Umadiya 2023-24

Umadiya Monster Tank Launcher Car Truck Instruction Manual

Model: 2023-24

1. Introduction

Thank you for choosing the Umadiya Monster Tank Launcher Car Truck set. This manual provides important information for the safe and enjoyable use of your new friction-powered toy vehicles. These vehicles feature 4-wheel drive, collision auto-deformation, a pop-up tank, and a rotating turret, all without requiring batteries.

2. Safety Information

- **Adult Supervision:** Always supervise children during play, especially those under 3 years of age.
- **Small Parts:** This product may contain small parts that could pose a choking hazard. Keep away from infants and young children who may put objects in their mouths.
- **Intended Use:** These toys are designed for play on flat, dry surfaces. Avoid use on uneven terrain, near stairs, or in water.
- **Avoid Impact:** Do not throw the vehicles or intentionally hit them against hard surfaces or other people.
- **Heat and Water:** Keep the toys away from direct heat sources, open flames, and water to prevent damage.
- **Material Safety:** Made from durable ABS plastic, which is safe for children under normal use.

3. Setup

3.1 Unboxing

Carefully remove the Monster Tank Launcher Car Trucks from their packaging. Ensure all four vehicles are present and undamaged. Dispose of packaging materials responsibly.

Image 3.1: The Umadiya Monster Tank Launcher Car Truck set in its retail packaging.

3.2 Assembly

No assembly is required for these vehicles. They are ready for play directly out of the box.

3.3 Power Source

These vehicles are friction-powered and do not require any batteries for operation.

4. Operating Instructions

4.1 Basic Movement (Friction Power)

1. Place the vehicle on a flat, smooth surface.
2. Press the vehicle down gently.
3. Pull the vehicle backward slightly to rev up its internal friction mechanism.
4. Release the vehicle quickly. It will then move forward with strong inertia power.

4.2 360-Degree Rotating Stunt

1. Place the vehicle on a flat surface.
2. Push the toy truck hard to revolve its wheels, building up momentum.
3. While the wheels are spinning, quickly place the car upright (on its rear wheels).
4. The vehicle will perform a 360-degree rotating stunt. Practice may be required to master this technique.

4.3 Pop-Up Tank and Rotating Turret

The vehicles feature a pop-up tank and a rotating turret. These elements are integrated into the design for imaginative play. The turret can be manually rotated to simulate aiming.

5. Maintenance

5.1 Cleaning

To clean the vehicles, wipe them with a soft, damp cloth. Do not use harsh chemicals, abrasive cleaners, or immerse them in water, as this may damage the plastic and internal friction mechanism.

5.2 Storage

Store the vehicles in a cool, dry place away from direct sunlight when not in use. This will help preserve the material and colors.

6. Troubleshooting

- **Vehicle not moving:** Ensure you are applying enough pressure and pulling back sufficiently to engage the friction mechanism before releasing. Check for any obstructions in the wheels.
- **360-degree stunt not working:** This stunt requires practice. Ensure the wheels are revved up adequately and the car is placed upright quickly on a smooth, flat surface.
- **Reduced performance:** Over time, general wear and tear may slightly affect performance. Ensure the wheels are clean and free of debris.

7. Specifications

Brand	Umadiya
Model Number	2023-24
Material	Acrylonitrile Butadiene Styrene (ABS) Plastic
Power Source	Friction Powered
Battery Required	No
Item Dimensions (approx. per car)	12 cm (Length) x 8.5 cm (Width) x 10.5 cm (Height)
Item Weight (approx. per car)	190 Grams
Number of Pieces	4
Age Recommendation	Minimum 24 months, Maximum 60 months
Country of Origin	China
