V-Guard P10

V-Guard P10 Chimney User Manual

Model: P10

1. Introduction

Thank you for choosing the V-Guard P10 Chimney. This appliance is designed to provide a clean and fresh kitchen environment by efficiently removing smoke, fumes, and airborne particles. Featuring a powerful 1200 m³/h suction, filter-less technology, and a convenient one-press heat auto-clean function, the P10 offers reliable performance and ease of maintenance. Please read this manual thoroughly before installation and operation to ensure safe and optimal use of your chimney.

2. Important Safety Instructions

To reduce the risk of fire, electric shock, or injury, observe the following:

- Read all instructions carefully before using the appliance.
- Ensure the power supply voltage matches the rating label on the chimney.
- Do not operate the chimney with a damaged cord or plug. If damaged, contact qualified service personnel.
- Always disconnect the power supply before cleaning or servicing the unit.
- Installation must be performed by a qualified technician in accordance with local codes and regulations.
- Maintain adequate ventilation in the kitchen to prevent back-drafting of combustion gases from other fuel-burning appliances.
- Never leave cooking food unattended, especially when using high heat, as grease fires can occur.
- Clean grease filters and surfaces regularly to prevent grease buildup.
- Do not flambé under the range hood.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or

mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

3. Setup and Installation

3.1 Unpacking and Contents

Carefully unpack the V-Guard P10 Chimney and check for any damage. Retain the packaging for future transport if needed.
Box Contents:

- Chimney Unit
- Duct Cover
- Oil Collector
- Wall Mounting Bracket
- User Manual
- Warranty Card
- Screws
- Rawal Plugs

Note: The duct pipe is sold separately and is not included in the box contents.

3.2 Installation Guidelines

The V-Guard P10 Chimney is designed for wall-mount installation, typically under a cabinet. Professional installation is highly recommended to ensure proper functioning and safety.

1. **Site Selection:** Choose a suitable location above your cooking range, ensuring adequate clearance as per local building codes and manufacturer recommendations.
2. **Mounting:** Use the provided wall mounting bracket, screws, and rawal plugs to securely fasten the chimney to the wall. Ensure the mounting surface is strong enough to support the chimney's weight (approximately 9 kg).
3. **Ducting:** Connect a suitable duct pipe (not included) from the chimney's exhaust outlet to an external vent. Ensure the ducting is as straight and short as possible to maximize suction efficiency.
4. **Electrical Connection:** Connect the chimney to a grounded 230 Volts (AC) power supply. Ensure all electrical connections comply with local regulations.
5. **Final Checks:** After installation, verify that the chimney is securely mounted, all connections are tight, and there are no obstructions to airflow.

4. Operating Instructions

The V-Guard P10 Chimney features user-friendly push-button controls for easy operation.

4.1 Power On/Off

Press the **Power button** to turn the chimney on or off.

4.2 Fan Speed Adjustment

The chimney offers three fan speeds to suit various cooking needs:

- **Speed 1 (Low):** Ideal for simmering or light cooking.

- **Speed 2 (Medium):** Suitable for everyday cooking.
- **Speed 3 (High):** Recommended for deep frying or heavy cooking with significant smoke and odors.

Use the dedicated speed control buttons to select the desired fan speed.

4.4 LED Lighting

Press the **Light button** to turn the energy-efficient LED lights on or off, illuminating your cooking area.

4.5 Auto-Clean Function

The P10 Chimney features a one-touch heat auto-clean function. Press the**Auto-Clean button** to activate this cycle. This process uses heat to melt and collect oil and grease, directing it into the oil cup. It is recommended to activate this function every 15 days for optimal maintenance.

5. Maintenance and Cleaning

Regular maintenance ensures the longevity and efficient performance of your V-Guard P10 Chimney. Always disconnect the power supply before performing any cleaning or maintenance.

5.1 Auto-Clean Cycle

As mentioned in the operating instructions, activate the one-touch heat auto-clean function every 15 days. This helps prevent grease buildup within the chimney's internal components.

5.2 Oil Collector Cleaning

The P10 Chimney features a large capacity oil cup. Regularly check and empty the oil collector when it is full. To clean, carefully remove the oil cup, dispose of the collected oil, and wash the cup with warm, soapy water. Ensure it is completely dry before reattaching.

