› Vikye Smart Watch Charger Instruction Manual for Fossil Gen 1, 2, 3 Series

Vikye Smart Watch Charger for Fossil Gen 1 2 3

Vikye Smart Watch Charger Instruction Manual

For Fossil Gen 1, Gen 2, and Gen 3 Series Smartwatches

1. PRODUCT OVERVIEW

The Vikye Smart Watch Charger is designed to provide efficient and reliable charging for a range of Fossil smartwatches. This charger features a durable construction and incorporates multiple safety technologies to protect your device during charging.

1.1. Compatibility

This charger is compatible with the following Fossil smartwatch models:

- Fossil Q Gen 1
- Fossil Q Gen 2 Founder
- Fossil Q Gen 2 Wander
- Fossil Q Gen 2 Marshal
- Fossil Q Gen 3 Explorer
- Fossil Q Gen 3 Venture series

1.2. Key Features

- **Universal USB Power:** Can be powered by various USB sources including laptops, PCs, USB wall chargers, and USB car chargers.
- **Durable Construction:** Made from ABS and PC materials for enhanced durability and longevity.
- **Efficient Charging:** Features small DC ripple, high working efficiency, and fast charging speed.
- **Safety Protections:** Includes built-in safeguards against short circuits, overloads, and overvoltage.

2. SETUP INSTRUCTIONS

Follow these steps to set up your Vikye Smart Watch Charger:

1. **Unpack the Charger:** Carefully remove the charger cable from its packaging.
2. **Identify Components:** The charger consists of a USB-A connector on one end and a magnetic charging puck on the other.

3. **Connect to Power Source:** Insert the USB-A connector into a compatible USB power source. This can be a USB port on a computer, a USB wall adapter, or a USB car charger. Ensure the power source provides a stable 5V output.

Image 2: The Vikye Smart Watch Charger cable, showing the USB connector and charging puck.

3. OPERATING INSTRUCTIONS

Once the charger is connected to a power source, you can begin charging your smartwatch.

1. **Position Smartwatch:** Place your Fossil smartwatch onto the magnetic charging puck. The puck is designed to align magnetically with the charging contacts on the back of your smartwatch.
2. **Verify Connection:** Ensure the smartwatch is securely seated on the charging puck. Your smartwatch display should indicate that it is charging (e.g., a charging icon or battery percentage increase).
3. **Charging Time:** Charging times may vary depending on the smartwatch model and its current battery level. Avoid leaving the smartwatch on the charger for extended periods after it has reached 100% charge to prolong battery life.
4. **Disconnect:** Once charging is complete, gently remove your smartwatch from the charging puck and disconnect the USB cable from the power source.

