TYKOIT 41mm Light Purple

TYKOIT Smart Watch User Manual

Model: 41mm Light Purple

1. Introduction

This manual provides detailed instructions for setting up, operating, and maintaining your TYKOIT Smart Watch. Designed for both men and women, this fitness tracker offers comprehensive health monitoring, multiple sport modes, and smart notifications, compatible with Android and iOS devices.

Figure 1.1: TYKOIT Smart Watch (41mm Light Purple) with a vibrant display.

2. What's in the Box

- TYKOIT Smart Watch (41mm Light Purple)
- Charging Cable

3. Setup

3.1 Charging the Device

Before first use, fully charge your smart watch. Connect the provided charging cable to the watch's charging port and a

USB power source. A full charge takes approximately 2 hours. The watch can last up to 7 days with continuous use or 30 days on standby.

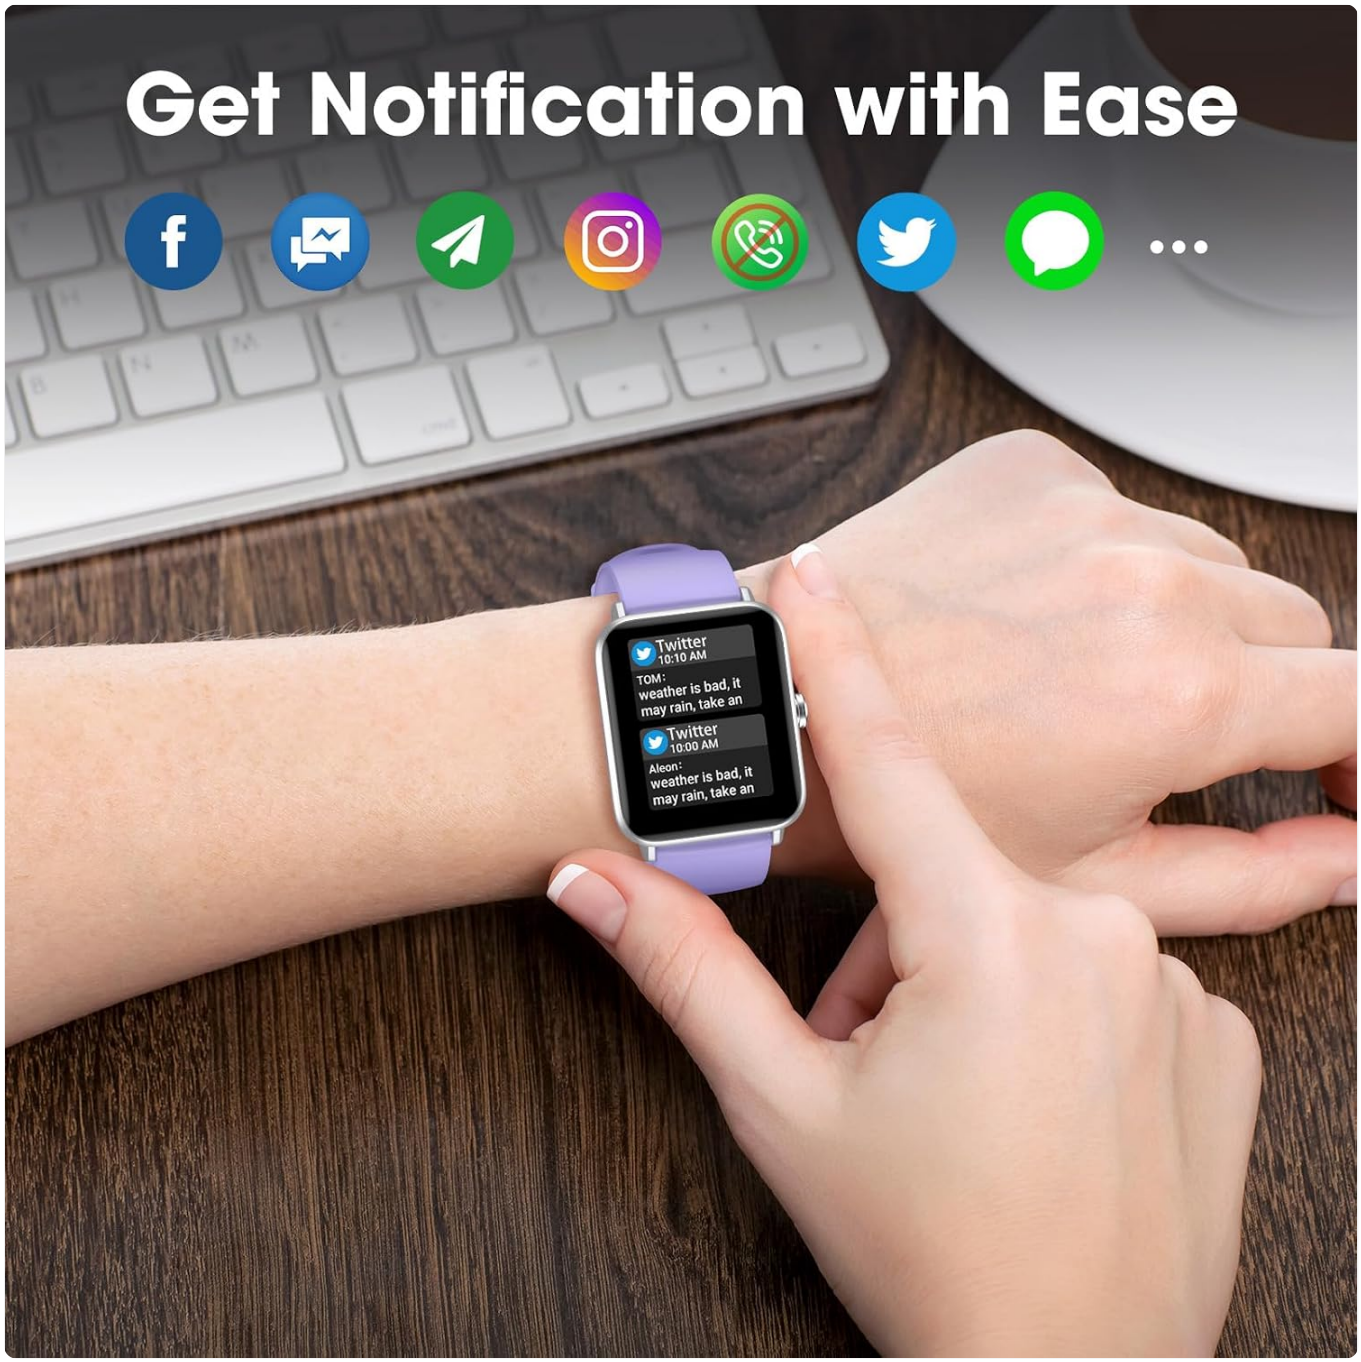

Figure 3.1: The smart watch indicating a full charge, highlighting its long-lasting battery.

3.2 App Installation and Pairing

To unlock the full potential of your TYKOIT Smart Watch, download the companion application on your smartphone. The watch is compatible with smartphones running iOS 10.0 or Android OS 5.0 and above, with Bluetooth 4.0 or higher. Please note that it is not compatible with tablets or computers.

1. Scan the QR code in the watch's quick start guide or search for the official app in your phone's app store (e.g., Apple App Store or Google Play Store).
2. Install the application and create an account if prompted.
3. Enable Bluetooth on your smartphone.
4. Open the app and follow the on-screen instructions to search for and pair with your TYKOIT Smart Watch. Ensure the watch is powered on and near your phone during pairing.

4. Operating Instructions

4.1 Personalized Watch Faces

Customize your watch's appearance by selecting from various theme dials or personalizing the watch face with your own images. Adjust brightness settings for optimal visibility in different environments.

Figure 4.1: Examples of personalized watch faces and customization options.

4.2 Health Monitoring

The smart watch is equipped with advanced sensors to monitor key health metrics:

- **Heart Rate Monitor:** Real-time heart rate tracking. View recorded data on the watch or the companion app.
- **Blood Oxygen Monitor:** Manual detection of blood oxygen levels (SpO2).
- **Sleep Tracking:** Automatically tracks your sleep status, including light sleep, deep sleep, and awake time, to help you develop healthier sleep habits.

