize the up and down arrows to set your desired water temperature, up to 104°F (40°C). The adjustable heating system ensures personalized comfort.
- **Bubble Massage Activation:** Press the bubble jet button to activate the 100 powerful bubble jets for a relaxing massage.
- **Filtration System:** The control unit also manages the filtration system, which should run regularly to maintain water clarity.

Maintenance

Regular maintenance is crucial for the longevity and optimal performance of your hot tub.

- **Water Treatment:** The built-in Electronic Hard Water Treatment System helps reduce calcium buildup. However, regular chemical balancing is still necessary. Use the included floating chemical dispenser for proper distribution.
- **Filter Cartridge Replacement:** Filters need to be changed regularly to ensure clean water and efficient operation. The product includes 2 replaceable filter cartridges. Frequency depends on usage.
- **Cleaning:** Periodically clean the interior and exterior of the hot tub. The exterior mesh hull is designed for puncture resistance and durability.
- **Cover Usage:** Always use the insulated cover when the spa is not in use to minimize heat loss and keep debris out.

Troubleshooting

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
Spa not heating or heating slowly.	Low water level, dirty filter, power interruption, ambient temperature too low.	Ensure water is at correct level. Clean or replace filter. Check power connection and reset if necessary. In colder temperatures, heat retention may be reduced.
Bubbles are weak or non-existent.	Air pump issue, clogged air jets.	Check control unit for error codes. Ensure air intake is clear.

Problem	Possible Cause	Solution
Water quality issues (cloudy, green).	Improper chemical balance, dirty filter, insufficient filtration time.	Test and adjust water chemistry. Clean or replace filter. Increase filtration cycle duration.
Air leakage from the tub.	Puncture or valve issue.	Locate the leak and repair with the included patch kit. Ensure inflation valves are securely closed.

Specifications

Feature	Detail
Brand	Intex
Model Name	SimpleSpa Bubble Massage
Item Model Number	28483E
Product Dimensions	77"L x 77"W x 28"H
Material	Vinyl, Polyethylene (PE), Acrylic
Shape	Round
Seating Capacity	4
Water Capacity	210 Gallons
Number of Jets	100
Voltage	230 Volts (AC)
Assembly Required	Yes
UPC	078257284832
