

YYJLX Y1174

YYJLX 5-Light Crystal Ceiling Light Fixture User Manual

Model: Y1174 | Brand: YYJLX

1. INTRODUCTION AND OVERVIEW

Thank you for choosing the YYJLX 5-Light Retro Crystal Ceiling Light Fixture. This semi-flush mount chandelier is designed to enhance the aesthetic of various indoor spaces, including living rooms, dining rooms, entryways, hallways, foyers, bedrooms, and laundry rooms. Its oil-rubbed bronze finish and sparkling crystal accents create a captivating visual appeal, providing both functional illumination and a touch of elegance.

This manual provides essential information for the safe and proper installation, operation, and maintenance of your new light fixture. Please read all instructions carefully before beginning installation and retain this manual for future reference.

This image displays the YYJLX 5-Light Crystal Ceiling Light Fixture in an interior setting, showcasing its elegant design and the warm glow it emits.

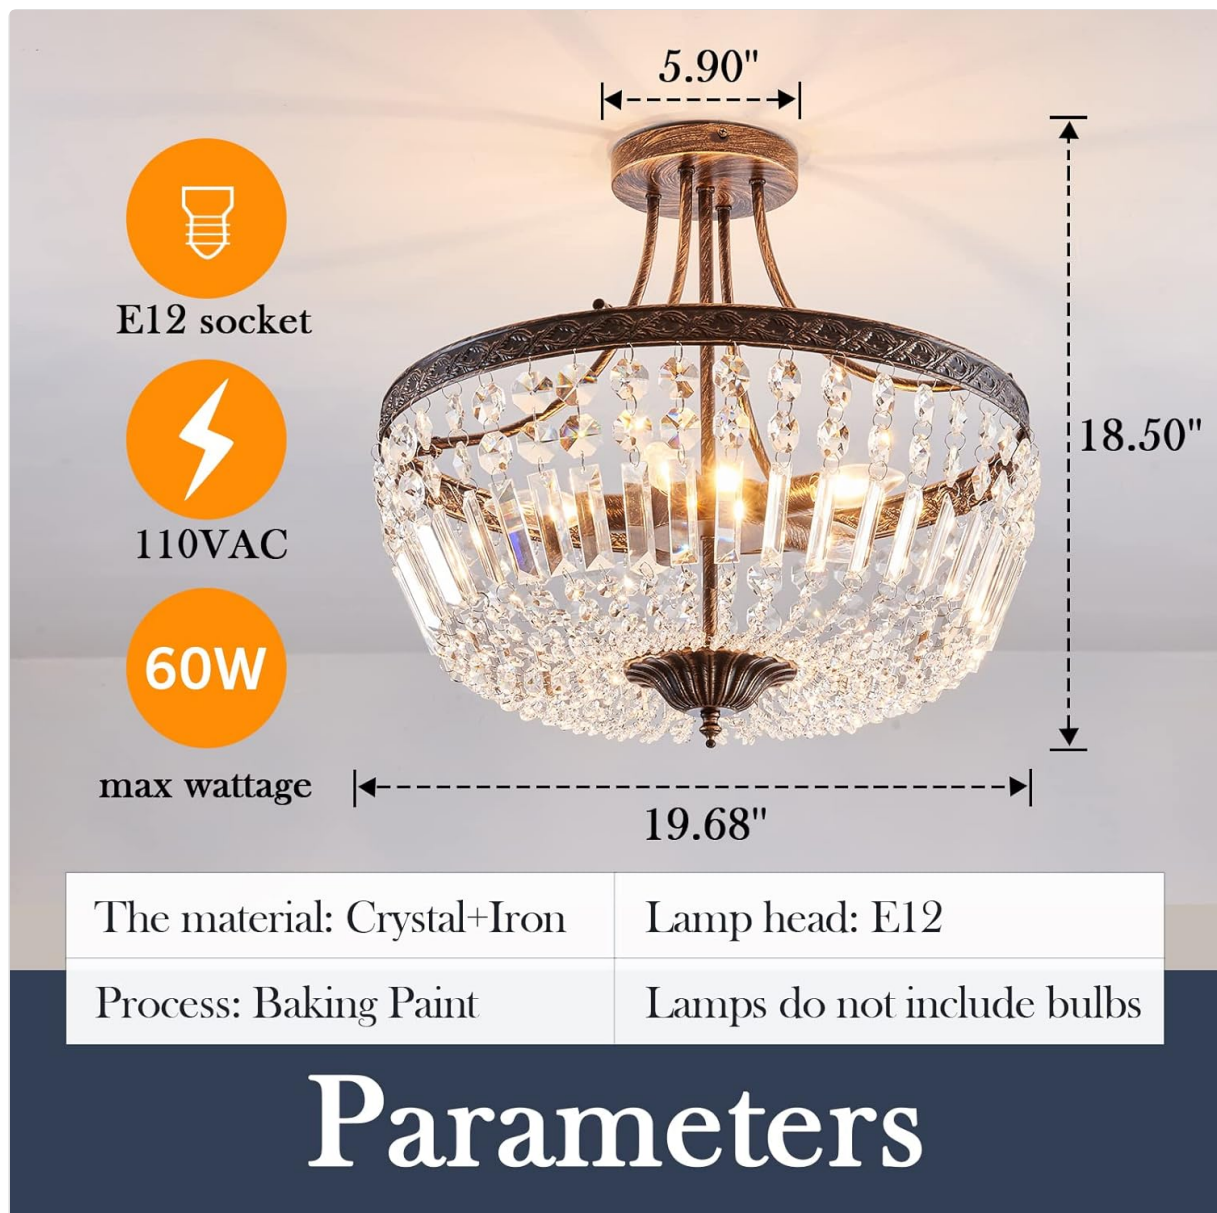

2. PRODUCT FEATURES

- **Striking Design:** Features an exquisite retro design with an oil-rubbed bronze finish and delicate glass-touch crystal accents, making it a noticeable centerpiece.
- **Superior Craftsmanship:** Constructed with high-quality iron and crystal materials for durability and resistance to breakage.
