

BILLCONCH A1-Black

BILLCONCH Biometric Gun Safe Model A1-Black Instruction Manual

Secure Storage for Pistols and Valuables

1. SAFETY INFORMATION

This BILLCONCH Biometric Gun Safe is designed to provide secure storage for firearms and valuables. Proper use and adherence to safety guidelines are crucial to prevent unauthorized access and accidents.

- Always store firearms unloaded and separate from ammunition.
- Keep the safe locked at all times when not in use.
- Store the safe keys in a secure location, away from the safe and out of reach of children and unauthorized individuals.
- Do not share your PIN code or allow unauthorized individuals to register their fingerprints.
- Ensure the safe is mounted or placed in a stable location to prevent tipping or removal.
- This safe is not water resistant. Avoid exposure to water or high humidity.

2. PRODUCT OVERVIEW

The BILLCONCH Biometric Gun Safe Model A1-Black offers three secure methods of access: fingerprint recognition, digital PIN code, and traditional key unlock. Constructed from durable carbon steel, it provides a robust solution for securing pistols and other valuables. The interior features soft foam padding to protect contents and an internal LED light for visibility in low-light conditions. The safe is portable and includes a rechargeable battery with a USB charging option.

2.1 Key Features

- **3-Way Unlock System:** Fingerprint, Digital PIN, and Key.
- **High-Resolution Biometric Scanner:** Provides quick access (within 0.1 seconds) and supports multiple fingerprints.
- **Durable Construction:** Made from hard carbon steel with a metal paint coating.
- **Internal LED Light:** Illuminates the interior for clear visibility.
- **Soft Foam Padding:** Protects stored items from scratches and damage.
- **USB Rechargeable Battery:** Convenient power source with low battery reminder.
- **Portable Design:** Suitable for various locations including nightstands, drawers, and vehicles.

2.2 Package Contents

Verify that all items are present in the package:

- BILLCONCH Biometric Gun Safe

- Emergency Keys (2)
- USB Charging Cable
- Mounting Hardware (screws)
- Small Screwdriver (for battery compartment)
- Instruction Manual

3. SETUP

3.1 Initial Power-Up and Charging

1. Locate the battery compartment, typically inside the safe or on the underside. Use the provided screwdriver if necessary to open it.
2. Insert the included Lithium Ion battery.
3. Connect the USB charging cable to the safe's USB port and a power source (e.g., wall adapter, computer USB port). The charging indicator light will be red.
4. Charge the safe until the indicator light turns green, indicating a full charge.

3.2 Setting Fingerprints

The safe can store multiple fingerprints for quick access.

1. Open the safe using the emergency key.
2. Locate the 'SET FINGERPRINT' button inside the safe (refer to the image below for location). Press this button.
3. Place the finger you wish to register on the fingerprint scanner. The safe will prompt you to lift and place your finger repeatedly (typically 6-8 times) from different angles until registration is complete.
4. A successful registration will be indicated by a specific sound or light pattern.
5. Repeat the process for any additional fingers or users you wish to register.

3.3 Setting PIN Code

1. Open the safe using the emergency key or an enrolled fingerprint.
2. Locate the 'SET PIN' button inside the safe. Press this button.
3. Enter your desired PIN code (typically 4-8 digits) on the keypad, then press 'OK'.
4. Re-enter the same PIN code and press 'OK' to confirm.
5. A successful registration will be indicated by a specific sound or light pattern.

3.4 Enabling/Disabling Sound

The safe may have an option to operate in silent mode. Consult your specific model's detailed instructions for how to toggle sound alerts.

4. OPERATING INSTRUCTIONS

4.1 Unlocking with Fingerprint

1. Place an enrolled finger firmly and completely on the fingerprint scanner.
2. The safe will unlock rapidly (within 0.1 seconds) if the fingerprint is recognized.

5. MAINTENANCE

5.1 Battery Management

- The safe is powered by a rechargeable Lithium Ion battery.
- When the battery is low, the safe will provide a low battery reminder (e.g., a specific sound or light indicator).
- Charge the battery using the provided USB cable and a standard USB power source. The charging indicator will turn green when fully charged.
- Regularly check the battery level and recharge as needed to ensure continuous operation.

5.2 Cleaning

- Clean the exterior of the safe with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- Keep the fingerprint scanner clean and free of dirt or moisture to ensure optimal performance.
- Periodically inspect the safe for any signs of wear or damage.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Safe does not open with fingerprint.	Finger not properly placed; unregistered fingerprint; dirty scanner; low battery.	Ensure finger covers the entire scanner; re-register fingerprint; clean scanner; charge battery; use PIN or key.
Safe does not open with PIN code.	Incorrect PIN entered; PIN not set; low battery.	Verify PIN; set PIN if not already done; charge battery; use fingerprint or key.
No power/safe unresponsive.	Battery depleted or improperly installed.	Charge the battery; ensure battery is correctly installed; use emergency key to open.

Problem	Possible Cause	Solution
Internal light not working.	Low battery; LED malfunction.	Charge the battery. If problem persists, contact customer support.