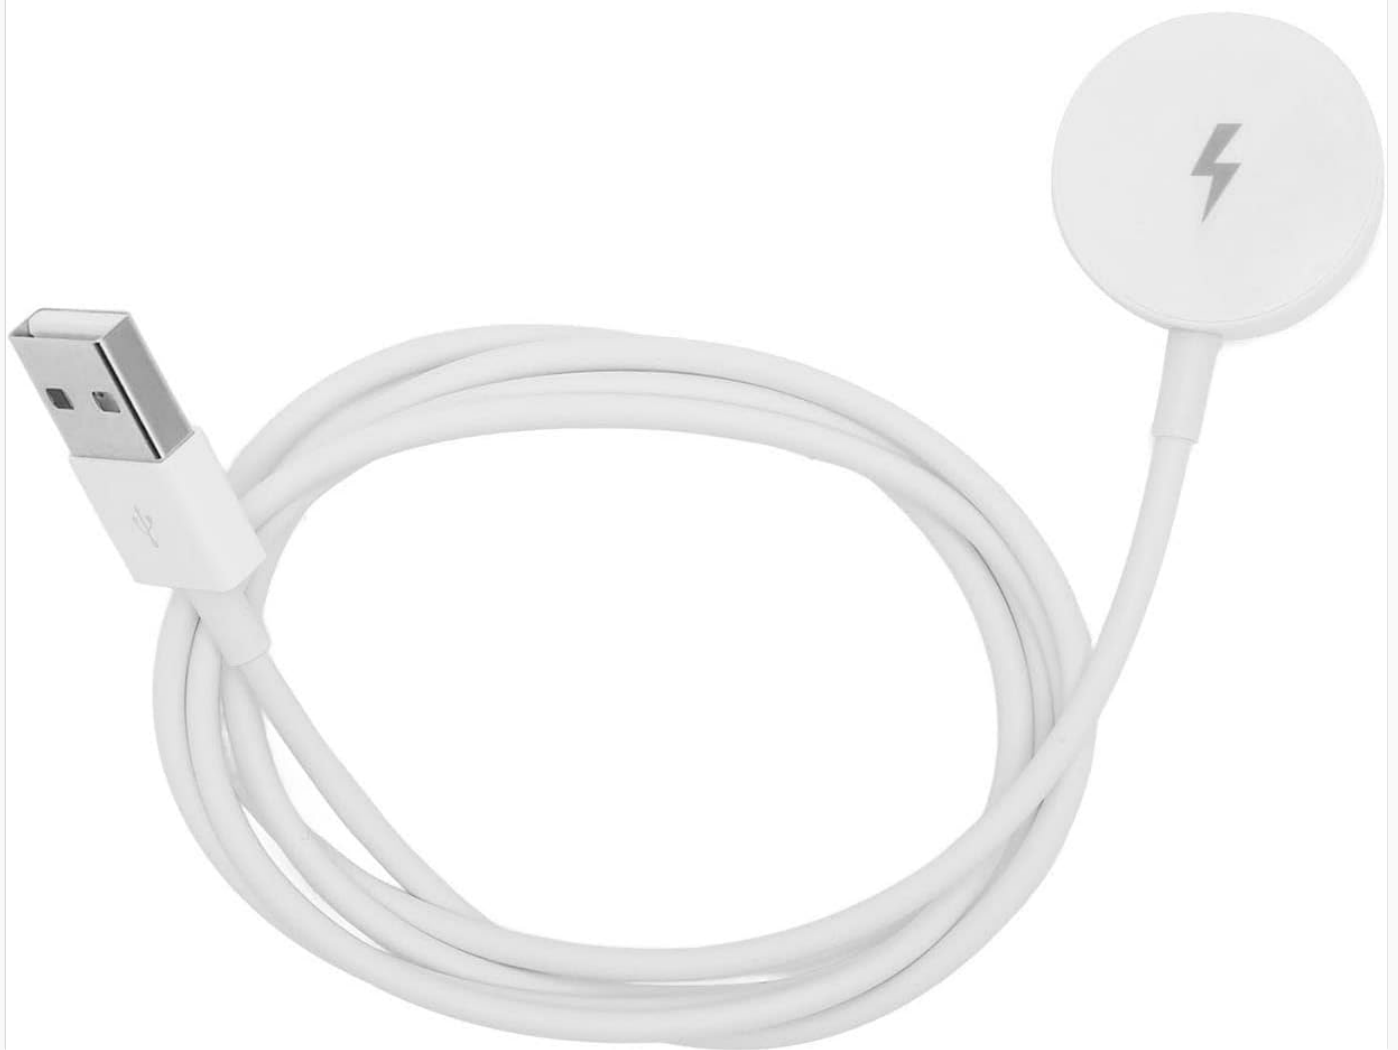

Image 3: Example of a Fossil smartwatch, showing the typical placement for charging.

4. MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your Vikye Smart Watch Charger.

- **Cleaning:** Use a soft, dry cloth to wipe the charging puck and cable. Avoid using abrasive cleaners or solvents.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and extreme temperatures.
- **Handling:** Do not bend the cable excessively or apply undue force to the connectors. Avoid dropping the charger.
- **Liquid Exposure:** Keep the charger away from water and other liquids. If it comes into contact with liquid,

disconnect it immediately and allow it to dry completely before reuse.

5. TROUBLESHOOTING

If you encounter issues with your charger, refer to the following common troubleshooting steps:

- **Smartwatch Not Charging:**
 - Ensure the USB connector is fully inserted into the power source.
 - Verify that the power source (e.g., wall adapter, computer USB port) is active and supplying power.
 - Check that the smartwatch is correctly aligned and seated on the magnetic charging puck. The magnetic connection should feel secure.
 - Inspect the charging contacts on both the smartwatch and the charger for any debris or damage. Clean gently if necessary.
 - Try a different USB power source or a different USB port.
- **Slow Charging:**
 - Ensure your power source provides sufficient current (ideally 500-700mA). Some older USB ports may provide lower current.
 - Avoid using USB hubs or unpowered USB ports, which can reduce charging efficiency.
- **Charger Overheating:**
 - It is normal for the charger to become slightly warm during use. However, if it becomes excessively hot, disconnect it immediately.
 - Ensure the charger is used in a well-ventilated area and not covered by blankets or other materials.
 - If overheating persists, discontinue use and contact customer support.

6. SPECIFICATIONS

Technical Specifications

Feature	Detail
Brand	Vikye
Model	Smart Watch Charger for Fossil Gen 1 2 3
Connectivity Technology	USB
Power Source Type	Corded Electric
Output Voltage	5V
Output Current	500-700mA
Interface	USB interface
Cable Length	Approx. 100cm / 39.4 inches
Product Material	ABS and PC
Item Weight	1.16 ounces

Feature	Detail
Package Dimensions	4.33 x 4.33 x 0.79 inches