- **Comfortable Illumination:** Designed for 110V systems with a 60-watt capacity, providing a warm and inviting glow. Compatible with 5 E12 LED bulbs (bulbs not included).
- **Easy Installation:** Straightforward assembly process with clear instructions and all necessary mounting hardware included.

3. SPECIFICATIONS

Attribute	Detail
Brand	YYJLX

Model Number	Y1174
Color	Bronze
Material	Iron, Crystal
Style	Retro
Light Fixture Form	Close to Ceiling
Product Dimensions	19.68"L x 5.9"W x 18.5"H
Power Source	Corded Electric
Installation Type	Semi Flush Mount
Number of Light Sources	5
Voltage	110 Volts
Bulb Base	E12
Maximum Compatible Wattage (per bulb)	40 Watts
Control Method	Touch (typically via wall switch)
Included Components	Mounting Hardware
Assembly Required	Yes
Indoor/Outdoor Usage	Indoor

This diagram illustrates the key dimensions of the light fixture, including its height (18.50 inches), width (19.68 inches), and ceiling mount diameter (5.90 inches). It also specifies the E12 socket type, 110V AC voltage, and maximum wattage of 60W (total capacity).

4. INSTALLATION INSTRUCTIONS

Before beginning installation, ensure the power supply to the circuit is turned off at the circuit breaker. It is recommended to have a qualified electrician perform the installation if you are not comfortable with electrical wiring.

