Setup Guide

Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that the controller, phone bracket, and charging cable are present.

Charging the Controller

Before first use, fully charge the controller. Connect the included Type-C charging cable to the controller's charging port and a compatible USB power source.
The controller features a built-in rechargeable battery providing approximately 25 hours of normal use and recharges in just under 2 hours.

Operating Instructions

Powering On and Bluetooth Pairing

To power on the controller, press and hold the power button for 3 seconds. The controller will enter pairing mode. On your mobile device (iPhone or Android), navigate to Bluetooth settings and select "ShanWan Q13" (or similar) from the list of available devices to connect. The controller utilizes upgraded Bluetooth 5.0 for responsive, low-latency connection.

Maintenance and Care

Battery Management

To maximize battery life, fully charge the controller before extended gaming sessions. The controller will automatically shut off after 15 minutes of inactivity to save power.

Cleaning

Use a soft, dry cloth to clean the controller. Avoid using harsh chemicals or abrasive materials.

Storage

Store the controller in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Connection Issues

If the controller fails to connect, ensure it is fully charged and within range of your device. Try unpairing and re-pairing the controller in your device's Bluetooth settings.

Unresponsive Buttons/Joysticks

Ensure the controller is fully charged. If issues persist, try resetting the controller (e.g., by powering it off and on again).

Phone Bracket Issues

Ensure your phone is securely seated in the bracket and its dimensions are within the supported range (50mm-91mm). Avoid excessive force when inserting or removing the phone.
