3. SETUP

3.1 Battery Installation and Charging

The camcorder comes with two rechargeable Lithium Polymer batteries. Ensure batteries are fully charged before first use.

1. Open the battery compartment cover on the bottom of the camcorder.
2. Insert a charged battery, ensuring correct orientation as indicated inside the compartment.
3. Close the battery compartment cover securely.
4. To charge batteries, place them in the provided double battery charger and connect the USB cable to a power source.

3.2 SD Card Installation

The camcorder supports SD flash memory cards. A 32GB SD card is included.

1. Locate the SD card slot, usually near the battery compartment or on the side.
2. Insert the SD card gently until it clicks into place. Ensure correct orientation.

3.3 Attaching Accessories

Enhance your recording experience by attaching the included accessories.

- **External Microphone:** Plug the microphone's 3.5mm jack into the microphone port on the camcorder (usually on the side or front). Secure it to the hot shoe mount if applicable.
- **External Fill Light:** Slide the fill light onto the hot shoe mount on top of the camcorder. Turn it on/off using its dedicated switch.
- **Handheld Stabilizer Bracket:** Attach the camcorder to the stabilizer bracket's screw mount at the bottom. This provides a more stable grip for handheld shooting.