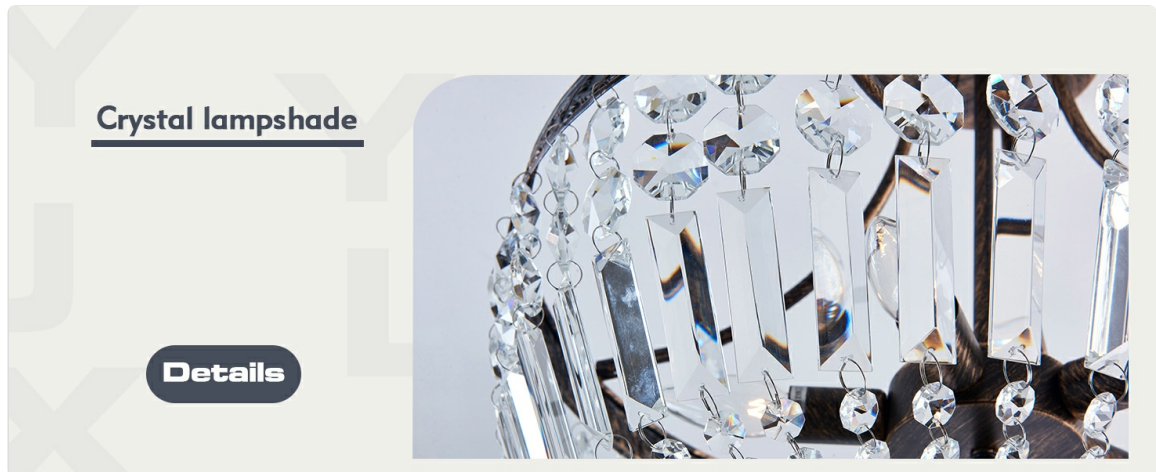

1. **Prepare the Mounting Bracket:** Securely attach the mounting bracket to the ceiling junction box using the provided screws. Ensure it is firmly fixed and can support the weight of the fixture.

Why choose us?

Ours ✓ 	Harder, more translucent, high-grade and textured	Others ✗ 	Acrylic material, rough workmanship, no luster
Ours ✓ 	High temperature resistance and long service life	Others ✗ 	Not resistant to high temperature, easy to break

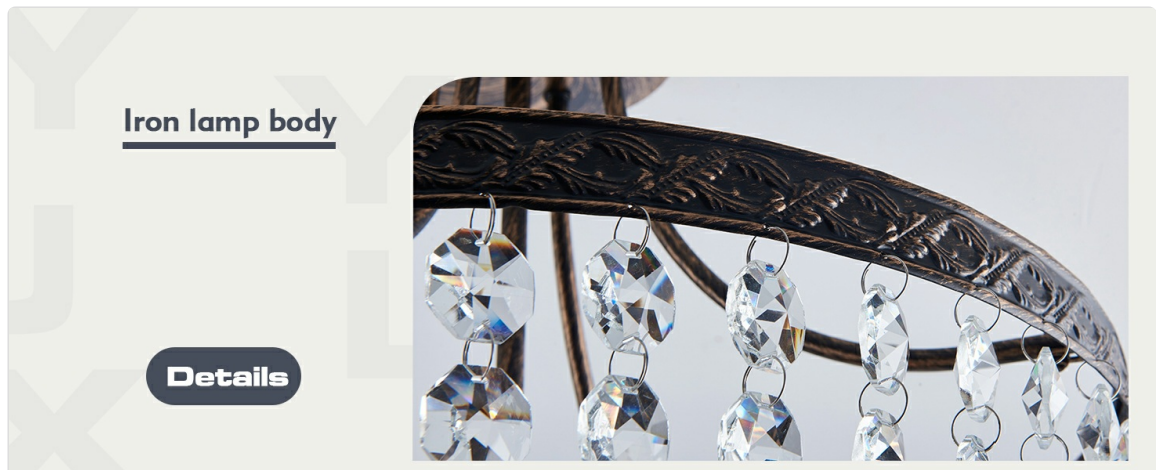

This image shows the initial step of installation, where the mounting bracket is securely attached to the ceiling's electrical junction box, ensuring a stable foundation for the fixture.

- 2. Connect Electrical Wires:** Connect the fixture's wires to your household electrical wires. Typically, connect the black wire from the fixture to the black wire from the ceiling (live), the white wire from the fixture to the white wire from the ceiling (neutral), and the ground wire to the ground wire from the ceiling. Use wire nuts to secure connections.

This image illustrates the process of connecting the fixture's electrical wires to the household wiring, following standard safety procedures for electrical connections.

- 3. Mount the Fixture Body:** Carefully lift the fixture body and align it with the mounting bracket. Secure the fixture to the bracket using the provided screws or nuts, ensuring it is flush against the ceiling.