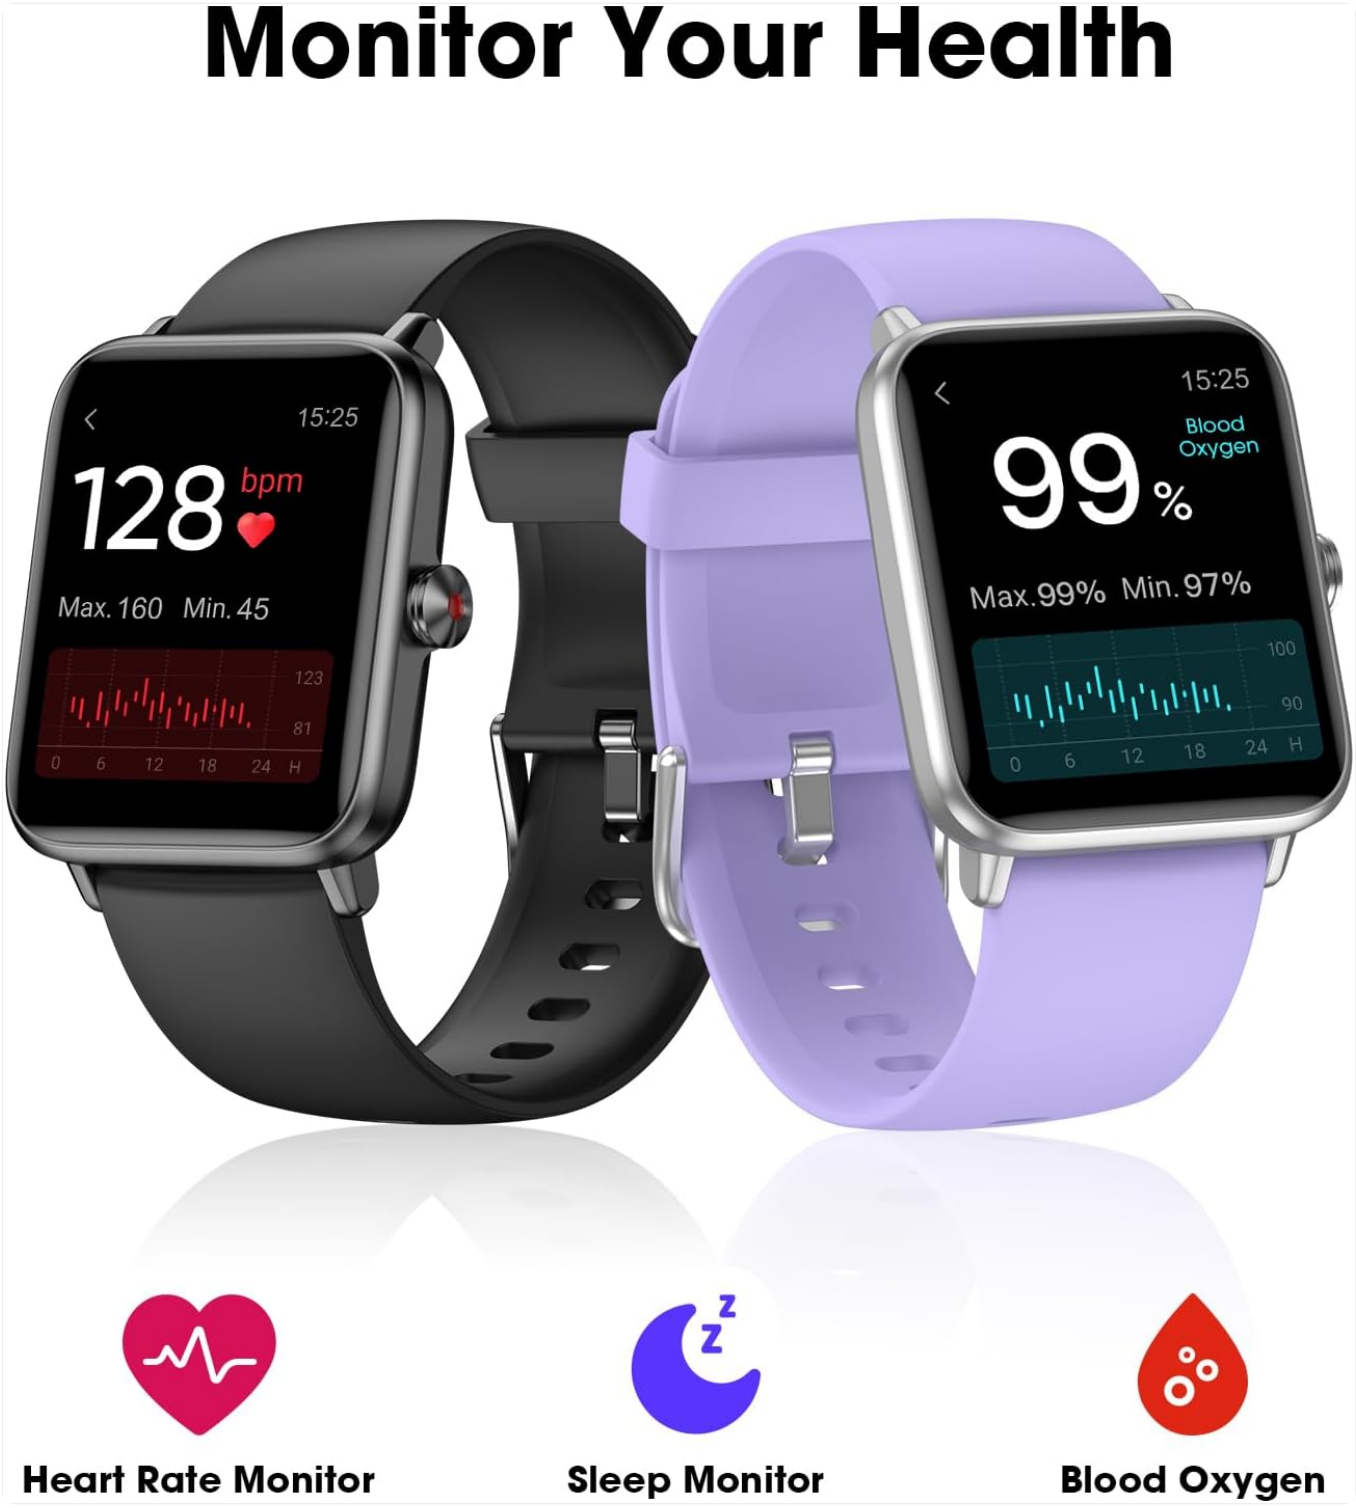

Figure 4.2: The smart watch monitoring heart rate and blood oxygen levels.

4.3 Multiple Sport Modes

The fitness watch supports 10 different sport modes, including yoga, walking, running, and more. It automatically tracks your steps, distance, calorie burn, and activity time. When connected to your smartphone's GPS, it can also track your outdoor workout routes.

Figure 4.3: The smart watch offers a variety of workout modes to track your fitness activities.

4.4 Smart Notifications and Practical Tools

Stay connected with notifications directly on your wrist. The smart watch receives incoming calls and notifications from SMS, Facebook, Instagram, WhatsApp, and other applications. Please note that the watch cannot make calls or send text replies.
Additional practical tools include:

- Stopwatch
- Timer
- Music Control
- Breathing Training
- Night Mode
- Alarm Clock
- Wrist Up Awake (raise wrist to wake screen)
- Sedentary Reminder

- Drinking Water Reminder

Figure 4.4: Receiving notifications on the smart watch for various applications.

5. Maintenance

5.1 Waterproof Rating

The TYKOIT Smart Watch features an IP68 waterproof rating. This means it can withstand sweat, hand washing, and rain during daily activities. It is also suitable for swimming and diving, allowing you to track your activities without worry.

Figure 5.1: The smart watch is suitable for water activities due to its IP68 waterproof rating.

5.2 Wearing and Care Tips

- Avoid wearing the watch too tightly to prevent excessive friction that may irritate the skin.
- Allow your watch to rest after prolonged use to ensure comfort and device longevity.
- Clean the watch regularly with a soft, dry cloth.

6. Troubleshooting

6.1 Common Issues and Solutions

Issue	Possible Solution
Watch not turning on	Ensure the watch is fully charged. Connect it to the charging cable and a power source for at least 30 minutes.

Issue	Possible Solution
Unable to pair with smartphone	Ensure Bluetooth is enabled on your phone. Make sure the watch is within range. Restart both the watch and your phone. Check app permissions.
Notifications not appearing	Verify notification settings within the companion app and your phone's system settings. Ensure the app is running in the background.
Inaccurate health data	Ensure the watch is worn correctly on your wrist, not too loose or too tight. Clean the sensors on the back of the watch.
Short battery life	Reduce screen brightness, disable unnecessary notifications, and limit continuous health monitoring if not required.

7. Specifications