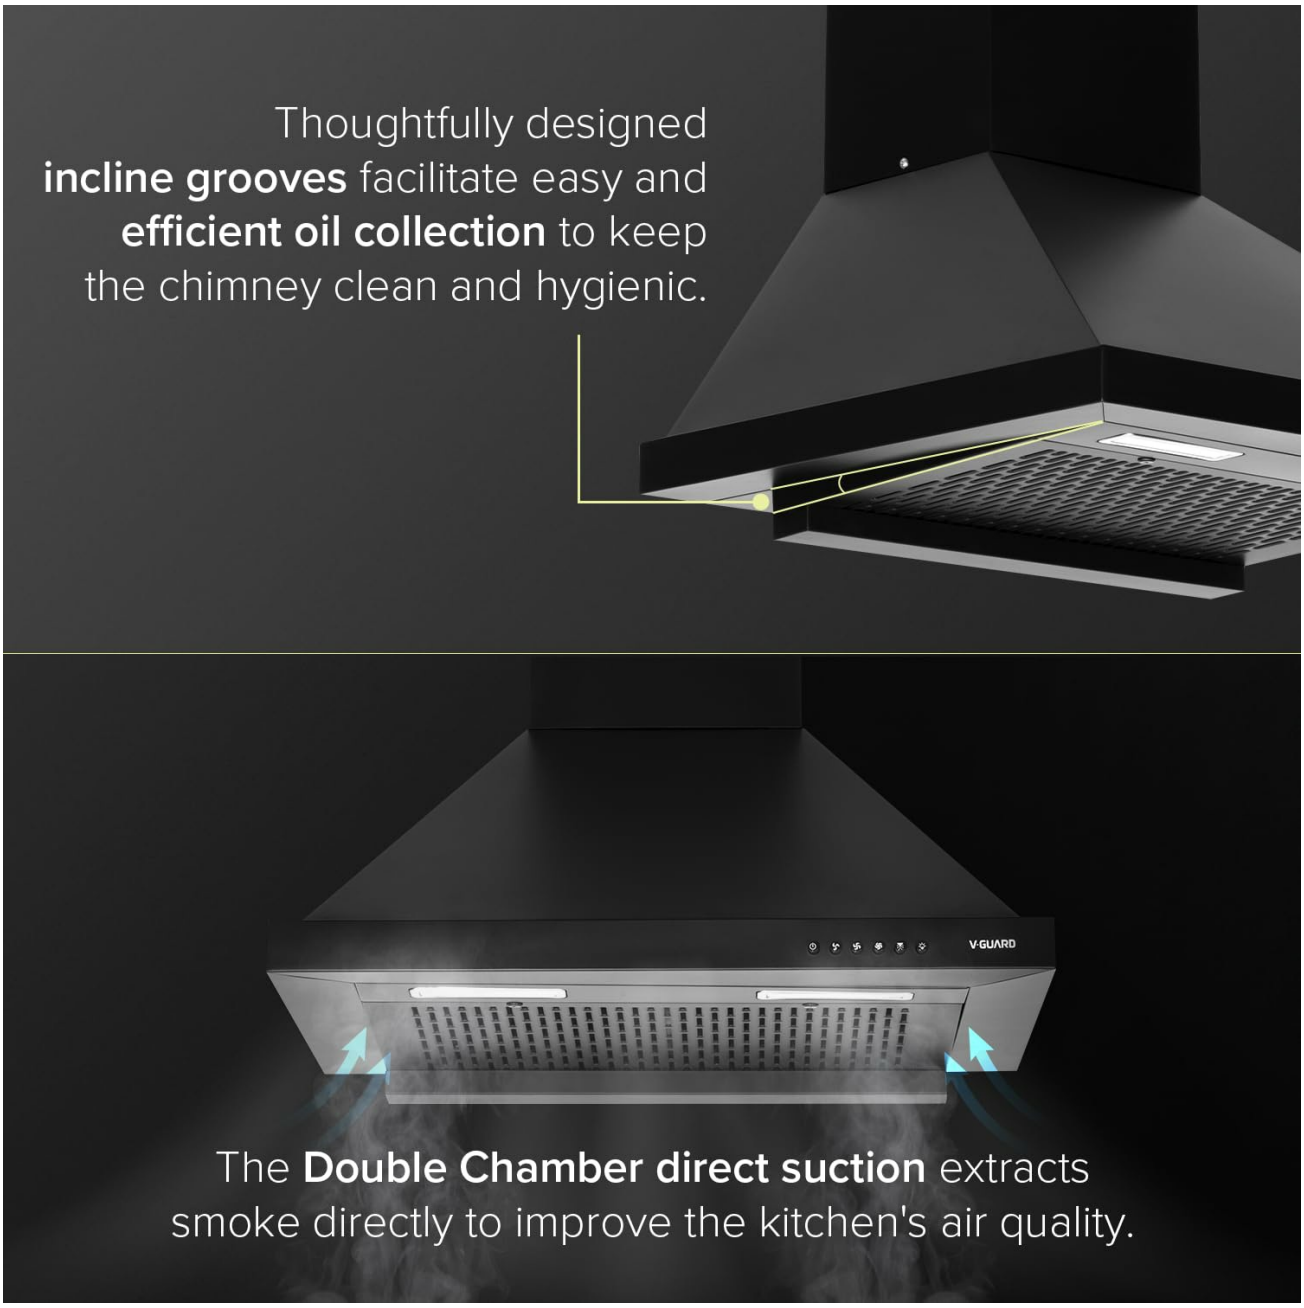

Image: Thoughtfully designed incline grooves facilitate easy and efficient oil collection, keeping the chimney clean and hygienic.

5.3 Exterior Cleaning

Wipe the exterior surfaces of the chimney, including the easy-to-clean panel, with a soft cloth dampened with mild detergent. Do not use abrasive cleaners, steel wool, or harsh chemicals, as these can damage the finish.

5.4 Filter-less Technology

The P10 Chimney utilizes filter-less technology, eliminating the need for traditional filter cleaning or replacement. The internal design ensures efficient smoke and oil separation directly into the oil collector.

6. Troubleshooting Guide

Before contacting customer service, please refer to the following common issues and their solutions:

Problem	Possible Cause	Solution
Chimney does not turn on.	No power supply. Power cord not properly connected. Fuse blown or circuit breaker tripped.	Check if the power plug is securely inserted. Check your household fuse box or circuit breaker. Ensure the power outlet is functional.
Low suction power.	Ducting obstructed or too long/bent. Oil collector full. Incorrect fan speed selected.	Check ducting for obstructions and ensure it's properly installed. Empty and clean the oil collector. Select a higher fan speed (Speed 2 or 3).

Problem	Possible Cause	Solution