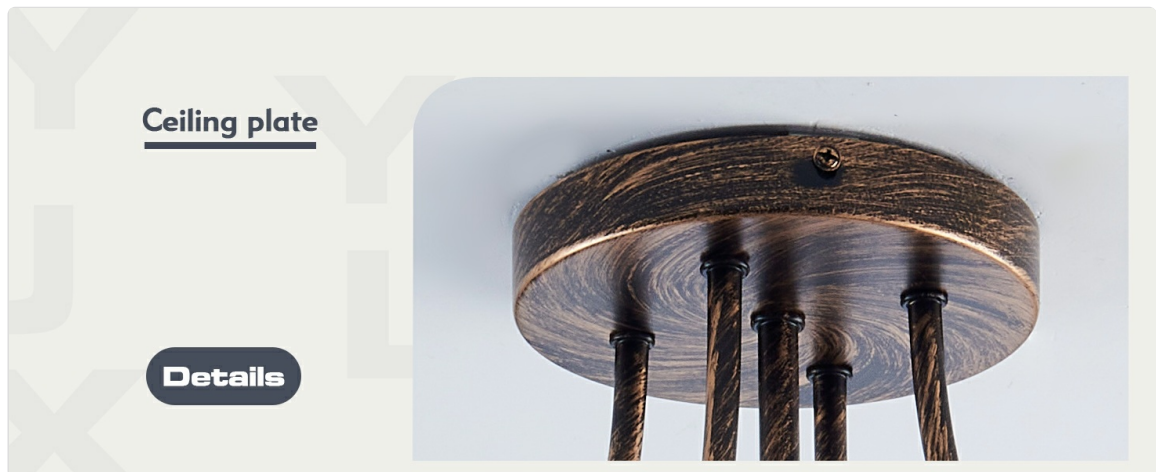

This image depicts the fixture body being carefully lifted and secured to the previously installed mounting bracket, ensuring a flush and stable fit against the ceiling.

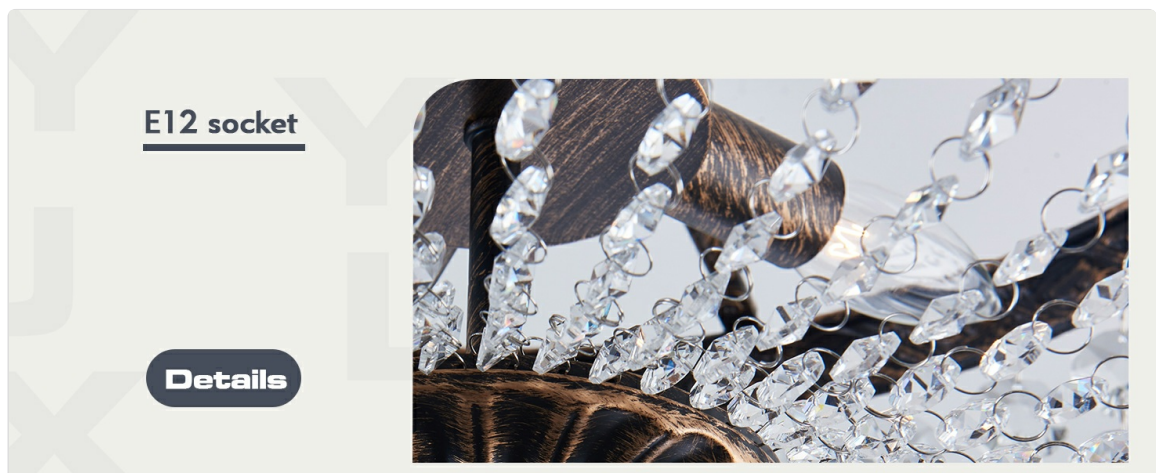

- 4. Install Bulbs:** Screw in five E12 base bulbs (not included) into the sockets. Ensure bulbs do not

exceed the maximum compatible wattage of 40 watts per bulb.

5. **Hang Crystal Strings:** This step requires patience. Carefully hang each crystal string onto the designated hooks on the fixture's frame. Refer to the included diagram for the correct placement of each crystal type.

6. **Final Assembly and Adjustment:** Once all crystals are in place, make any necessary adjustments to ensure they hang evenly and create the desired sparkling effect.

