### Lutown-Teen LTT5014

# Lutown-Teen 14 Inch Queen Bed Frame Instruction Manual

Model: LTT5014 | Brand: Lutown-Teen

## INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your new Lutown-Teen 14 Inch Queen Bed Frame. Please read all instructions carefully before assembly and use to ensure safe and proper functioning.

## IMPORTANT SAFETY INFORMATION

- Do not exceed maximum weight recommendation of 1500 pounds.
- Always follow assembly instructions carefully to prevent instability or collapse.
- Ensure all bolts are securely tightened before use.
- Regularly check and re-tighten all connections.
- Keep small parts away from children during assembly.

## PACKAGE CONTENTS

Verify all components are present before beginning assembly.

Component	Quantity
Side Rails	2
End Rails	2
Center Support Bar	1
Support Legs	6
Metal Slats	Multiple
Hardware Pack (Bolts, Washers, Allen Wrench, Box Wrench)	1 set
Anti-scratch Foot Covers	Included

This image displays all the metal components of the bed frame, including side rails, end rails, support legs, and metal slats, along with the hardware pack containing bolts, washers, and assembly tools.

## SETUP AND ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward and typically takes 20-30 minutes for one person.

1. Unpack all components and lay them out on a clean, flat surface. Verify all parts against the package contents list.
2. Attach the side rails to the end rails using the provided bolts and Allen wrench. Ensure all connections are finger-tight initially.
3. Install the center support bar and its legs.
4. Insert the metal slats into the designated slots on the side rails. Ensure they are evenly spaced (approx. 7.44 inches apart for queen size) and securely seated.
5. Fully tighten all bolts using the Allen wrench and box wrench. Do not overtighten.
6. Attach the anti-scratch foot covers to the bottom of all support legs.

## Assembly Video Guide

Official installation video demonstrating the step-by-step assembly process of the bed frame, including unpacking, connecting rails, installing slats, and tightening hardware.

This image shows the complete metal bed frame structure, highlighting the sturdy square frame and evenly spaced metal slats, ready for a mattress.

## OPERATING INSTRUCTIONS

Your Lutown-Teen bed frame is designed for optimal mattress support without the need for a box spring.

- Place your mattress directly onto the metal slats. The slats are spaced to provide adequate support for spring, latex, and memory foam mattresses.
- The square frame structure and reinforced legs ensure stability and reduce noise from movement.
- The 14-inch height provides ample under-bed storage space (approximately 12 inches clearance).

This image illustrates the generous under-bed storage capacity, showing various items like shoes and boxes neatly stored beneath the frame.

## MAINTENANCE

- Wipe with a damp cloth for cleaning. Avoid harsh chemicals.
- Periodically check all bolts and connections to ensure they remain tight. Re-tighten as necessary to maintain stability and prevent noise.
- The anti-scratch foot covers protect your floor; ensure they remain in place.

## TROUBLESHOOTING

### Squeaking Noises

- If you experience squeaking, re-tighten all bolts on the frame. Loose connections are the most common cause of noise.
- Ensure the mattress is properly centered on the slats and not rubbing against the frame.

## Instability

- Verify that all legs are firmly on the ground and not bent or damaged.
- Check that the frame is assembled correctly according to the instructions.

For further assistance, please contact Lutown-Teen customer support.

## PRODUCT SPECIFICATIONS

Brand	Lutown-Teen
Model Number	LTT5014
Size	Queen
Product Dimensions	79.53"L x 59.45"W x 14"H
Color	Black
Material	Heavy Duty Steel
Weight Capacity	1500 pounds
Assembly Required	Yes
Special Feature	Fade Resistant, Squeak Resistant
Compatible With Mattress Size	Queen, 80x60 inch
Item Weight	37 pounds