Unusual noise during operation.	Loose components. Obstruction in the fan. Improper installation.	Turn off and unplug the chimney. Carefully inspect for any loose parts. Check for foreign objects near the fan. If noise persists, contact customer support.
Oil dripping from the chimney.	Oil collector is full or improperly seated. Auto-clean function not used regularly.	Empty and properly re-seat the oil collector. Run the auto-clean cycle as recommended (every 15 days).

If the problem persists after attempting these solutions, please contact V-Guard customer support.

7. Product Specifications

Feature	Specification
Model	P10
Brand	V-Guard
Air Flow Capacity	1200 m³/h (Cubic Meters Per Hour)
Noise Level	55 Decibels (dBA)
Mounting Type	Wall Mount / Under Cabinet Mount
Controls Type	Push Button
Voltage	230 Volts (AC)
Number of Speeds	3
Item Weight	9 kg (9000 Grams)
Light Source Type	LED
Ventilation Type	Ducted/Vented
Annual Energy Consumption	170 Watts
Special Features	Auto Clean, Filterless
Product Dimensions (LxWxH)	50D x 60W x 62H Centimeters

8. Warranty and Support

V-Guard stands by the quality of its products. The P10 Chimney comes with the following warranty coverage:

- **1-Year Product Warranty:** Covers manufacturing defects for the entire chimney unit.
- **5-Year Motor Warranty:** Covers the chimney's motor for an extended period.