5. OPERATION

Once installed and bulbs are in place, restore power to the circuit at the breaker. The light fixture is operated via a standard wall switch (or touch control if integrated into your home's smart system, as per specifications). You can choose E12 LED bulbs of various color temperatures (e.g., warm white 2700K, cool white) to achieve your desired lighting ambiance.

Warm light

White light

Nighttime

Turn off

This composite image illustrates the versatility of the YYJLX ceiling light, showing its appearance when emitting warm light, white light, a softer nighttime glow, and when turned off, demonstrating how different E12 base bulbs can alter the ambiance.

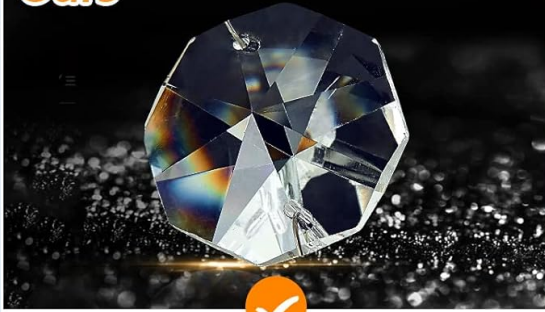

6. MAINTENANCE AND CARE

To maintain the beauty and longevity of your YYJLX ceiling light fixture, follow these care instructions:

- **Cleaning:** Turn off the power before cleaning. For the metal frame, wipe with a soft, dry cloth. For the crystal elements, use a soft, damp cloth with a mild glass cleaner, or a specialized crystal cleaner. Avoid abrasive cleaners or harsh chemicals that may damage the finish or crystals.
- **Bulb Replacement:** Ensure the power is off before replacing bulbs. Allow old bulbs to cool completely before removal. Replace with E12 base bulbs, not exceeding 40 watts per bulb.
- **Crystal Quality:** The crystals used are designed for high temperature resistance and long service life. Avoid harsh impacts that could chip or break the crystals.

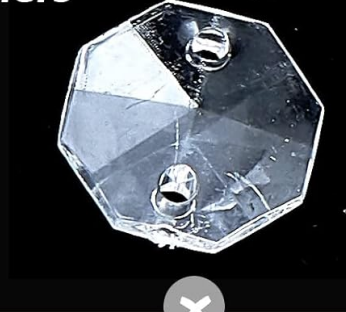

Why choose us?

Ours

Harder, more translucent,
high-grade and textured

Others

Acrylic material,
rough workmanship, no luster

Ours

High temperature resistance
and long service life

Others

Not resistant to high temperature,
easy to break

This image compares the quality of YYJLX crystals ('Ours') with generic alternatives ('Others'). It emphasizes that YYJLX crystals are harder, more translucent, high-grade, and textured, as well as being high temperature resistant for longer service life, unlike acrylic materials that lack luster and are prone to breakage.

7. TROUBLESHOOTING

If you encounter issues with your light fixture, refer to the following common problems and solutions:

- **Light Does Not Turn On:**

- Check the circuit breaker to ensure power is on.
- Verify that all wire connections are secure.
- Ensure bulbs are screwed in tightly and are not burnt out. Test with a known working bulb.

- **Flickering Light:**

- Ensure bulbs are fully tightened.
- Check for loose wire connections.
- Ensure bulbs are compatible with the fixture's electrical specifications.

- **Crystals Appear Dull:**

- Clean crystals regularly as per maintenance instructions. Dust and grime can reduce their sparkle.

If problems persist after attempting these solutions, please contact customer support.

8. WARRANTY AND SUPPORT

Your satisfaction is our utmost priority. The YYJLX 5-Light Crystal Ceiling Light Fixture comes with a worry-free guarantee. Should you encounter any quality issues or feel dissatisfied with your purchase, please reach out to us directly.

- **90-Day Money-Back Option:** If you are not completely satisfied within 90 days of purchase, you may be eligible for a full refund.
- **1-Year Replacement Warranty:** The product is covered by a 1-year replacement warranty for defects in materials and workmanship.

For support, please refer to the contact information provided with your purchase or visit the official YYJLX store on Amazon.
